## PREFACE

RMD Sinhgad Technical Institutes Campus, Pune is pleased to present this Self-Study Report (SSR) to the National Assessment and Accreditation Council (NAAC), Bengaluru. Sinhgad Technical Education Society (STES) was established in the year 1993 under the dynamic leadership of Prof. M. N. Navale. The sole objective of the society is to provide quality education in the field of Engineering, Medical, Dental, Pharmacy, Management, Computer Applications, Architecture, Commerce, Law, Science and School education.

Rasiklal M. Dhariwal Sinhgad Technical Institutes Campus is an Integrated Campus established in the year 2011. The institute is recognised by All India Council for Technical Education (AICTE), New Delhi and Directorate of Technical Education (DTE) Government of Maharashtra, Mumbai. It is affiliated to Savitribai Phule Pune University (SPPU), Pune (formerly University of Pune). The Institute is located at Warje, Pune. The institute runs five undergraduate courses and seven postgraduate courses. Undergraduate courses include Mechanical Engineering, Electronics & Telecommunication Engineering, Computer Engineering, Information Technology, and Civil Engineering. Post-graduate courses include Mechanical Engineering (Design Engineering), Electronics & Telecommunication Engineering (VLSI & Embedded Systems), Computer Engineering (Computer Engineering), Information Technology (Information Technology), Civil Engineering (Construction and Management), MBA and MCA.

The faculty strives hard to impart knowledge to the students in order to enhance their competency. The institute has well equipped laboratories which are upgraded in tune with the syllabus of SPPU Pune. We believe in developing a research culture in departments and support innovative ideas from faculty and students. Extensive Student Training Program (STP) are conducted to enhance the skillset and employability. Conduction of industrial visits, technical exhibitions and participation in various competitions are helpful to students in bridging the gap between industry and academia. Institute believes that it is contributing to engineering education and applying for NAAC is a step towards assurance of quality in technical education. Furthermore, the institute is willing to assess its educational system and academic culture. In addition to this it is essential for a professional institute to receive stakeholder's perception towards teaching-learning process and supporting entities. Thus applying for NAAC is a step towards self-introspection leading to further development of the institute towards excellence.

## EXECUTIVE SUMMARY

### Criterion I: Curricular Aspects

RMDSTIC (RMD Sinhgad Technical Institutes Campus) is affiliated to the Savitribai Phule Pune University (SPPU) and follows the curriculum prescribed by the University. The institute follows a standard process to plan and execute activities for effective implementation of the curriculum delivery. There is a formal mechanism to ensure that the curriculum objectives are achieved. This process is called as Course Outcome (CO). CO attainment is judged based on various tools like unit test, mock test, guest lectures, assignments etc.

The institute encourages faculty to actively participate in the syllabus discussion meetings conducted by Board of Studies (BoS) at University level. This helps the faculty to get an insight of the subject as per BoS vision and also helps to interact with subject experts from other institutions. The faculty members are actively participating in various workshops, Faculty Development Programs (FDP) to understand the breadth and depth of the subject for effective delivery of the curriculum. These workshops are conducted under aegis of University.

The institute has signed up Memorandums of Understanding (MOU's) with companies from different domains to gain a broader view of the subject from industry perspective. The suggestions received are communicated to the BoS to be incorporated into the curriculum.

Apart from the courses in program affiliated to SPPU, the Institute offers value added certification courses. These kind of value added courses help in bridging the gap between curriculum and industry needs and gain the knowledge on recent trends and technologies. The institute conducts several sessions under Student Training Program (STP) that helps the students to build personality along with exquisite technical and non technical skills. The objectives of STP are to enhance the employability skills, to prepare the students for entrepreneurship and to promote them for higher education.

### Criterion II: Teaching-Learning and Evaluation

The institute has earned its name due to excellence in teaching and learning processes which is achieved by recruiting competent teaching faculty and designing learning environment in tune with stakeholder's perception. Institute's 80% admissions are carried out through centralized admission process of the Government. The remaining 20% students are admitted by the institute on merit basis as prescribed by the DTE/Govt.

In order to have smooth conduct of teaching, meticulous planning is done prior to the commencement of the semester. Syllabus completion status is monitored periodically. Suggestions by the staff and feedback from students facilitate in continuous improvement in the teaching-learning process. The institute has adopted the reforms in assessment and evaluation patterns by the SPPU. Accordingly, tests are designed and conducted on a regular basis to prepare and assess the students' knowledge and understanding of the technical know-how being delivered in the classrooms and laboratory sessions. The students' learning outcomes and performance in the examinations are reviewed and monitored by Academic Monitoring Committee (AMC) to assess academic progress of the institute.

### **Criterion III: Research, Consultancy, and Extension**

The institute motivates faculty members for research by providing infrastructure and laboratories for doing their Ph.D. The faculty is duly recognized and encouraged to participate in various workshops and conferences, to remain abreast with latest knowledge and technology updates. Institute makes financial provisions in the budget to cater to needs of the research. Furthermore, through workshops and seminars supporting mechanism has been developed to encourage in the patent filing. Students and faculty are motivated to pursue industry sponsored projects. Energy centre and Wireless Communication research neighborhood are being developed to cater to the needs of research in the said sectors.

Institute has signed MoUs with many industries for project work; these industries not only offer technical expertise but lend their facilities for the research activities. Extension activities on the technical front are carried out by the institute by having MOUs with leading industries. The students are made aware of their social and moral obligations towards society through techno-social activities. The institute has collaborations with reputed industries and international universities.

### **Criterion IV: Infrastructure and Learning Resources**

The institute has an adequate number of classrooms, laboratories and workshops. The institute has sufficient seminar halls which are used for multiple activities such as seminars, workshops, and conferences. Various sports facilities are available to students with grounds for football, cricket, basketball, etc. The library (main and digital) has an excellent collection of books, references, journals, magazines and a book bank facility and has a reading hall having a seating capacity of over 300 students. The laboratories are equipped with modern equipments, machinery, computer hardware and software required for both academic and research. The maintenance of institute and campus facilities is carried and monitored by office. Appropriate funds are made available in the annual budget for it, and its utilization is monitored by the director of the institute.

### **Criterion V: Student Support and Progression**

The institute has an annual intake of 1224 students with a total strength of 3438 students coming from diverse geographical locations of India. In order to cater to the needs of students, Teacher-Guardian (TG) scheme is followed. Each TG is assigned to a batch of students who monitor the academic and personal progress of these students, which helps to improve the results. The TG is also in constant touch with their parents/local guardians. Office staff provides necessary support and information regarding various scholarship and insurance schemes run by university and Government. Many students have availed this facility. The institute arranges special coaching for GATE/GRE and other competitive examinations. Also, coaching for slow learners is provided through remedial classes. The Training & Placement (T&P) cell of the institute provides career guidance and organizes campus recruitment drives for the students. The students are encouraged to go for internship in industries during vacations. The department and the T&P cell helps the students in this regard. The T&P cell guides and counsels the students for placement activities through various initiatives such as online assessment tests, STP, VAPs, AMCAT and foreign language courses. Development of entrepreneurial skills is encouraged in the students by arranging courses. Institute has framed various bodies which support students' progression, feedback and used to address students grievances in time. Every year

institute conducts several sports, extracurricular and co-curricular activities for overall development of the students. Students have representation in various associations as well as central academic monitoring cells. All students bodies are encouraged to provide constructive feedback on the institutional academic and administrative environment. All relevant information is available on the institute website.

### **Criterion VI- Governance, Leadership, and Management**

The mission and vision of institute are designed in harmony with higher education policies of India. The institute has a governing body works under the Sinhgad Technical Education Society, which is lead by the academician. Faculty members on the management committee are actively involved in the decision-making process at various levels. Periodical interaction is made with all stakeholders for strategic planning and monitoring of policies. The various institute level committee are comprised of the Director, Heads of Departments, senior faculty, and student's representative for grooming the leadership at various levels. The institute organizes annual Technical Festival 'Techtonic', workshops, seminars and conferences for the overall development of the students and to inculcate leadership qualities among them.

The institute has adequate budgetary provision for academic activities and its mobilization is monitored by the institute to ensure optimum utilization. Regular internal audit is carried out. The institute is autonomous in the decision-making process and planning for strategic development and deployment for perspective plan document. The institute has well-defined strategies for faculty recruitment and promotion. Institute facilitates advancement in qualification improvement programme. Through the performance appraisal, institute reviews the performance of the faculty. These appraisals are designed considering various parameters of the teaching-learning process. Improvement in the qualification is appropriately appreciated through scale improvement and promotion. Train the Trainer (TTT); skill enhancement programme is a trademark of the institute. In addition to this, staff is encouraged to participate in the staff development programmes organised at various institutes.

### **Criterion VII- Innovations and Best Practices**

The institute is committed to adopting environment-friendly policies with regard to the plantation, waste management. Institute has started many innovative programmes which have helped to create positive impact and improvement in academic culture. These mainly include Value Addition Programs and Remedial classes. The use of ERP software (paperless) for the academic-administrative purpose has shown our commitment to a green environment. The formation of Industry Institute Interaction Cell (IIC) has added impact on the industry-institute interactions and placement. The best practice is the Student Training Program (STP) to enhance the personality and employability of the students. The STP is spread over six semesters spanning the areas from soft skills, technical skills to interview skills. The institute conducts training for Quantitative Aptitude & Logical Reasoning (QA&LR) for three days, GD & PI for the students to improve their skills. This has benefited the students to a great extent. The institute also conducts workshops on specific domain in coordination with subject experts from industry, which adds value to the development of the institute and makes the interaction with other institutes.

## SWOC ANALYSIS OF THE INSTITUTE

### Strengths:

- Good academic performance.
- Experienced and qualified faculty and their retention.
- Transparent, conducive and collaborative work environment.
- Innovative teaching-learning practices.
- Sprawling 10 acre campus and infrastructure.
- Well equipped library with adequate collection of books and e-resources.
- Effective implementation of VAPs, and STPs.
- Good placement record.
- Teacher guardian scheme.
- Promoting staff to do Ph. D.
- Industry Institute Interaction Cell.
- Under the agies of the society which offers quality educationfor the past 24 years.
- Accessible location.

### Weaknesses:

- Consultancy.
- Strength of the alumni association.
- Funded Research Projects.
- Number of Ph.D staff.
- Less number of Publications .

### Opportunities:

- There is scope for an inter-disciplinary and collaborative research.
- To become centre of excellence in renewable energy and Wireless Sensor Networks.
- Development of e-learning resources.
- Networking and strengthening relationship with stakeholders.
- Induction of faculty with Ph.D qualification.
- Proximity to IT & Automobile industry hub for networking and partnership.

### Challenges:

- Increasing the number of placements with higher perks.
- Bridging the gap between academia and industry.
- Attract meritorious students.

## CRITERION I: CURRICULAR ASPECTS

### 1.1. Curriculum Planning and Implementation

**1.1.1. State the vision, mission and objectives of the institution, and describe how these are communicated to the students, teachers, staff and other stakeholders.**

#### VISION

उत्तमपुरुषान् उत्तमाभियंतृन् निर्मातुं कटीबध्दाः वयम्।

We are committed to produce good human beings along with good Engineers.

#### MISSION

Holistic development of students and teachers is what we believe in and work for. We strive to achieve this by imbibing a unique value system, transparent work culture, excellent academic and physical environment conducive to learning, creativity and technology transfer. Our mandate is to generate, preserve and share knowledge for developing a vibrant society.

#### Objectives

##### Goals and objectives of the Institution

- To achieve quality academic performance of the students at university examinations by implementing adaptive and effective Teaching Learning Process.
- To ensure all-round development of students by providing Student Training Programs (STP) and Value Added Programs (VAP), which help students to get prepared for placements.
- To motivate students to participate in various technical, co-curricular and extra-curricular activities.
- To inculcate research culture in faculty and students and encourage them by providing research facilities.
- To motivate faculty and staff to improve their qualification and make themselves suitable in the new era of education
- To update the knowledge of the faculty by giving them consistent up-to-date awareness of new technologies through Faculty Development Program (FDP) and Train the Trainer (TTT) Program
- To inculcate moral integrity in students and make them socially responsible and good human beings

**Communication to Stakeholders:**

- The vision, mission and objectives of the institution are communicated to all the stakeholders and are displayed on the Institute website, at various prominent locations of the Institute building such as the Principal's office, HOD Cabin, library, notice boards, entrance and corridors.
- It is also communicated to all First Year Engineering (FE) students and laterally admitted second year students through the FE and SE induction program respectively at the beginning of every year.
- It is communicated to parents through the FE induction program and Parent's meeting which is held in every semester.
- We make sure that all the entities of our academic calendar will one or the other way becomes responsible for the fulfillment of our objectives.

**1.1.2 How does the institution develop and deploy action plans for effective implementation of the curriculum? Give details of the process and substantiate through a specific example (s).**

Development of the action plan:

RMDSTIC (RMD Sinhgad Technical Institutes Campus) has a distinct culture of rigorous action plan development. The entire process is divided into three parts:

- i. Before semester starts
- ii. During semester
- iii. Co curricular activities

**i. Before the Semester starts:**

- Lesson Plans are designed meticulously. Its components are:
  - Course objectives designed by faculty and linked with PEOs.
  - Unit objectives linked with course objectives
  - Course learning outcomes linked to course objectives.
  - Lecture-wise teaching plan linked with unit objectives
- Academic calendar is prepared well before the commencement of every semester of academic year by each department with major guidelines from the Principal. This calendar consists of plan of conducting in-house tests, STP, VAP, Quantitative Aptitude and Logical Reasoning (QALR) test, mock practical / oral examinations, university examination schedules, AMCAT tests.
- HODs allot academic workload in consultation with the faculty and principal. Few faculties are also allocated to other departments to take specific subjects.
- Class timetables are prepared and displayed before commencement of semester. Individual faculty timetables, classroom utilization timetables and laboratory utilization timetables are also prepared.

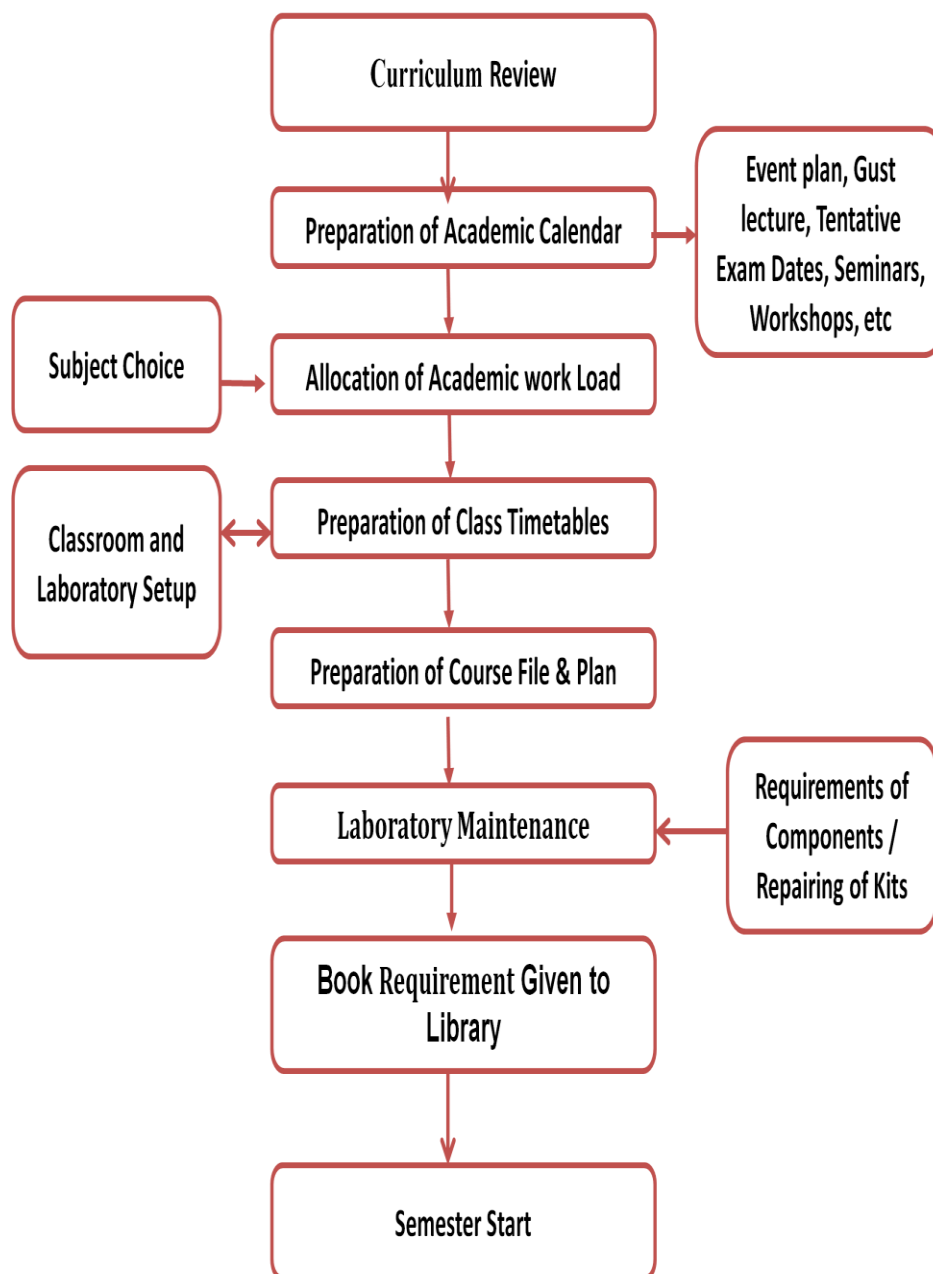

- Every faculty prepares the course file, lesson plan and get it approved from HOD before the commencement of the semester. Every time the faculty is supposed to add innovations in the teaching methodology.

The course file components are:

- PEOs and POs
  - Course Objectives, Syllabus
  - Individual Time Table, Teaching Plan
  - University Question Papers
  - Question Banks- Theory, Oral, or Objectives (MCQs).
  - Subject Notes and Power Point Presentations (PPTs)
  - Unit Test I, II and Prelim Exam: Question Paper, Attendance Record, Result Analysis, Sample Answer Sheets
  - Assignments/Tutorial
  - Continuous Assessment Record
  - Students Attendance Record
  - Feedback
  - Result analysis
  - The lesson plans and course files are checked and validated by the HoDs.
- Train The Trainers (TTT) programs are organized for faculty by the institute and Faculty Development Program (FDP) by the University for Different Courses.
  - Laboratory manual is prepared as per the guidelines given by University for conducting practical.
  - Attendance booklets (green books) are provided to all faculties to make a record of attendance of the students during Theory (TH) and Practical (PR) sessions.
  - Requirement of book is given to the Institute Library.
  - Industrial visits are planned and executed depending on the need of the curriculum.
  - Requirements of equipments, consumables, maintenance are forwarded through HODs to the Principal, as and when necessary.
  - Faculty requirement for each semester is calculated and recruitment is done as the procedure set by STES. Short listed ( from applications received) candidates are called for interviews and a panel of faculty (including HOD) take interview which includes a demo lecture by candidate and the names are forwarded to management for approval.

- The Teaching-Learning-Practices before semester in all the departments has been outlined in Figure 1.1.2 a

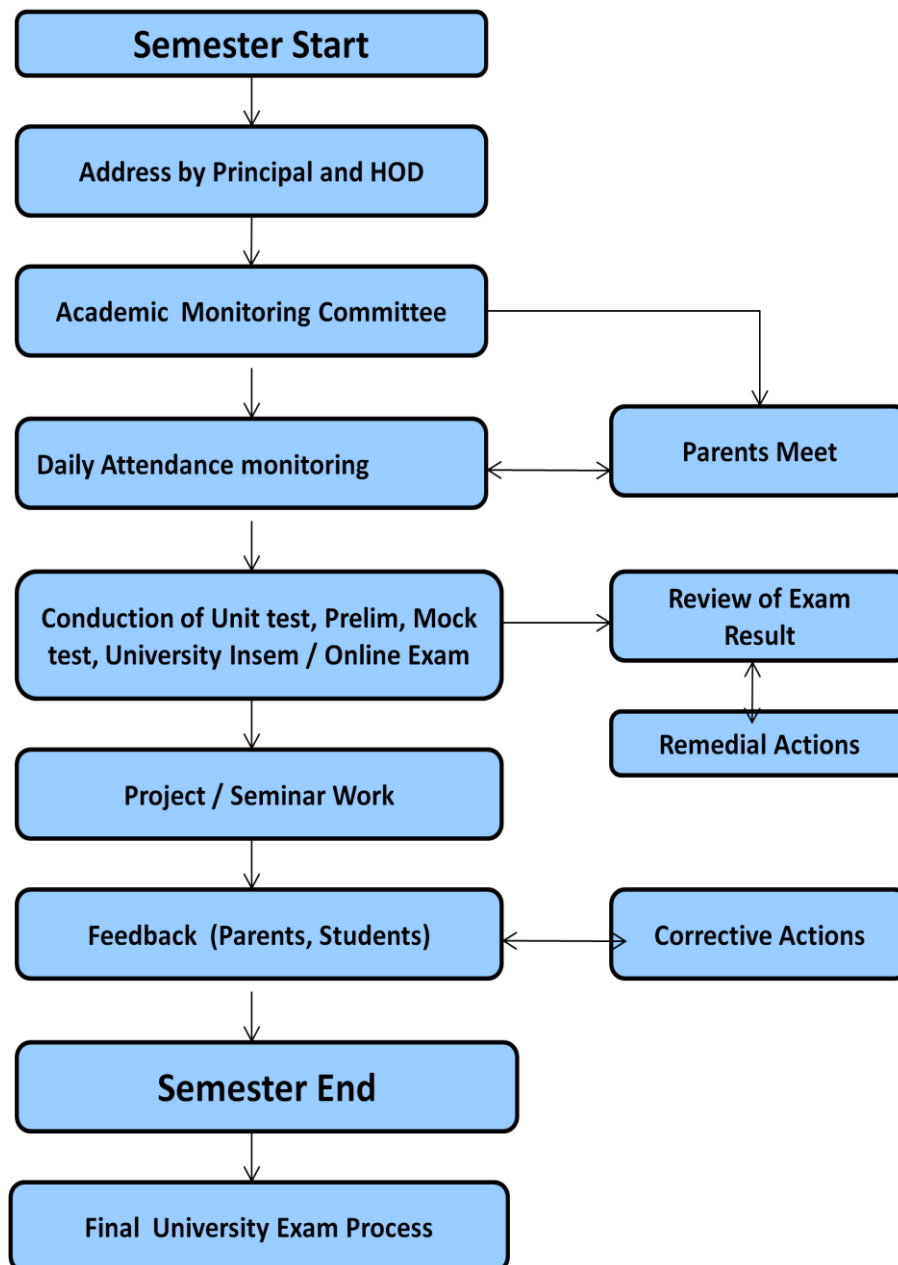

**Figure 1.1.2 a. Teaching-Learning-Practices- Before Semester**

**ii. During the Semester:**

- The Principal and HODs address students and staff specifying the goals for the Semester.

- Teaching and learning is carried out by all faculties with the help of modern technology aids. All HODs make sure about conduction of every class and practical sessions of the department as per scheduled timetable.
- Teaching-Learning-Practices followed during semester in all departments has been outlined in Figure 1.1.2 b.

**Figure 1.1.2 b. Teaching-Learning-Practice- During the Semester**

### Monitoring

- Effective implementation of curriculum is periodically reviewed through departmental meetings.
- The progress of the students (Attendance and internal test performance) is regularly informed to their parents through SMS and phone calls. Students

having attendance lesser than 75% and having low performance in internal tests, their parents are called in college to discuss about his/her progress. The parents can contribute to the improvement of the student by means of this update.

- Every semester at least one parent meet is conducted where, all parents are invited to meet the Teacher Guardian, class in-charge, subject teachers and HOD to have an on the spot assessment of the students.
- In Parents meet, HOD makes all the parents aware of the practices are carried out in the department in terms of academics, placement and overall grooming of their ward.
- Students' online feedback is taken. The outcome of the feedback is monitored by Academic Monitoring Committee (AMC).
- Every month, department academic progress is reviewed by HOD. This review consists of attendance of the students, syllabus coverage, and practical assignments completed and internal examination performance of the students.
- Process of monthly review of students' attendance and reporting the defaulters to respective parents is carried out to maintain discipline of continuous evaluation.
- Results of university on-line examinations and in semester examinations are analyzed and necessary remedial classes are conducted. Extra sessions are normally required for the weaker students and slow learners.

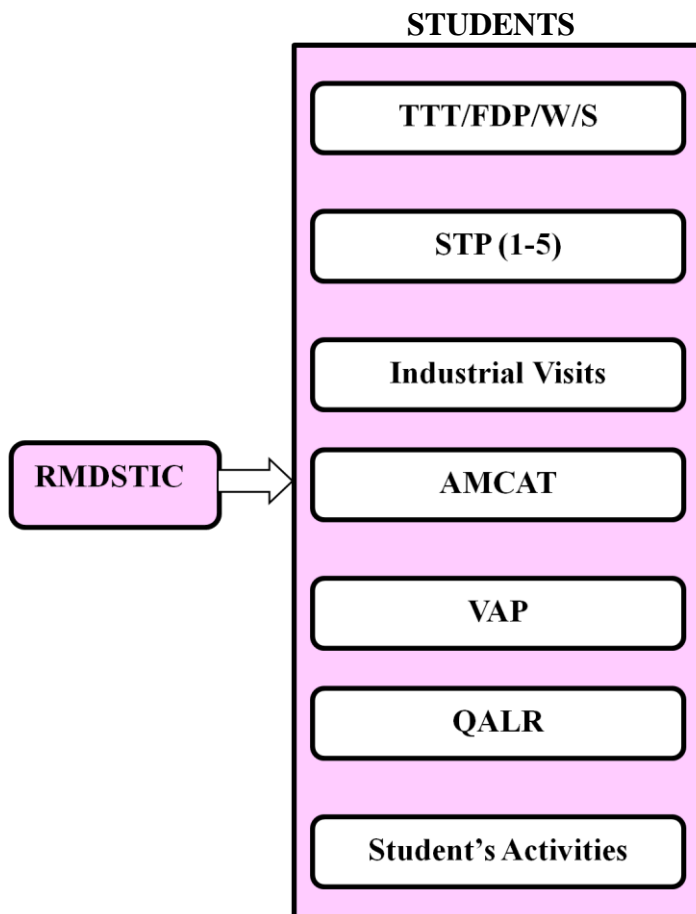

### **Assessment and Evaluation**

- Based on the curriculum, various examinations like unit tests, mock online and prelim exams are regularly conducted as per the academic calendar.
- Proper review of the results is carried out by the respective faculty and HOD.
- The faculty is appropriately appreciated for his/ her performance in academic activities.
- Mock online test are taken for first and second year students before their online exam.
- Internal tests and preliminary examinations are conducted to confirm the percolations of subject matter to the students by the faculty as per the schedule.
- Internal mock practical / oral examinations are conducted to test the students' practical knowledge before they actually appear for the University practical / oral examinations.
- Project progress is timely monitored in project work books. Individual and Team efforts are taken into consideration. Marks are given based on multiple parameters of individual and team.
- Feedback is taken from the students. Academic Monitoring Committee (AMC) monitors this feedback and corrective actions are taken by HODs.
- Assignments are given for better understanding of the subject.

### iii. Co-Curricular Activities:

Apart from university curriculum, every department also plans for various activities throughout the semester to achieve the overall development of students.

The execution model of the RMDSTIC departments has been summarized in Figure 1.1.2 c

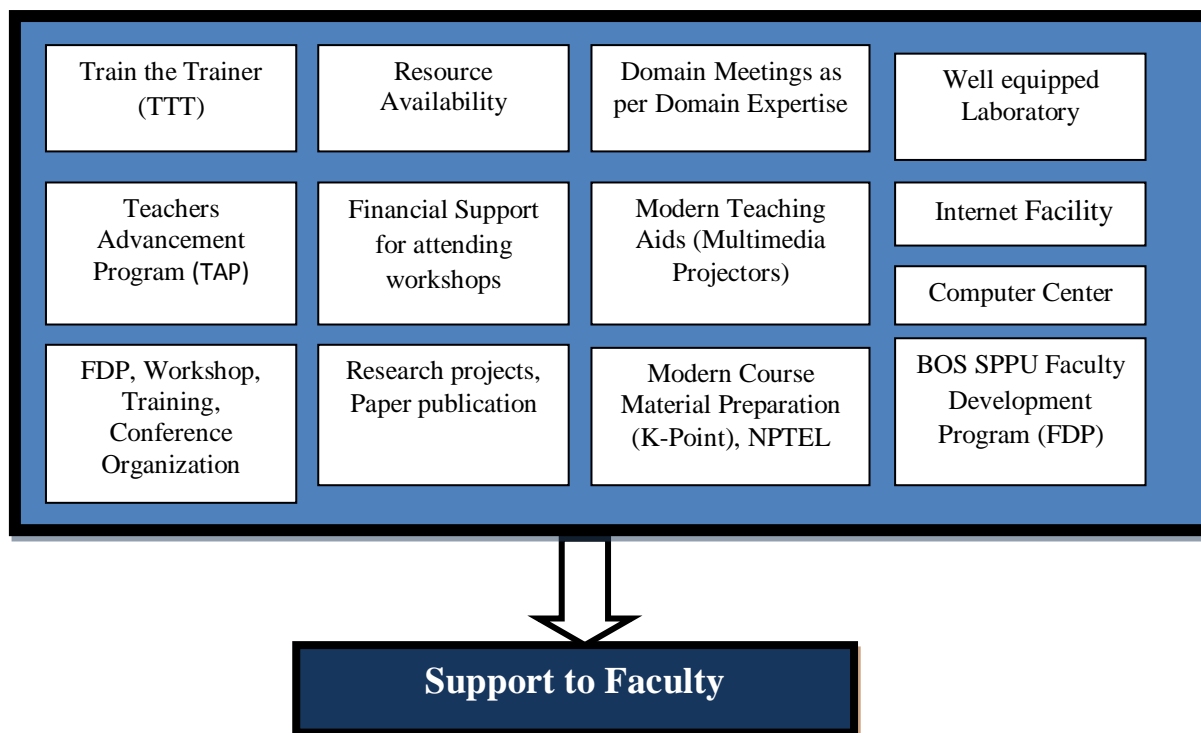

**Figure 1.1.2 c. Co-Curricular Activities**

- Learning beyond syllabus is achieved by arranging guest lectures. Industry persons are invited in all the departments to give awareness of new technologies in the field. These interactions also help to guide the students while selecting their projects in final year and talks about future scope of the respective discipline.
- Conduction of STP modules in every semester gives awareness of corporate culture and inculcates skills among the students that are needed to make them compatible to the corporate world.
- Conduction of Aspiring Minds Computer Adaptive Test (AMCAT) examinations and its results give an opportunity for the students to do their Strengths-Weaknesses- Opportunities-Constraints (S-W-O-C) analysis and allow them to think on areas to be improved upon. These examinations are conducted in every semester.

### 1.1.3 What type of support (procedural and practical) do the teachers receive (from the University and/or institution) for effectively translating the curriculum and improving teaching practices?

For effectively translating the curriculum and improving teaching practices institute provides support to faculty in various forms as shown in Figure 1.1.3

**Figure 1.1.3 Support given by the Institute to the Faculty**

#### **Support to faculty from University:**

- Faculty receives grants from SPPU for organizing workshops, seminars, and conferences at the state, national and international levels.
- SPPU provides training to the faculty through various syllabus implementation workshops.
- University conducts syllabus discussion and revision meetings conducted by Board of Studies (BOS) for the faculty.

#### **Support to faculty from Institution:**

- Faculty is encouraged to participate in syllabus discussions and revision meetings conducted by Board of Studies (BOS).
- Faculty is encouraged to participate in Faculty Development Programs (FDPs), Conferences and Workshops carried out in other institutes by providing financial support and on duty leaves.
- The institute also conducts FDPs/workshops/expert lectures for faculty.

- Perfect synergy has been achieved among faculty through regular brainstorming sessions in Train the Trainers (TTT) programs conducted by the STES.
- Institute conducts, Teacher's Advancement Program (TAP). It is a holistic development program for all teachers.
- Faculty has full access to the Central library which has collection of reference as well as text books needed for curriculum delivery as well as for their research work.
- Faculty is encouraged and supported to do research projects; acquire higher qualifications; publish research papers in reputed journals and conferences.
- Table presents number of FDPs/Workshops/ Conferences attended & organized by Faculty:

**Table 1.1.3: FDPs attended, conducted and paper published**

Year	2017-18*	2016-17	2015-16	2014-15	2013-14

Conducted	17	17	15	06	09
Papers Published	28	75	158	74	50

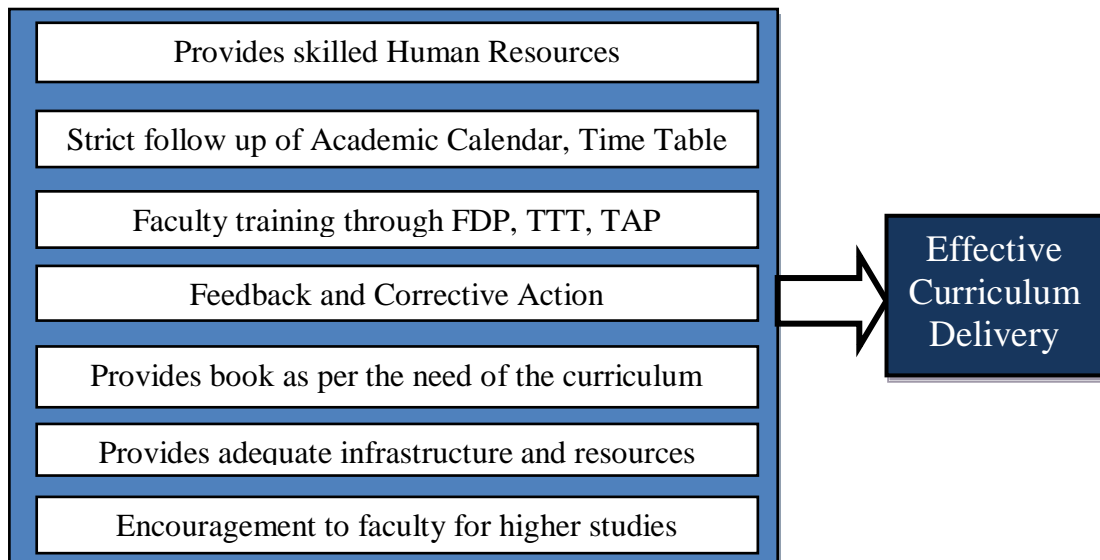

#### **Institute Library:**

- The Institute Library has a rich collection of books to support the curriculum.
- Apart from this our society has a central library accessible to students & faculty members of our campus located at Vadgaon. Internet facility for searching database of online e-journals like IEEE, Springer, etc. is available.
- The faculty and students are provided with books from the central library. Apart from this, all Departments offer Departmental Library facility for both.
- NPTEL resource is made available.
- Wi-Fi and Internet facility is available in the campus.

#### **1.1.4 Specify the initiatives taken up or contribution made by the institution for effective curriculum delivery and transaction on the Curriculum provided by the affiliating University or other statutory agency.**

For effective curriculum delivery and transaction on the Curriculum provided by the affiliating University or other statutory agency the following support is provided by the institute, as summarized in Figure 1.1.4

**Figure 1.1.4 Support for effective curriculum delivery**

- Society conducts Teacher Advancement Program (TAP) in order to enhance the capabilities of the teaching faculty. This program includes personality enhancement, teaching skills development, use of modern teaching aids and motivational case studies, etc.
- In TTT programme teachers dealing with a given course of all streams meet together before the start of the semester and evolve the best course material. This resource is then shared with all the teachers. This is a continuous process year after year.
- A further useful resource is provided in the form of Audio Lectures on the K-Point Platform. These lectures are prepared by faculty based on syllabus. The recording is done for few subjects. These lectures are accessible to all the students and teachers in the institute.
- The students are taken out for educational tours such as industries/trade fairs, exhibitions and to places of historical importance.
- Guest lectures by industry experts are arranged on the latest technologies for the students.
- At the department level, the platform is provided to the students to complete online courses such as EDX and IIT spoken tutorials.
- VAPs are conducted on latest technologies and programming languages by reputed external agencies.
- Teacher Guardian (TG) scheme is in place. There is a TG for each batch students. The TG interacts with these students to solve their problems, guide them and counsels them for overall development.
- Feedback is taken from the students on the teaching learning process.
- Academic Monitoring Committee and concerned HODs monitors this feedback and takes corrective actions.

- Every classroom is equipped with a projector, facilitating smooth and effective lecture delivery.
- Other resources needed for lecture/practical delivery are readily available
- The lecture material is designed and delivered using pedagogical initiatives such as analogy, ICT supported learning. Lecture Notes and question banks are shared with the students
- Remedial classes are arranged for the weak students.

### **1.1.5 How do the institution network and interact with beneficiaries such as industry, research bodies and the university in the effective operationalisation of the curriculum?**

1. Major emphasis is laid by the institute on networking with industry, research bodies, and university. Industry Institute Interaction Cell (IIIC) is constituted at the institute in coordination with Training and Placement (T&P) office. Each department has a representative in this cell.

Roles and responsibilities of IIIC are:

- Identifying research opportunities and collaborative projects
- Assessment and evaluation of PEOs and POs.
- Arranging invited talks and industry visits.
- Evaluation of projects in project competitions.
- Constructive feedback on academic environment and for curriculum development.

2. Eminent academicians and researchers from renowned institutions and research organizations are invited to enlighten the students on relevant topics within and beyond the syllabus.

3. The webinars, video lectures of expert faculty on selected topics are presented for students and faculty.

4. Institute interacts with SPPU through activities such as curriculum development workshops, syllabus implementation workshops, and Board of College & University Development (BCUD) projects.

5. Institute has successfully completed industry projects in various areas of the engineering, MBA and MCA. This has resulted in strengthening the institute industry network.

6. The institute has a very well established Training and Placement cell. This cell looks after placement of students as well as interaction with industry. It provides feedback from industry.

7. The college has signed up Memorandum of Understanding (MOUs) with companies from different domains. College organizes guest lectures, training sessions under these MOUs. This helps students to gain a broader view of the subject from industry point of view.

**1.1.6 What are the contributions of the institution and/or its staff members to the development of the curriculum by the University? (Number of staff members / departments represented on the Board of Studies, student feedback, teacher feedback, and stakeholder feedback provided, specific suggestions, etc.)**

The faculty members contribute in design, revision and updating of the curriculum from time to time by participating as a Subject expert, Subject chairman, evaluation schemes and part of the syllabus setting committee. Besides this, the feedback received from the stakeholders is communicated to university.

- Faculty has also attended University FDP for new course in curriculum.
- Feedback on curriculum is taken from students, alumni, industry, faculty and efforts are made in implementing those.

**1.1.7 Does the institution develop curriculum for any of the courses offered (other than those under the purview of the affiliating university) by it? If 'yes', give details on the process (Needs Assessment, design, development and planning) and the courses for which the curriculum has been developed.**

- The institute does not provide courses other than the University syllabus courses, but runs courses offered by SPPU for various programs.
- The institute through inputs from various stakeholders has identified curriculum gaps. The institute works closely with stakeholders who mainly include academicians, industry people, training institutes, and alumni to finalize needs of the students. Based on the needs, courses have been identified and categorized under VAPs and STP.
- The course contents of VAPs and STP are developed by the institute. Each department has developed VAP according to needs of the program. A sample list of STP and VAP is provided in Table 1.1.7

### 1.1.8 How does institution analyze/ensure that the stated objectives of the curriculum are achieved in the course of implementation?

Every Programme has PEOs and POs

- The Programme Education Objectives (PEO's) are achieved by the curriculum course outcomes and are revised once in four years as per the revision in the university syllabus.
  - Content beyond syllabus is covered through different activities like guest lectures, industrial visits.
- **Program Educational Objectives and Program Outcomes**

### **Program Educational Objectives**

- I. Learning the fundamental principles and different methods.
- II. Study of various cycles and evaluate performance.
- III. Study of the various equipment-operating principles, operating and safety controls employed.
- IV. To develop an ability to design a system, component, or process to meet desired needs within realistic constraints.
- V. To develop an ability to identify, formulate, and solve engineering problems.
- VI. Students will learn about what is heat transfer, what governs the rate of heat transfer and importance of heat transfer.
- VII. The course provides practical exposure.

### **Program Outcomes**

At the end of this course the students should be able to

- a. Illustrate the fundamental principles and applications.
- b. Present the properties, applications and environmental issues of different refrigerants.
- c. Ability to have adequacy with Design, erection and development of energy conversion plants.
- d. Optimization of Energy Conversion plant with respect to the available resources.
- e. Formulate basic equations for a given problem.
- f. Apply principles to design and evaluate performance of thermal systems.
- g. Calculate and evaluate the impact of boundary conditions on the solutions of heat transfer problems.

## 1.2 Academic Flexibility

### 1.2.1 Specifying the goals and objectives give details of the certificate/diploma/skill development courses, etc., offered by the institution.

#### Goals and Objectives

- I. To bridge the gap between curriculum and industry needs.
- II. To gain knowledge on recent trends and technologies.

Apart from the programs affiliated to SPPU the college offers certification courses which basically serve the purpose of value addition. These courses enhance the employability skills of the students. In order to achieve the goals and objectives of institutions following programs are offered.

- Training by Zensar Technologies for Computer and IT students
- Business English certificate Exam of Cambridge University conducted by Sinhgad International Language Center.
- Soft skill training

**Table 1.2.1 Certificate/Skill development courses**

**1.2.2 Does the institution offer Programs that facilitate twinning/dual degree? If 'yes', give details.**

The institute does not offer any twinning/dual degree program.

**1.2.3 Give details on the various institutional provisions with reference to academic flexibility and how it has been helpful to students in terms of skills development, academic mobility, progression to higher studies and improved potential for employability.**

Issues may cover the following and beyond: Range of Core /Elective options offered by the University and those opted by the college

**Skill development**

- The institute provides academic flexibility to the students by providing industrial / research oriented projects in collaboration with research and development departments of core companies and thereby encouraging interdisciplinary work within the range of curriculum designed by the affiliating university.
- The institute also provides VAPs and STP to enhance the skills.
- Enrichment courses like add-on modules, students' workshops, guest lectures are offered to students to enhance their skill set.

**Academic mobility**

- The courses in SPPU undergo syllabus revision after every four years.
- The affiliating Savitribai Phule Pune University offers flexibility to institutes to design and offer so-called Open Elective based on the needs assessment of the stakeholders. Programme / departments design/select the elective and obtain due approval for the same from the university. Such electives are then offered to the students so that they are equipped with most relevant knowledge in the field of application.
- To illustrate electives are furnished as shown in table 1.2.3

**Table 1.2.3 Open Electives offered by University and Institute**

<b>Mechanical Engineering</b>

- Expert lectures for difficult subjects as a preventive measure are introduced by departments.
- Webinars are arranged to cover contents beyond the syllabus and give students exposure to latest technologies.
- Experiments are also conducted beyond curriculum specified by the university.
- The choice based credit system is available for PG programmes in the affiliating University. However, it has been introduced for UG programmes in engineering for first year and second year only.

#### **Progression to Higher Studies:-**

- Guest lecturers for the same are organized by the T&P and Departments to boost the student's confidence to go for higher studies in various specializations.
- Every department arranges the industrial visit for every class based on the relevant subject. The visits are mapped to the curriculum subjects.
- The institute also encourages students to go for internship training in various industries during summer/winter vacation.

#### **1.2.4 Does the institution offer self-financed Programs? If 'yes', list them and indicate how they differ from other Programs, with reference to admission, curriculum, fee structure, teacher qualification, salary, etc.**

**No**

#### **1.2.5 Does the Institute provide additional skill oriented Programs, relevant to regional and global employment markets? If 'yes' provide details of such Program and the beneficiaries.**

- Institute has T&P cell which arranges skill oriented programs as per needs of the employment market. The institute also has industry interaction programs where students get a chance to work with industry thus enhancing their employability skills.

#### **Training and Placement facility:**

- T&P cell conducts various skill oriented programs. In these programs, activities such as Group discussion (GD), Personal Interview (PI) sessions, Test Series of Quantitative Aptitude (QA) – Logical Reasoning (LR) are conducted throughout the academic year.
- Employability tests are designed and conducted based on requirements of the employers.
- A major statistical assessment platform to assess employability in the form of Aspiring Minds Computer Adaptive Test (AMCAT) is undertaken which is well accepted by top Multi National Companies (MNC's).
- Additional skill areas like soft skills and add-on technical skills are covered for student development through exclusively designed Student Training Programs (STP) and Value Addition Programs (VAPs). Details of Activities are provided in Figure 1.2.5

## STUDENT TRAINING PROGRAM - OVERVIEW

**Figure 1.2.5: Student's Progression under STP**

### STP 1: SOFT SKILLS

- SWOT Analysis, Goal Setting, Personality And Stress Management, Behavioral Skills, Communication Skills
- AMCAT, Employability Test
- Writing Skills Competition

### STP 2: COMMUNICATION SKILLS

- Listening, Reading( Technical And Nontechnical), Writing (Letter, Resume, CV, Report ), Speaking(Public Speaking, Group Discussion)
- AMCAT, Employability Test
- Speaking Skills Competition

### STP 3: TECHNICAL FUNDAMENTALS & APTITUDE TRAINING

- Technical Fundamentals
  - I. Technical Training on: Data Structures & Algorithms, Object Oriented Programming and Problem Solving for E&TC, Computer and IT Engineering

- II. Strength of Materials, Fluid Mechanics and Thermodynamics, Theory Of Machines, Manufacturing Processes and Metallurgy ,Design Of Machine Elements for Mechanical Engineering
- III. Technical Training on Surveying Structures and Construction, Water Resource Engg, Materials, Geotechnology Engg for Civil Engineering.
  - Aptitude Training
  - AMCAT, Employability Test

#### **STP 4: RESEARCH METHODOLOGY AND APTITUDE TRAINING**

- Research Methodology Training, Aptitude Training
- AMCAT, Employability Test
- Review Paper Competition

#### **STP 5: INTERVIEW PREPARATION AND VALUE ADDITION PROGRAM**

- Value Addition Program on: Java, Android Programming
- Group Discussion & Interview Preparation
- Employability Test

#### **Industry Interaction Programs**

- Institute has signed MOUs (Memorandum of Understanding) with industries. Refer table 1.1.5 b

#### **1.2.6 Does the University provide for the flexibility of combining the conventional face-to-face and Distance Mode of Education for students to choose the courses/combination of their choice”? If ‘yes’, how does the institution take advantage of such provision for the benefit of students?**

**No**, SPPU does not provide flexibility to the institute for combining the conventional face-to-face and distance mode of education for students.

### **1.3 Curriculum Enrichment**

#### **1.3.1 Describe the efforts made by the institution to supplement the University’s Curriculum to ensure that the academic Programs and Institution’s goals and objectives are integrated?**

- Considering the fast changing industry scenario, there is a scope for faculty to introduce a new skill development program into the curriculum.
- Institute has conducted various industry and domain expert guest lecturers as IoT, Latex, etc. This helps in qualitative technical education as per need of the industry along with co curricular activities.
- Institute has organized various workshops and real time site visits at various locations such as Mapro Industry, Suzlon windmill power station. This establishes healthy atmosphere for students and teachers by encouraging exchange of thoughts and discussion leading to their holistic development.
- Institution has arranged different guest lecturers seminars, Workshops, FDP, Industrial Visits to achieve Practical exposure and challenges in society
- The existing curriculum is enriched through following modules and activities:

- Institute arranges the VAPs and STP.
  - Institute conducts various expert lecturers from industry and academicians to help students to enrich their knowledge beyond the curriculum.
  - Institute arranges seminars and workshops on recent topics.
  - Institute arranges the annual project exhibition.
  - Institute arranges national level technical festival “Tectonic”.
  - Institute arranges the paper presentations.
  - Institute also arranges the AMCAT tests and QALR tests for students to make them more suitable for industrial job profiles.
- Students are encouraged to participate in the research projects competition like “e-PGCON”.
  - Alumni interactions and industry visits are arranged periodically.

### **1.3.2 What are the efforts made by the institution to enrich and organize the curriculum to enhance the experiences of the students so as to cope with the needs of the dynamic employment market?**

- The institute periodically calls alumni to meet HOD & students to discuss the needs of industry. The students are given training in these areas.
- The training and placement cell of the institute interacts with the Human Resource (HR) managers of reputed companies and collects information about requirements of the industry, regarding skill set of students. Considering these requirements, add on courses (VAPs and STP) and expert lectures are conducted. In such lectures, students and experts discuss one to one. This helps students to understand the current and future needs of industry and helps them to set their short and long terms goals.
- Student associations are constituted in all departments to inculcate the leadership and managerial skills. For e.g. electron-Winning Oriented & Radiant Telecommunication Society (e-WORTS) of Electronics and Telecommunication Engineers, Mechanical Engineering Students Association (MESA), Association of Computer Engineers (ACE), Civil Engineering Students Association (CESA), and Students Association of Information Technology (SAINT) are actively involved in arranging various activities.
- Institute also arranges the industrial visits to give students practical exposure and skill oriented certification programs to enrich their employment skills.
- Students are encouraged to work on industry sponsored projects refer table 1.1.5 c.

### **1.3.3 Enumerate the efforts made by the institution to integrate the cross-cutting issues such as Gender, Climate Change, Environmental Education, Human Rights, ICT etc., into the curriculum?**

- To integrate the cross cutting issues various awareness programmes are arranged for staff and students in the institute.
- Student grievance cell is formed in the institute to sensitize students about gender equality and to solve their problems. These committees consist of Principal, HODs, senior lady faculty member and students.
- There is a Teacher Guardian (TG) scheme in place. The TG looks after the overall progress of the student. TG also counsels, motivates and solves problems of the students.

- “Basic Civil and Environmental Engineering” course is included in the curriculum of SPPU, Pune. Besides this, institute organizes various activities like tree plantation, public awareness, and competitions to generate environmental awareness among the students. The activities suggested by apex bodies are carried out from time to time.
- National Service Scheme (NSS) has been started in the institute. Under CSR (Campus Social Responsibility) environment awareness camp, cleaning campaigns are organized on and off the campus frequently.
- As per the Government of Maharashtra and Directorate of Technical Education (DTE) norms institutes follows reservation policy for students’ admissions. Anti Ragging committee has been formed and the list of members is displayed at prominent locations.
- Women Grievances cell is constituted. The committee is headed by a senior lady faculty and number of lady staff as members. Following activities were conducted by this cell.

**Table.1.3.3 Activities of Internal Complaints Committee**

Sr. No.	Dates	Workshop Topic / Activity	Coordinator	Department
1.	08/03/2017	Hemoglobin checkup for girls & lady faculty members	Mrs. Jyoti A. Sangogi	E &TC Engg.
2.	27/02/2017	Workshop on People United for Sexual Harassment (PUSH)	Dr. Sheetal Ghorpade	First Year Engg.
3.	09/02/2017	Poster Presentation on “Save the Girl child”	Students Representatives	Civil Engg.
4.	18/1/2017	Seminar on Women Safety	Ms. Munmun Bhagat	Computer Engg.
5.	08/03/2015	Women’s Day Celebration	Students Representatives	E &TC Engg.
6.	14/08/2014	Poster presentation on “Say no to Domestic violence”	Mrs. Snehal Bhosale	E&TC Engg.
7.	08/03/2014	Women’s Day Celebration	Institute Coordinator and Rotary club	All departments
8.	08/03/2013	Women’s Day Celebration	Students Representatives	E &TC Engg.
9.	05/01/2013	Addressing Women Grievances by Maharashtra Police	Mrs. Varsha Kshirsagar	All departments

### 1.3.4 What are the various value-added courses / enrichment Programs offered to ensure holistic development of students?

- To imbibe the moral and ethical values in student blood donation camps, guest lectures, the Art of Living sessions are organized for students and faculty.
- Different cultural events are arranged in the institute during “Sinhgad Karandak” (an inter college competition). Students can show their technical as well as non technical talents through this. It consists of many technical events like paper writing, workshops, quizzes, etc. Along with it there is Group dance, solo dance, street play, Fashion Show, Fun fair activities. It gives the platform to students to showcase their talents.
- Different sports are arranged in Sinhgad Karandak and otherwise also to improve students team spirit, their management skills and also to improve their health.
- Institute organizes the “TECHTONIC”, this includes all the technical events to storm students brains beyond threshold.
- The institute facilitates the students to participate in “VINODOTTAM KARANDAK” and “PURUSHOTTAM KARANDAK”. These plays usually address the current social issues creating awareness about the community.
- List of the activities mainly focused to enrich moral and ethical values and community orientations which were conducted is given table 1.3.4. The institute makes students aware regarding their responsibility towards the society.

**Table 1.3.4 List of Activities for Staff and Students**

### 1.3.5 Citing a few examples, enumerate on the extent of use of the feedback from stakeholders in enriching the curriculum?

The institution has various channels to collect and document responses on curriculum from the stakeholders. The institution collects feedback from the stakeholders in enriching the curriculum in the following manner:

- Alumni feedback is collected.
- Feedback is collected about project groups from project examiners appointed by SPPU.
- Feedback is taken from recruiters, when they come for campus recruitment.
- Parent's feedback is collected during parents' meet.

The inputs are obtained from the stakeholders regularly and further used for enriching the curriculum that helps to improve the overall competency of the students for employability. The feedback responses are presented before HOD for consideration and decisions are taken accordingly. Thus for instance if the students have expressed displeasure with any of the staff members including faculty (which is very rare), the concerned staff member is given due hearing with the authorities and if found requiring some improvement, is given an opportunity to keep pace with student's expectations.

**Table 1.3.5 Feedbacks from the Stake Holders**

Sr. No.	Stake Holders	Feedback	Action Taken
1	Student	Value Addition Courses to be increased	Arranged PCB designing workshop
		Arrange more industry interaction for practical knowledge	Arranged industrial visits and training sessions to service station etc.
2	Parent	Results of students should be given to parents directly	Making phone calls and messages to parents regarding progress of ward
		College should initiate collaboration with Pune based Companies	MOUs signed with companies
3	Faculty	New syllabus explanation	Train the trainer program arranged
		Practical explanation	Support to attain STTP, FDP
4	Industry	Take value added courses beyond University syllabus	Arranged
		Include subjects in syllabus on which industry is working	Subjects included as BE Electives (Open elective)

These suggestions are discussed in the ‘Board of Studies’ meeting and the required amendments are incorporated in the curriculum and syllabus. These inputs are also used to design enrichment programmes.

### 1.3.6 How does the institution monitor and evaluate the quality of its enrichment Programs?

To enrich curriculum institute has defined VAPs and STP, evaluation of which is done in following ways.

- The institution has a transparent way to monitor and evaluate the quality of various enrichment programmes initiated by it.
- The feedback in the form of interactions, discussions, and suggestions are analyzed by a specially constituted committee and a report is submitted to the HOD.
- The Institution makes sure that the programmes offered in the curriculum include contribution to national development, fostering global competencies among students, inculcating a value system among students, promoting the use of technology and quest for excellence.
- The Institute takes efforts to ensure that the curriculum bears a thrust on these core values include the initiative for contribution to national development.

**Table 1.3.6 Evaluation Process**

## 1.4 Feedback System

### 1.4.1 What are the contributions of the institution in the design and development of the curriculum prepared by the University?

The institute is affiliated to SPPU Pune. The courses undergo syllabus revision every four years. This revision takes place during workshops, seminars for curriculum design organized by SPPU. Institute nominates expert faculty for such seminars &

workshops. Faculty gives valuable suggestions and share feedback received from stakeholders. Difficulties, if any, during the implementation of the curriculum are communicated to the concerned body of the university. Also, the institute hosts syllabus revision workshops and seminars.

**Table 1.4.1a** Syllabus Revision Workshop Conducted

Name of Dept.	Name of Activity	Dates
Information Technology	ME syllabus revision workshop (ME - IT, SPPU)	4 <sup>th</sup> Aug 2014
Electronics and Telecommunications Engineering	TE syllabus revision workshop (TE- E&TC, SPPU)	23 <sup>rd</sup> June 2017 & 24 <sup>th</sup> June 2017

**Table 1.4.1b** Faculty Contributions to Curriculum Development

Sr. No.	Name of Department	Name of faculty	Faculty contributions
1	Mechanical Engineering	Mr. P. N. Deshmukh	Subject chairman for Material Handling Equipment design.

		Ms. Rupali Patil	Contributed in syllabus modification in syllabus reformation meeting of TE 2015 course at Modern COE, Pune
4	Information Technology	Ms. Snehal Nargundi	Contributed in syllabus modification in syllabus reformation meeting of TE 2012 course at SITS Narhe, Pune
5	Computer Engineering	Ms. Vina Lomte	“Software Modeling and Design” syllabus setting for SPPU

**1.4.2 Is there a formal mechanism to obtain feedback from students and stakeholders on Curriculum? If ‘yes’, how is it communicated to the University and made use internally for Curriculum enrichment and introducing changes/new Programs?**

- The institute has a formal feedback mechanism to record the views of the stakeholders on the curriculum. The feedbacks are taken through informal discussions in alumni and parents meet, suggestions from industry/employer, and academicians are obtained.
- Also, during the implementation of curriculum inputs from students and faculty are taken and are communicated to the concerned body of the university. Same is used as input to curriculum enrichment programs. Based on these experiences, institute designs / refines the curriculum enrichment programs.
- In the middle of the semester, AMC take the feedback from the students. Based on feedback and recommendations received to AMC the institute refines the curriculum enrichment programs.

**1.4.3 How many new Programs/courses were introduced by the institution during the last four years? What was the rationale for introducing new courses/Programs? Any other relevant information regarding curricular aspects which the Institute would like to include.**

The governing body of the institute on the recommendations of local management committee decided to add new programs. Following are the new courses/programs started in the institute during the last four years.

**Table 1.4.3 Postgraduate Programs**

Sr. No.	Branch	Intake	Year of Starting	Rationale
1	Electronics and Telecommunication Engineering (Specialization in Embedded and VLSI )	24	2012	Provide facility for higher education in a specific branches

## CRITERION II: TEACHING-LEARNING AND EVALUATION

### 2.1 Student Enrollment and Profile

#### 2.1.1 How does the institute ensure publicity and transparency in the admission process?

##### Publicity

- The schedule for admission is notified by DTE, Maharashtra on its website. The URL is
- <http://www.dtemaharashtra.gov.in/approvedinstitutes/StaticPages/HomePage.aspx>
- The institute advertises the admission process in prominent local, state and national newspapers. The advertisement details about the various programmes offered, its eligibility criteria, admission process, vacancies available. Appropriate social and e-media are selected for publicity of the admission process.
- Advertisement for admission to engineering colleges/MBA/MCA is given by DTE in prominent newspapers. The details of the admission process and the dates for various rounds are also given in newspapers.
- The institute has its own admission cell which plans and executes pre-admission publicity by reaching out to prospective stakeholders from October to May every year.
- All admission related information is available on institutional website [www.sinhgad.edu](http://www.sinhgad.edu).
- The institute participates in educational exhibitions in major cities across India. Students in the institute and also alumni help in publicity with their personal contacts.

##### Transparency

- Admission process is governed by the centralized admission process (CAP) of Directorate of Technical Education (DTE), Maharashtra. The information related to admission procedure, admission schedule, sanctioned intake, and fees structure is provided in the information brochure which is published every year by DTE and institute.

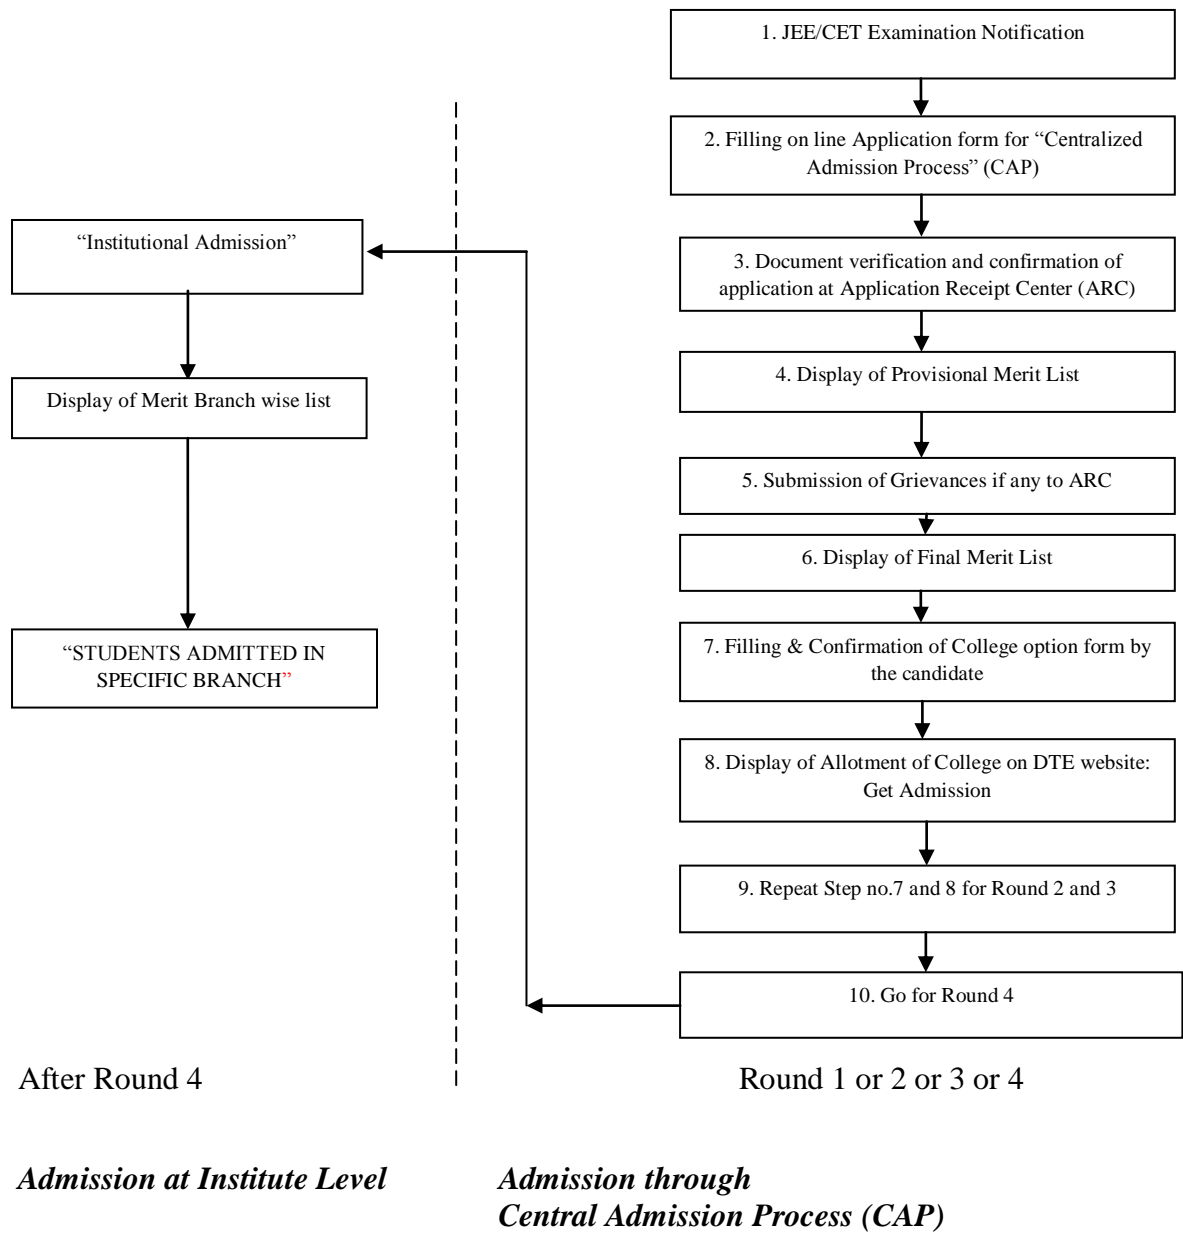

#### 2.1.2 Explain in detail the criteria adopted and the process of admission (Ex.(i)merit (ii) common admission test conducted by state agencies and national agencies (iii) combination of merit and entrance test or merit, entrance test and interview (iv) any other ) to various programmes of the Institution.

The criterion decided by the DTE is strictly followed. The representative model which decides the eligibility of a student for admission to various programmes which were used in the 2015-16 admission process is shown in the table below:

**Table 2.1.2 Eligibility criteria for admission in programmes at different levels**

<b>Quota</b>	<b>Eligibility criteria Score</b>
<b>Undergraduate Programmes</b>	
100 %	i) Candidate should be a Indian National
	ii) Passed HSC or its equivalent examination with Physics and Mathematics as compulsory subjects along with Chemistry or biology or technical and obtained atleast 50 % marks in above subjects taken together  OR Passes B.Sc. Degree from a Recognised University and obtained 50 % marks
	iii) Obtained score in MHT-CET 2016 by competent authority
Lateral Entry For Diploma students	Passed Dimploma in Engineering and Technolgy and obtain atleast 50 % marks
<b>Post Graduate Programmes</b>	
<b>M.E</b>	
100%	Graduate Aptitude Test for Engineering (GATE) score / institute level test, interview and B.E examination score.
<b>MBA</b>	
100%	Any Graduate with Minimum 50% marks for Open Category & 45% for Reserve category students. Qualifying Entrance Exams like- CAT, MAT, ATMA, MH-CET and XAT
<b>MCA</b>	
100%	MAH-MCA CET

**Figure 2.1.1 Admission Process for Engineering**

**2.1.3 Give the minimum and maximum percentage of marks for admission at the entry level for each of the programmes offered by the institute and provide a comparison with other institutes of the affiliating university within the city/district.**

The institutes with which comparison is done are with in 5-6 km radius of RMDSTIC. The comparison done is based on the round wise reports of admission process available at the DTE, Maharashtra official website. Two of the institutes considered here are

1. Zeal College of Engineering and Research, Narhe (ZCOER).
2. JSPM's Narhe Technical Campus, Narhe (JSPMNTC).

**Table 2.1.3. The details of marks at admission at entry level are given below.**

**2.1.4 Is there a mechanism in the institution to review the admission process and student profiles annually? If 'yes' what is the outcome of such an effort and how has it contributed to the improvement of the process?**

**Yes**, the Principal, HODs, senior staff members and members of the admission committee review the current year admission status. Strategic policies are decided to enhance admissions against vacant seats. If the admission trend of the institute is followed, there is a slight decrease in the number of students getting admitted to a few courses. But if the overall trend of First Year admission is observed, most of the institutes are struggling to reach the 100 % mark. Close analysis shows increase in intake capacities of various institutes, increase in the number of institutes and less employment opportunities as vital reasons for the fall in admissions.

**2.1.5 Reflecting on the strategies adopted to increase/improve access for following categories of students, enumerate on how the admission policy of the institution and its student profiles demonstrate/reflect the National commitment to diversity and inclusion.**

- In order to attract the best talent from all the sections of the society and students from other states of the nation, the institute carries out the special campaign in the form of brand building through national and state level cultural and technical events for students. Events of state, national and international levels for faculty are also organized.
- Reservation rules as per DTE and state of Maharashtra are applicable to the admission process and strictly adhered to by the institute. Table 2.1.5 shows categories of admitted students for last four years.
- There is a special admission quota for the candidates of Jammu and Kashmir, which is administered by DTE Maharashtra.
- The talent in economically weaker sections is attracted through the quota under Tuition Fee Waiver Scheme (TFWS) which is over and above the sanctioned intake. Students getting admission in this quota have "full fee waiver".

**The reasons for decrease in admissions are as follows:**

- Global and national employment scenarios are mostly responsible for admissions.
- The students mostly select the colleges based on the surrounding locality.
- Every year new colleges are established as well as there is increase of intake in existing colleges for various programmes in the state of Maharashtra.
- State-of-the-art technology in the area and trends of students opting post graduate courses in India and abroad matters a lot during PG admissions.

#### **Action initiated for improvement:**

- Students reporting to admission cell (set up at the college) are counseled before and during admission process of the importance of engineering and to choose the proper stream of engineering.
- Institute has strengthened Training and Placement activities by incorporating STP and Job Fair.
- The institute has signed Memorandum of Understanding (MoUs) with industries and institutions at national & international levels. This initiative helped us to create a dynamic learning environment which strengthens educational experience of faculty & students. Thus, students are exposed to the gradual and planned holistic development as an engineer. It helps us to attract students for admission.
- Advertisement in national level newspapers and news channels.
- Institute has initiated admission campaigning programme since 2014, which starts from September every year.

## **2.2 Catering to Student Diversity**

### **2.2.1 How does the institution cater to the needs of differently-abled students and ensure adherence to government policies in this regard?**

The reservation for differently abled students is fixed by the government. In the light of the provisions of “The Persons with Disabilities Act” (PWD), 1995 (amended in 2009), the institute caters to the needs of differently-abled students as per the requirements of the individual student. The needs are assessed through individual counseling. The institute offers following facilities to differently-abled students

1. Providing university approved writers in examinations for visually challenged students.
2. Appropriate special arrangements for differently-abled students in university examination as per the university guidelines.
3. Extra time is provided as per university norms in the examination in case severity is high.
4. Priority services are given to such students in the library.
5. The ramp is available at the institute.
6. Lift service is available (6 lifts).

7. Provision for wheel chair has been made.

**2.2.2 Does the institution assess the student's needs in terms of knowledge and skills before the commencement of the Programmes? If yes, give details on the process.**

**Yes.**

- The qualifying marks and the ranking of students admitted are analyzed for understanding the need and background of the student.
- The orientation programs at institute level and department level are organized on the very first day and second day of commencement of the program, where students are guided by the eminent personality in the field. The students also get introduced with the institute and department and also made aware about the different facilities and training programs available.
- The students need in terms of knowledge and skills are assessed continuously by conducting the three AMCAT test in SE, TE respectively.
- Based on the analysis of the Aspiring Minds Computer Adaptive Test (AMCAT) the contents of student training program (STP) get finalized. The STP is made a part of the timetable. STP is divided in five modules.
- The institute organizes series of lectures for final year and ME students to guide them on the issues like selection of project work, literature review, finding the research gap, defining the research problem, developing the methodology and writing the paper and project report/ dissertation/ thesis.

**2.2.3 What are the strategies adopted by the institution to bridge the knowledge gap of the enrolled students (Bridge/remedial /Add-on /Enrichment Courses, etc.) to enable them to cope with the Programme of their choice?**

- The institute conducts two orientation programs on 1<sup>st</sup> and 2<sup>nd</sup> day of college at institute level and department level respectively.
- In institute level programs, they are made aware about the recent trends in market and informing about the engineering branch opportunities etc. by eminent personalities. Then they get introduced with the college and different facilities in college.
- In department level programs, they get introduced with the respective department and guided by the eminent personality in the field followed by ice-breaking sessions. Few mind games are conducted for the students.
- The department has different domain committees who review the curriculum and find the gap between curriculum to meet the targeted program outcomes.
- The inputs are also taken by industry person and academicians and pass out students.
- Teaching plan is prepared accordingly.

- The Guest lectures and events are planned to bridge the gap and made part of the teaching plan
- Institute has MOU with reputed companies, knowledge sharing through projects, industrial visit, etc. helps student updated.
- AMCAT test is conducted for SE and TE to test their aptitude and knowledge of students.
- Special training is given to the students on the recent trends of the industries through Student Training Programme (STP-I to STP-V).
- A 3 days QA&LR workshop is taken for third year students by professionals. This will help them to crack the aptitude.
- Remedial Classes are arranged for weaker students.

The Institute takes efforts for enabling the students to cope up with the fast developments in syllabi of various subjects as well as takes efforts in improvement of their general academic quality by organizing the different programs.

Table 2.2.3a shows details of activities carried out by the institute in order to bridge the identified gaps in students' competencies.

**Table 2.2.3a Details of the enrichment programs and activities**

Sr. No.	Gap to be bridged	Program	Details / course contents
1	Lack of Professional skills	STP I	Behavioral skills, goal setting, presentation skills, public speaking, resume, report writing, group discussion
2	Lack of Communication skills	STP II	Reading, Listening, Speaking and Writing
3	Lack of competence in technical concepts	STP III	Preparation for competitive exams
4	Lack of GD and PI skills	STP IV	Group Discussion and Personal Interview
5	Lack of application and Problem-solving skills.	STP V	Special courses on recent technologies
		Industrial projects	Students are encouraged to take industrial inplant training from second year onwards
		Lab Innovation	Students are encouraged to work on their ideas and build prototypes.
6	Academic preparation	K-Point Platform e-Exam Portal Self-Learning Classes	1. Audio lectures on all courses on the web server. 2. MCQ Practice Portal available on Android Phones 3. Special guided practicing classes in the timetable.
7	Advanced Technical courses	NPTEL, EDX	Courses of Experts from industry and leading institutes like IITs and IISc. Advanced courses from overseas Experts.
8	Modern tools and software	VAPs	These are the branch specific courses designed to provide state of the art training and practice on modern tools and software by professionals (3 days).
9	Knowledge	Invited talks	Each department arranges invited talks from experts in various fields to communicate current practices in industries.
10	Practical Application	Technical Clubs, Roboclub	College has teams in BAJA, SUPRA, ECOKART, ROBOCON etc.

#### 2.2.4 How does the institute sensitize its staff and students on issues such as gender, inclusion, environment, etc.?

##### Gender

- The institute fully follows professional work ethics without any discrimination as regards to specific gender. At work place though basic ethics of our Indian tradition and culture are followed wherever it is necessary while allocating specific tasks to our employees. In order to be cautious we have women's grievance cell set up in our institute.
- Due to enriched value based and equality culture we recorded very few cases under grievances cell. This, we consider as the strength of work culture at RMDSTIC.

**Inclusion**

The natural phenomenon in RMDSTIC is to lead by example while dealing with all sections of students and staff. We have inculcated the culture of equality to all sections while assigning the task at leader level or follower level. The inclusion has naturally been taken care while organizing seminars, workshops, conferences etc. In fact the voluntary interest areas of students and staff are identified and at least 1 or 2 such interest areas made compulsory for every student and staff. In the areas of their choice students and staff are encouraged to lead and excel. This naturally generates the sense of inclusion in RMDSTIC.

**Environment**

Besides focusing on internal needs of RMDSTIC it also takes care of the environment around it. Our institute with the whole hearted initiatives and participation of our staff and students associated frequently organize various programmes like road safety week, conducting computer education camp in remote areas, arranging food and monetary help to elders (old age home) etc. Cleanliness of area around the campus was done by students. Tree plantations activity was also conducted at college campus.

Our student body MESA in collaboration with HERO Moto Corp is conducting “RIDE SAFE” campaign for the last two years.

As part of our social responsibility the college infrastructure is made available to ROTARY CLUB (including Inner Wheel) Warje to organize various activities of the organization (after college hours)

**2.2.5 How does the institution identify and respond to special educational/learning needs of advanced learners?**

Advanced learners are identified based on their consistent attentiveness, ability of asking smart questions, curiosity towards particular topic, their semester and university performance. Also in general the needs of students over and above university curriculum are identified. These advanced learner are then exposed to following:

- They are encouraged to undertake innovative proposals by coupling them with the faculty experts in chosen areas.
- These students are provided with opportunities to undertake live mini projects and lab innovations.
- Preparing website, designing logo etc are the activities allocated to these students.
- The industry and academic experts are invited to guide them in areas of their requirement.

- They are encouraged to participate in project competitions organized by top class academic institutions and professional bodies like SAE, IEEE and others.
- The institute also in the recent years has actively supported its students to participate in events like SAE INDIA BAJA, SUPRA, ECOKART, ROBOCON etc which helps the students to bridge the gap between learnings in the college and practical application of the same. The teams have done a commendable job in competing with colleges all across India. For e.g. SAEBAJA team secured 71<sup>st</sup> position at all India level, ECOCART team secured 24<sup>th</sup> position in virtual round and was the fastest car for the year 2016.

**2.2.6 How does the Institute collect, analyze and use the data and information on the academic performance (through the Programme duration) of the students at risk of drop-out (students from the disadvantaged sections of society, physically challenged, slow learners, economically weaker sections, etc. who may discontinue their studies if some sort of support is not provided)?**

**Data collection**

- Under the guidance of academic monitoring committee, a Teacher Guardian (TG) system is well established in the institute. Right from Semester-I the history file of students is generated by teacher guardians. Meeting of students with respective teacher guardian takes place regularly. In these meetings a teacher guardian interacts with the allotted students formally and informally.
- Through these formal and informal interactions a teacher guardian is able to note the background of a student from which the information about economically weaker students is identified.
- Depending on the requirement of a particular student the fees concession is provided so that it creates an ease in academic development of such students. Also such students are professionally and emotionally taken care by TG along with other teachers.
- Apart from identifying physically challenged and economically weaker students we also have a mechanism to identify slow learners. This is done through the interactions of TGs with concerned class teacher and head of the department. Such students are provided extra inputs through subject experts and counseling by HOD.
- Also the subject wise rigorous analysis of results of in semester exams, slow learners and lagging students are identified. They are counseled for assertive attitude towards the professional career and are given special attention through exposing them to extra tests and typical study material. The assessment of these students based on this is done and feedback is communicated to them.

**Data Analysis and documentation**

- Special files known as history files of all students are generated in semester-I and transferred progressively to the concerned teacher guardian till the end of semester-VIII.

- These files help to monitor and assess the progress of a student from semester to semester.
- The result analysis is done after the declaration of university results.
- This is used to address topper students and provide extra inputs to students who are lagging.
- The rigorously scrutinized data is reported to academic monitoring committee (AMC).
- The academic monitoring committee during its visits to the institute guides the faculty on various actions to be taken to improve the performance of students.

### **Institute uses the data as follows,**

#### **For Slow learners**

- A group of slow learners is formed and special guidance session is arranged under the guidance of subject expert from the institute.
- Practice sessions on university question bank are arranged.
- The inputs from parents of slow learners are collected by respective TGs to enhance their learning capabilities

#### **For economically weaker students**

- Tuition Fee Weavers Scheme (TFWS) is implemented.
- Allowed to pay fees in installments.
- In special cases a concession/waiver in fees is also considered.
- Department library facility for economically weak students.

#### **For scholarship to students**

SC/ST/OBC, Minority, EBC students get the benefit of reservation in admission and scholarships as per government norms. The institute has separate student sections in the administrative offices, which is headed by Office Superintendent (OS), who is well versed with the rules and regulations, related to social welfare schemes and provide guidance to the students to apply for these schemes.

## **2.3 Teaching-Learning Process**

### **2.3.1 How does the institute plan and organize the teaching, learning and evaluation schedules? (Academic calendar, teaching plan, evaluation blueprint, etc.)**

Savitribai Phule Pune University (SPPU) has laid down the number of days that would be available for teaching and evaluation. The subject teacher and the departments take utmost care to complete teaching and evaluation within the stipulated time by following strategies semester-wise.

- The Academic year starts in accordance with the schedule given in the Academic Calendar of University.
- The college prepares the Academic Calendar mapping to the Academic Calendar of University.

- The Academic Calendar of Department takes into consideration and the deadlines are specified both in Academic Calendar of University as well as Academic Calendar of the institute.
- Before start of Semester, load distribution is done according to subject choice offered by faculty.  
Load distribution guidelines of Academic Monitoring Committee (AMC) are taken into consideration while distributing the load. The timetable is prepared by timetable committee in consultation with other departments (wherever required).
- Every subject teacher identifies the requirements in terms of practicals for his/her subject and ensures set up of laboratory. The new/current syllabus is taken from faculty and the purchase procedure is carried out. Conditions of the existing instruments/equipments are inspected before the commencement of each semester and maintenance work is undertaken.
- Every faculty prepares Course File before commencement of teaching and gets it approved by HOD. The Course File consists of teaching plan, content analysis, subject history, results analysis of subjects, previous years question papers, continuous evaluation sheets and notes.
- The Timetable is displayed on notice boards in advance. The Class teachers for each class and Guardian teachers for each batch are appointed and contact details are displayed on notice board and website.
- The attendance of students is monitored and respective Teacher Guardians make phone calls to absent students and their parents. Letters are sent to parents of students who continually remain absent. There is a defaulter list displayed at the end of each month and parents of such students are called to college to meet the authorities and give explanation about their wards poor attendance.
- The Teaching plan is regularly monitored by HOD after regular intervals in order to ensure that teaching learning is going as per planned schedule. The records of lectures delivered as per the time table are maintained and verified by the class teacher and academic monitoring committee.
- Student's performances are continuously evaluated by tutorials, midsem tests and remedial actions are undertaken. Mid-sem tests results, online results are analyzed and weak students are counseled and provided necessary help.
- Extra lectures are allocated in the timetable to cover the curriculum in more elaborate way as per the subject requirement.
- Guardian Teachers counsels the students having poor attendance and performance. They also conduct meetings with their parents periodically. Thus, parents are kept informed about their ward regularly.
- An undertaking is taken (for improvement in attendance) from students who have very poor attendance.
- Academic calendar for the academic year 2016-2017 is given below.

 HOD

- Revision and remedial classes are conducted towards the end of the course. Open house sessions are conducted for students having poor attendance and suitable assignments are given to them.
- Submission is done in the allotted time and term work marks are allotted based on continuous assessment.

- Co-curricular and extra-curricular activities are organized to supplement the curriculum.
- The Head of respective departments conducts regular meetings of faculties to discuss the lacuna/ shortcomings/ problems and possible solutions to overcome them.
- There is a mock in semester examination conducted at the end of 50% completion of syllabus for TE and BE and mock online examination for FE and SE. There are retest examinations to improve student performance.
- At the end of class room teaching there are turns for repetition of practical.
- Prelim examination is conducted at the end of semester to evaluate student performance.
- Savitribai Phule Pune University examination schedule is displayed on notice board and examinations are conducted as per University rules and regulations.
- Result analysis is carried out after declaration of the University result its record is kept and is used for further improvements.

### 2.3.2 How does AMC contribute to improve the teaching–learning process?

The institute has an Academic Monitoring Committee (AMC) which comprises of external peer members.

- All the academic process are governed by AMC.
- AMC keenly monitors the academic process and execution of teaching plan takes corrective measures.
- AMC collects the online student’s feedback and takes the required corrective measures.
- AMC provides the support in implementation in all the academic polices.
- AMC acts as an interactive platform between faculty, management and stake holder to improve the process of institute.

### 2.3.3 How is learning made more student-centric? Give details on the support structures and systems available for teachers to develop skills like interactive learning, collaborative learning, and independent learning among the students?

Students are the most important stake-holders. Efforts are being made to groom them as social engineers.

#### 1. Interactive Learning:

To make learning interactive many Pedagogical skills are used in teaching. Few of which are listed:

- Role Play
- Quiz
- Project based Learning (in some departments)

#### 2. Collaborative Learning:

- The institute has signed MOU with few industries. Students and staff work on the real time problems of industry.
- Mini project and project as part of curriculum.
- Industrial visits are organized to get exposure.
- Industrial inplant training to students in summer and winter vacations.

#### 3. Independent Learning:

The independent learning occurs through

- Design assignments
- Participation in different competitions.

#### Details of support structure and systems available:

##### Infrastructure Support:

- Class rooms and tutorial room with LCD projector
- K-point server for uploading the lectures on internet.
- Stationary and support required for preparing innovative learning material

##### Training Support:

- Organization of Train the trainer program where all the subject content and teaching methodology is discussed in each semester.

- Organization of Teacher Advancement Program and many events like STTP/ FDP/ Seminars / Workshop/ Conference for faculty enrichment.
- Supporting faculty to attend STTP/ FDP/ Seminars/Workshop/Conference for faculty enrichment.

#### **2.3.4 How does the institution nurture critical thinking, creativity and scientific temper among the students to transform them into life-long learners and innovators?**

- The institute organizes different activities through student association to nurture critical thinking, creativity and scientific temper among the students to transform them into life-long learners and innovators. Few of which are listed below:
- TECHTONIC is a technical event organized by Institute every year. It is a state level event in which activities like Technical Competitions, Quiz, Roborace etc are conducted for the students.
- Faculty encourages the students to participate in different technical paper writing and poster competitions organized across University region/state level competition.
- Students are encouraged and guided to undertake industry sponsored projects.
- Students are encouraged and financially supported to participate into the competitions like Robocon, SAE,BAJA, Supra, ECOKART.
- Different project competitions and model making competitions are organized to nurture and support critical thinking and creativity.
- Workshops on cutting edge technology are organized to help the students to understand the fast changes in technology.
- Industrial visits are organized to get exposure to real time working.
- National Conference, seminars and workshop are organized to give the platform to the students.
- Wall magazine are published on regular basis.

#### **2.3.5 What are the technologies and facilities available and used by the faculty for effective teaching? E.g. Virtual laboratories, e-learning-resources from National Programme on Technology Enhanced Learning (NPTEL) open educational resources,mobile education, etc.**

Faculty members are encouraged to use library, digital library and other Open Source platforms to make the subject more informative. They are used by the students and faculty through presentations. Institute has created an online exam portal for staff to create tests and for students to practice these tests. Also, it has created K-point training module for various courses. These portals are available for the staff. In K-point portal lecture notes prepared by faculty are uploaded. Staff members of all the departments have registered for NPTEL online courses and appearing exams for upgradation of knowledge.

### 2.3.6 How are the students and faculty exposed to advance level of knowledge and skills (blend learning, expert lectures, seminars, workshops etc.)?

#### Faculty:

- The Institute promotes the faculty to participate in different technical programs.
- The Institute provides faculty the latest available technical information through subscription of reputed journals like Science Direct and IEEE.
- Staff members are deputed to attend FDP, workshops, seminars.
- FDP's are organized in the institute.

#### Students:

- The Institute organizes various technical competitions such as paper presentations, project competitions, Quiz and poster competitions.
- The faculty encourages students to undertake projects on advanced technologies, industry sponsored projects.
- The Institute promotes students to participate in National/International competitions like SAE- BAJA and events by providing all technical and financial support.
- Eminent speakers are invited from the industry to deliver lectures so as to expose the students to developments in the field of their study.
- Workshops are held for the students from experts to give hands on experience.

### 2.3.7 Detail (process and the number of students\benefitted) on the academic, personal and psychosocial support and guidance services (professional counseling/mentoring/academic advises) provided to students?

#### Mentoring Scheme

The institute has implemented the concept of Teacher Guardian (TG) scheme. The concept of TG scheme is: A batch students is assigned to each teacher who acts the local guardian. The TG maintains history card, which contains information of each student related to his/her previous academic performance, family background and contact details. Regular meetings are conducted by TG during the semester and any problems of the students are reported to HOD

TG regularly interacts with students and provides academic as well as personal guidance. These points are noted down in the teacher guardian diary by each teacher as well as separate attendance record is maintained throughout the semester. Students are also guided for any career field as per his/her interest. Reports of the meeting are reviewed by HoDs and same is communicated to the Principal. HODs also counsel the students and advise them from time to time about career guidance, competitive examinations, etc. Senior faculties counsel the students for psychological problems faced by them.

#### Guidance Services

- The T & P cell counsel the students regularly.

- HOD and senior faculty discuss about personality, professional development, and entrepreneurship with the students.
- Guidance for competitive exams for e.g. GATE, MPSC, UPSC, IES, GRE, TOEFL.
- Students have participated in SAE BAJA &eco-cart as national level. Their performance was very encouraging [Ranked 71<sup>st</sup> in SAE INDIA BAJA 2016 out of 390+ teams].
- Students also took part in ROBOCON India 2017
- Workshop on “Entrepreneurship” is organized for students.

**2.3.8 Provide details of innovative teaching approaches/methods adopted by the faculty during the last four years? What are the efforts made by the institution to encourage the faculty to adopt new and innovative approaches and the impact of such innovative practice student learning?**

**Innovative teaching approaches/methods adopted by the faculty**

- The lecture is made more student centric by conducting activities like group discussions, role play and technical debates.
- Faculty members share their notes, question banks and power point presentations with students.
- Digital library and online journals to download, study materials and data from internet.
- To help improve self learning ability and team work the students are assigned different tasks such as group assignment, case studies and mini projects..
- Teaching is best way to learn; in presentation activity students are asked to prepare lecture on any of the topic related to course. This lecture has to be delivered to peers.
- Use of modern teaching aids like videos, animations etc are used.

**Efforts made by the institution**

- Each faculty has to undergo TAP and TTT in which they are trained for effective teaching and learning methods.
- Institute has signed MoU with industries in which faculty and students work on industrial projects. Most of these projects are aligned to one of the courses to be taught. This way student gets practical relevance of the subject.
- Institute has designed innovative educational model for professional and personal growth of the students.

**Impact of innovative practices on student learning:**

- The students get a feel of the subject with videos and animations.
- The interest of the student increases their understanding.

**2.3.9 How are library resources used to augment the teaching- learning process?**

The institute central library facility has good collection of learning resource.

**Table 2.3.9 Library holdings**

<b>Library holdings</b>	<b>2016-17</b>	<b>2015-16</b>	<b>2014-15</b>	<b>2013-14</b>
Total Volume	17822	16367	15240	14530

Reference books	4181	3645	3371	3157
Journals/periodicals	80	85	14	22
E-resources	3 Database	3Database	2 Databases	1 Database

National & International print journals are subscribed to update the current knowledge of the stakeholder in the irrespective field.

- e- Journals have been subscribed.
- As the e-journals access is IP based, the stake holders can take benefit of this facility from anywhere in the campus at anytime.
- Books are arranged subject wise and department wise and personal attention is given for fulfilling their library related needs.
- Open access facility is available. Library Staff motivate the students for open access to aware them about the latest arrivals.
- Separate Reference, Periodical, Circulation, and Digital Library section and reading room facility is available in the Library.

**2.3.10 Does the institution face any challenges in completing the curriculum within the planned time frame and calendar? If 'yes', elaborate on the challenges encountered and the institutional approaches to overcome these.**

**Yes,** The institute indeed faces challenges in completion of syllabi. Efforts are taken by engaging extra lectures to complete syllabus. Mock online tests are taken to make the students familiar with the new system which helps in enhancing the student performance to a greater extent.

**Some of the challenges faced are listed below:**

- Delay in the admission process has been the biggest hurdle carried out by DTE for first year and direct second year (lateral entry) students. The delay leads to less time available for teaching, affecting results.
- Time slots provided by the University is limited for all the subjects but certain subjects need more time depending upon grasping power of students.
- For some subjects' additional teaching hours are provided to cover prerequisites.
- Because of newly introduced in-semester theory and online university exams, we have to readjust our teaching schedules for timely completion of syllabus.
- Theory-practical synchronization- Some challenges are faced during theory sessions for co-relation with practicals due to vast syllabus and holidays on practicals and theory sessions. These are overcome by having shuffling of

the sequence of theory and practical sessions. Extra input sessions for theory and practicals are conducted.

**Efforts to overcome the challenges:**

- Extra classes, practice tests are taken to complete the backlog of syllabus. Assignments are given.
- A subject coordinator is appointed to take care of that subject and discuss with other faculty taking that subject.
- TTT and expert lectures are arranged for the newly inducted staff.

**2.3.11 How does the institute monitor and evaluates the quality of teaching learning?**

- Quality of teaching can be assessed by students' feedback in the middle of the semester, and regular checking the course file of the faculty.
- Course file of individual faculty containing study material, assignments is evaluated by the HOD each month and by the AMC at the end of each semester.
- Students' feedback is scrupulously analysed and instructions are given accordingly to individual faculty member.
- Quality of learning is assessed by student's performance in various tests, quality of the projects and student's performance in competitions conducted by institute and other agencies.
- Institute conducts tests regularly to keep the track on student's progress. Result analysis of internal examinations are done and remedial measures are taken.
- The results are monitored to evaluate the teaching learning process.
- Academic and industrial experts are involved in evaluating the projects prepared by students.
- Supervision of lecture and practical sessions is done by vigilance /monitoring committee and HOD. Appreciation of the good performers and Memos to defaulting faculty is given as per case.
- CCTV cameras in First year class rooms to monitor discipline in classrooms.

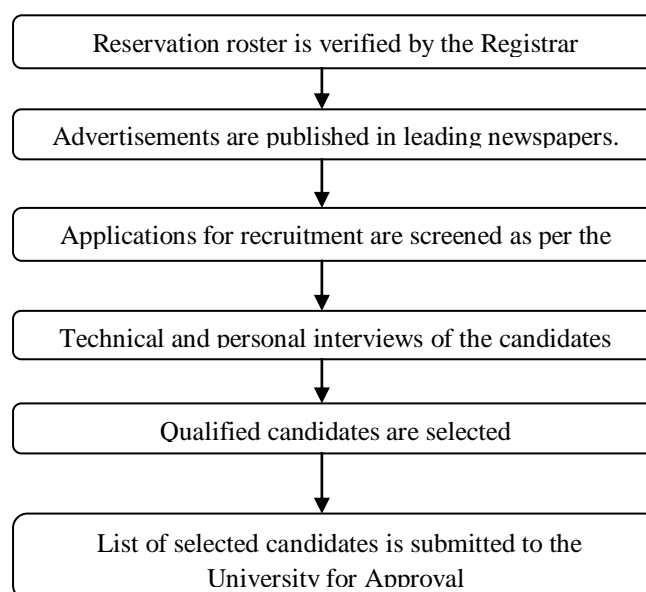

**2.4 Teacher Quality**

**2.4.1 Provide the following details and elaborate on the strategies adopted by the institute in planning and management (recruitment and retention) of its human resource (qualified and competent teachers) to meet the changing requirements of the curriculum.**

**Recruitment strategies**

Faculty and staff members are recruited as per the All India Council For Technical Education/ Savatri Bai Phule Pune University guidelines.

The selection process is as follows:

**Figure 2.4.1.** Selection process for recruitment

**Table 2.4.1** Number of faculty with qualification

Qualification	Professor		Associate Professor		Assistant Professor		Total
	Male	Female	Male	Female	Male	Female	
<b>Permanent Teachers</b>							
<b>Ph.D.</b>	4	0	1	2	0	1	8
<b>M. Phil./M.Ed</b>	0	0	0	0	2	0	2
<b>M.E./M. Tech/M.Sc./MBA</b>	0	0	0	0	83	64	147
<b>Total</b>	4	0	1	2	85	65	<b>157</b>

#### Retention strategies:

The institute has adopted a policy that is aimed at retaining its faculty. Following strategies are adopted to ensure faculty retention

1. **Academic atmosphere:** The institute takes efforts to maintain best academic ambience in the campus. The teachers are encouraged in academic pursuits like attending conferences, writing research papers, books and inviting experts to address the students and faculty.
2. **Regular appraisals and DA** upgradation done as per the guidelines of Government of Maharashtra. The DA arrears is also paid.
3. **Regular appreciation of faculty performance:** Upon the result analysis of the university examinations, the outstanding performances are appreciated every semester.
4. Institute deputed/sponsors faculty for higher studies as well as conferences and workshops.

5. Teachers are appreciated every year in teachers day function.
6. Insurance scheme for staff and students
7. Staff Quarters in limited numbers
8. Free Medical and Sports facility

All these measures have substantially helped the institute to retain competent and qualified teachers.

**2.4.2 How does the institution cope with the growing demand/ scarcity of qualified senior faculty to teach new programs/ modern areas (emerging areas) of study being introduced (Biotechnology, IT, Bioinformatics etc.)? Provide details on the efforts made by the institution in this direction and the outcome during the last three years.**

1. The institute has been appointing highly qualified senior faculty to handle new and emerging subjects as proposed in the curriculum of SPPU to which the institute is affiliated.
2. The institute also arranges faculty development programs to refine the skills of faculty as per the need of the curriculum.
3. Eminent personalities are invited from industries to deliver expert lectures to the faculty so as to enable them to bridge the gap in the curriculum.
4. Institute offers extension to the services of superannuated faculty derives extended benefit of their expertise.
5. In last three years, the institute has invited the visiting faculty/guest lecturers from the different fields. Sample topics from each department are listed below. The details list is provided in the annexure. (Table 2.4.2 a)

**Table 2.4.2a Sample of invited talk, expert faculty and visiting faculty**

**2.4.3 Provide details on staff development programs during the last four years. Elaborate on the strategies adopted by the institution in enhancing the teacher quality.**

- a) Nomination to staff development programs
1. The institute organizes the Faculty Development Program minimum twice in a year on various subjects including teaching methodology.
  2. In the past 4 years, in all FDPs and workshops were conducted in the institute.
  3. Faculty members are also encouraged to participate in conferences, seminars and workshops conducted by other institutes.

4. Besides several in-house programs, faculty members are encouraged to participate in refresher courses/orientation programs conducted by other institutes.

**Table 2.4.3 Details of number of nominated faculties for faculty development programs**

Faculty Training Programs	Number of faculty Nominated					
	2017-18	2016-17	2015-16	2014-15	2013-14	Total

- b) Faculty Training programs organized by the institution to empower and enable the use of various tools and technology for improved teaching-learning

The management is keen on professional development of the faculty in being abreast with latest technology trends. The following are some of the highlights:

1. Teaching Learning methods/approaches:
  - In-house TTT programs are regularly arranged on every revision in curriculum by SPPU.
  - Project based learning and active learning modules
2. Handling New Curriculum:  
The institute deposes its faculty members for syllabus revision workshops and seminars organized by SPPU and its affiliated institutes to become well verse with intent and content of new syllabi.
3. Content/Knowledge Management:
  - Use of modern teaching aids such as presentations, NPTEL video lectures, Online courses, Technological Animations etc.
  - Free access to e-resources like journals and reference books through institute library.
4. Use of enrichment materials:  
Institute encourages enriching activities based on Case-Study presentations, Advanced technology trends, Latest teaching methodologies, tools and techniques.
5. Assessment:
  - Assessment of analysis of the students' performance in various aspects such as curricular and co-curricular aspects.
  - Feedback from students once in a semester regarding instruction delivery by the faculty.
6. Teaching learning material development, selection and use
  - Faculty members explore latest developments in technology via internet.
  - The online access to Science Direct journals enable faculty to explore and exploit huge literature resource.

- Institute has developed e-Learning platform

Sample of Activities held towards empowerment and enabling faculty are shown in table 2.4.3a.

**Table 2.4.3 a. Empowerment activities**

c) **Percentage of faculty**

Table 2.4.3b shows summary of faculty contributions in various activities

**Table 2.4.3 b. Summary of the faculty contributions**

Sr. No.	Activity	Academic Year				
		2017-18 in %	2016-17 in %	2015-16 in %	2014-15 in %	2013-14 in %
1	Invited as Resource Person in Workshops /seminar /conferences	4.46	5.13	0.74	2.63	0
2	Participated in Workshops /seminar / conferences	24.84	98.62	76.47	70.18	61.96
3	Presented paper in seminar / conferences	2.55	26.21	38.24	23.68	13.04

**2.4.4 What policies/systems are in place to recharge teachers? (e.g.: providing research grants, study leave, support for research and academic publications teaching experience in other national institutions and specialized programs industrial engagement etc.)**

The institute extends full support for the professional development of the faculty in many ways e.g.

- The institute encourages and supports faculty for pursuing higher studies (Ph.D.) by granting them study leaves. Institute also motivates faculty by providing project funding to their research work.
- The institute provides financial support for presenting papers in national and international conferences.
- The institute provides financial support to organize seminars, workshops and FDP's for enrichment of faculty knowledge.
- The institute deputed faculty members to attend short term refresher courses, seminars and workshops for upgrading their skills.
- The institute subscribes to reputed journals like Science Direct for the reference of all faculties.
- The institute provides support to participate in seminar, workshop and FDP etc.
- Institute having nineteen MoU's with industries and through which the faculties are encouraged to interact with industry and this will help them during their research work.
- Faculties are encouraged for writing text books for SPPU syllabus.

**2.4.5 Give the number of faculty who received awards / recognition at the state, national and international level for excellence in teaching during the last four years. Enunciate how the institutional culture and environment contributed to**

## such performance/achievement of the faculty

**2.4.6 Has the institution introduced evaluation of teachers by the students and external Peers? If yes, how is the evaluation used for improving the quality of the teaching-learning process?**

Yes,

Institute evaluates teachers by taking inputs from students.

- Evaluation of teachers by the students is done through perfectly confidential students' e-Feedback system in each semester. Analysis of received feedback is done and it is used for improving the quality of teaching-learning-process. Counseling of the teachers is done by senior professors to make necessary corrections.
- Continuous evaluation of contents of teachers' academic diary by academic audit committee.
- It helps teachers to identify and sort out their limitations.

**2.5 Evaluation Process and Reforms**

**2.5.1 How does the institution ensure that the stake holders of the institution especially students and faculty are aware of the evaluation processes?**

The Institute is accountable to the stakeholders - students, faculty, parents, alumni and the society. The evaluation processes are brought to the notice of the students and faculty through the followings:

- The Institute makes aware to the admitted students and parent about the evaluation process through the induction program conducted at start of college at institute and department level.

- The Institute notifies the students regarding schedule and structure of internal and SPPU,,s evaluation system through the college notice board.
- At the commencement of the term students are notified about the criteria for evaluation of term work.

The term work marks are given on different parameters like (i) attendance of student (ii) internal examination performance (iii) continuous assessment and (iv) mock practical oral examination.

- Student’s performance is assessed by midterm submission and internal examination. Institute conducts two unit tests and prelim examination.
- All this information is given to the parents through parent-teacher meeting. The letters are sent to the parents after each unit examination and the marks and attendance is conveyed to the parents.
- The evaluation parameters and methodology is finalized in the faculty meeting. Suggestions from the faculty are incorporated in finalizing the policies.
- The suggestions of alumina taken in alumni meeting are also considered while deciding the strategies.
- The policies are revised in every semester in general meeting.

**2.5.2 What are the major evaluation reforms of the university that the institution has adopted and what are the reforms initiated by the institution on its own?**

The institution implements all the evaluation reforms as prescribed by the SPPU. Following are the major evaluation reforms introduced by the University and adopted by institute

**SPPU Examination Pattern** - SPPU has introduced a credit system pattern and a concept of continuous evaluation through in-semester examination and end semester examination per semester. The institute has smoothly adopted all the rules, and procedures laid down by University. The revised examination structure is as follows.

**Table 2.5.2 SPPU Evaluation Pattern**

Year	Exam by SPPU		Marks	Credits	Exam by SPPU	Marks	Credits
FE	Phase I [25M]	Phase II [25M]	50	**	End semester	50	**
SE	Phase I [25M]	Phase II [25M]	50	**	End semester	50	**
TE	In – semester		30	NA	End semester	70	NA
BE	In - semester		30	NA	End semester	70	NA
ME	In - semester		50	**	End semester	50	**

\*\* Number of credits varies for each subject

- **Appointment of CEO** - As per SPPU directives, the institute has appointed a senior and experienced faculty member as Chief Examination Officer (CEO). The examination committee is structured with the Principal as the chairman assisted by CEO who is the member secretary and senior faculty member one from each department.
- **Computerization** - SPPU has introduced online examination for evaluation of the first and the second year engineering students. The institute conducts online examinations of the SPPU during every semester. The marks of term work, practical/oral examination and those for in-semester are submitted online to the university.
- **Appointment of Internal Examiners**-The institute appoints internal examiners for the practical/oral examinations as per the guide lines of the SPPU.
- **Credit system**-As per the SPPU guidelines credit system has been introduced for the PG Programmes.  
The institute augmented university reforms by conducting mock online examinations, tutorials and mock practical/oral examinations for the students before the university examination.
- **The reforms initiated by the Institute:** Conduction of mock onlineexaminations, tutorials, mid-semester examination and mock practical/oral examinations. Institute also conducts project competitions, AMCAT, ET, QA/LR, quizzes and soft skill development competitions for the students.
- **Research Component:** Research component in the form of writing of a reviewpaper, has been to be added to the STP IV in TE Semester II. In has been decided by the institute to inculcate research culture inevery student. The seminar / mini-project activity of semester II as per university syllabus can be coupled with this activity.

### 2.5.3How does the institution ensure effective implementation of the evaluation reforms of the university and those initiated by the institution on its own?

#### University evaluation reforms:

- The CEO and Examination Committee schedules and executes the evaluation process with strict monitoring on regular basis.
- The principal also takes stock of the progress in weekly HOD meetings.
- Internal squad comprising of senior faculty members oversees the smooth conduction of university theory examination.
- CCTV cameras are deployed at select locations to monitor the online examinations.

#### Internal evaluation reforms:

- Each department has examination cell for smooth conduction of internal tests. The results of each test are declared within a week of the conclusion of the test. The students can see their respective answer books and discuss their queries with concerned staff.
- The term work evaluation is done by respective course teachers. The performance evaluation of students is displayed on notice board through Continuous Assessment Report (CAR). Student can discuss any queries about CAR with the concerned teacher.

**2.5.4 Provide details on the formative and summative assessment approaches adapted to measure student achievement. Cite a few examples which have positively impacted the system.**

**Formative Evaluation Process:**

The goal of formative evaluation of the students is to monitor their learning, to collect continuous feedback, which is used by faculty to improve their teaching and by students to improve their learning. Formative evaluation is carried out considering the following parameters.

- Attendance to theory and practical sessions throughout the semester
- Attendance at STP sessions
- Mock on-line and practical/oral examinations
- Online SPPU Examinations (for FE and SE)
- SPPU In-Semester examination (for TE and BE)
- Tests and assignments
- Participation in industrial visits and Mini projects/projects
- Participation in workshops and seminars
- Participation in organizing technical events
- Participation in curriculum based training and social activities
- Participation in inter-collegiate competitions
- Participation and involvement in Value added programmes
- Overall impression of TG

**Summative Evaluation process:**

The goal of summative evaluation is to evaluate students' performance outcome at the end of each examination in comparison with some standard benchmark. The institute conducts summative evaluation through result analysis after each internal or external examination. Students' performance is promoted through publicly appreciating and rewarding the good performers.

**Examples**

Best performing students are given awards for their performance in university examinations, thus the institute is able to sustain academic environment and healthy competition amongst students. In PBL courses students have performed well in theory exams compared to other courses in the semester. Also, students' engagement activities are enhanced in this class.

**2.5.5 Detail on the significant improvements made in ensuring rigor and transparency in the internal assessment during the last four years and weightages assigned for the overall development of students (weightage for behavioral aspects, independent learning, communication skills etc.)**

- To monitor the student progress, institute has the continuous internal evaluation system which consists of internal assessment tests (twice in a term), improvement test and evaluation of practical exercises.
- Institute has developed fully transparent internal assessment scheme (refer Fig. 2.3.1 d), which is strictly implemented and practiced by the faculty.
- Continuous assessment is done by departments.
- In continuous assessment process, encouragement is provided for participation in activities like group discussion, seminar, poster presentation etc.
- Institute communicates progress report of their ward to the parents.
- Parents and Teacher-Guardian's meet is organized twice in a year.
- The institute analyses program-wise performance of students.

Following figures shows programme wise performance of the students.

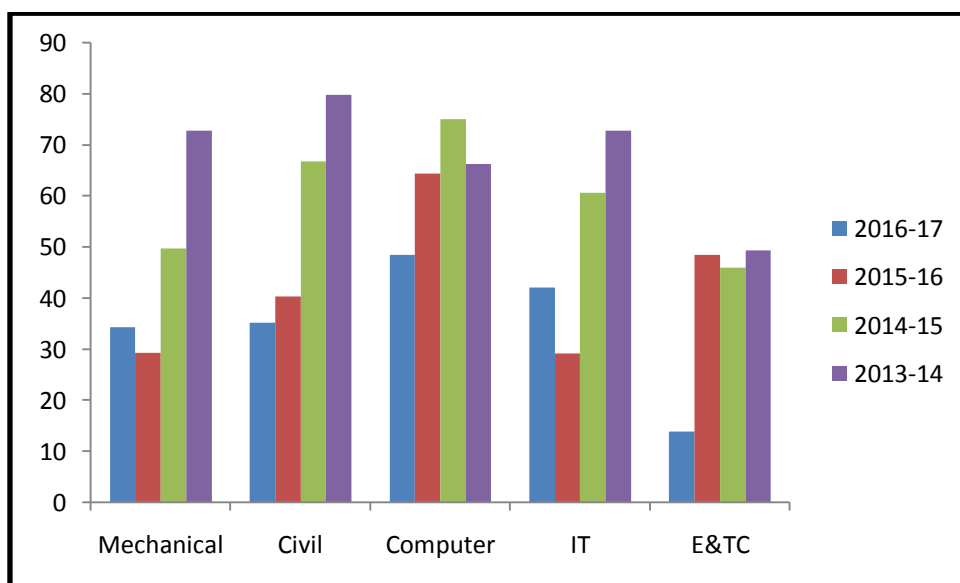

**Figure 2.5.5 a. Passing percentage of BE students**

**Fig. 2.5.5 b. Passing percentages of TE students**

**Fig. 2.5.5 c. Passing percentages of SE students**

**Fig. 2.5.5 d. Passing percentages of FE students**

**Fig. 2.5.5 e. Passing percentages of MBA students**

**Fig. 2.5.5 f. Passing percentages of MCA students**

Above figures 2.5.5 a. to 2.5.5 d. shows result analysis of BE, TE, SE, FE, MBA and MCA students of each branch for last four years. Fig 2.5.5 a. shows the stable results for B.E. classes. Figure 2.5.5 b., 2.5.5 c. and 2.5.5 d) indicates percentage of results in a decreasing order.

Decrease in F.E. result can be attributed to change in syllabus and exam pattern [Credit system]

### 2.5.6 What are the graduates' attributes specified by the institute/affiliating university? How does the institute ensure the attainment of these by the students?

#### Graduate attributes specified by the institute:

- **Engineering Knowledge:**  
Apply knowledge of mathematics, science, engineering fundamentals and an engineering specialization to the solution of complex engineering problems.
- **Problem Analysis:**  
Identify, formulate, research literature and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences and engineering sciences.
- **Design/Development of Solutions:**  
Design solutions for complex engineering problems and design system components or processes that meet specified needs with appropriate consideration for public health and safety, cultural, societal and environmental considerations.
- **Conduct Experiments:**  
Conduct investigations of complex problems using research-based knowledge and research methods including design of experiments, analysis and interpretation of data and synthesis of information to provide valid conclusions.

- **Modern Tool Usage:**  
Create, select and apply appropriate techniques, resources and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
- **The Engineer and Society:**  
Apply reasoning informed by contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to professional engineering practice
- **Environment and Sustainability:**  
Understand the impact of professional engineering solutions in societal and environmental contexts and demonstrate knowledge of and need for sustainable development.
- **Ethics:**  
Apply ethical principles and commit to professional ethics and responsibilities and norms of engineering practice.
- **Individual and Team Work:**  
Function effectively as an individual, and as a member or leader in diverse teams and in multi-disciplinary settings.
- **Communication:**  
Communicate effectively on complex engineering activities with the engineering community and with society at large, such as being able to comprehend and write effective reports and design documentation, make effective presentations and give and receive clear instructions
- **Life-long Learning:**  
To recognize the need for and ability to engage in life-long learning
- **Project Management and Finance:**  
Demonstrate knowledge and understanding of engineering and management principles and apply these to one's own work, as a member and leader of a team to manage projects and in multidisciplinary environments.

#### Attainment of Graduate attributes the students

Institute does not explicitly assess all the graduate attributes. However efforts have been made to provide ample opportunities to learn and acquire skills through various activities. Following table provides a mapping of graduate attributes and activities conducted by the institute. Also, assessment pattern and evaluating agency are noted in the table.

**Table 2.5.6 Mapping of graduate attributes and activities**

Graduate Attributes	Activity	Assessment	Evaluators
Engineering Knowledge	Lectures and talks, STP- III and IV	Tests , Viva voce	Internal and SPPU
Problem Analysis	Industrial and in-house projects	Q and A, Presentation	Internal and External
Design/Development of Solutions	Design and Model competitions Software development	Q and A, Presentation	External

	competitions		
Conduct Experiments	Lab experiments as per curriculum	Q and A	Internal
Modern Tool Usage	VAP, STP- V	Q and A, Presentation Project and Report	External
The Engineer and Society	Industrial and in-house projects, seminar and conference	Q and A, Presentation Project and Report	Internal and External
Environment and Sustainability	Awareness programmes	Poster making	Internal
Communication	Projects, Paper presentation, STP- I and II	Presentation and report writing	Internal and External
Life-long Learning	Lab work and Projects, competitions	Presentation	-
Project Management	Projects, Presentation and report writing	Evidence-based	Internal and External

### 2.5.7 What are the mechanisms for redressal of grievances with reference to evaluation both at the institute and University level?

#### (A) Redressal of grievances at institute level:

##### Level 1 - Departmental Level:

The continuous evaluation of students is carried out by faculty in terms of theory lectures, labs, assignments etc. The term work are given based on defined strategies and displayed on notice board. Query if any is discussed with faculty and head of department.

##### Level 2 – College Level:

The institute appoints a Senior Supervisor who controls all the online/ theory examinations, displays schedules, instructs to the students for smooth conduction of examinations of University. If students are facing any problems, they are solved by Senior Supervisor in coordination with Chief Examination Officer (CEO) appointed by the University. The grievances during the conduction of online/theory examinations are considered and discussed in consultation with the Principal and if necessary forwarded to the SPPU by examination section.

#### (B) Redressal of grievances at University level:

Examination online form filling, exam seats allotments, results, photocopy, revaluations etc. are coordinated by office superintendent to University. The result queries, printing mistakes of mark sheets, corrections if any are handled at University examination section after forwarding such quires through the college examination section. Any queries of students during online examinations are communicated to the SPPU immediately and get clarified to satisfy the student who is appearing for online examinations. The same policy is also adopted for SPPU theory examination. The queries related with errors in mark sheets, evaluation, photocopy are totally handled by SPPU in which the role of institute is to take the follow – up with SPPU till the student satisfies.

## 2.6 Student Performance and Learning Outcomes

### 2.6.1. Does the institute have clearly stated learning outcomes? If, yes, give details on how the students and staff are made aware of these?

The Institute has well defined learning outcomes. The vision and mission of the institution emphasizes on promoting value education through motivated trained faculty to prepare the students to accept the challenges of globalization.

The program/learning outcomes are:

- a. Graduates will exhibit knowledge of basic engineering and sciences, design engineering, telecommunication and electronics sciences.
- b. Graduates will exhibit ability to identify, formulate, solve and implement solutions for engineering, managerial and societal problems.
- c. Graduates will exhibit to design and conduct experiments, analyze and interpret data through simulated industrial environment.
- d. Graduates will exhibit ability to design products, processes and systems to meet the economic, environment, social, ethical and technological norms for sustenance.
- e. Graduates will exhibit ability to comprehend and solve multidisciplinary engineering problems through systematic approach.
- f. Graduates will familiarize with modern engineering methods and analysis using software and state of art equipment to analyze problems.
- g. Graduates will demonstrate knowledge of values and professional ethics in their activities.
- h. Graduates will be effective in verbal and non verbal communication.
- i. Graduates will show the ability to appreciate contemporary issues and develop solution for societal betterment at micro and macro levels.
- j. Graduates will develop an attitude of continuous learning.
- k. Graduates will develop confidence to face challenges in their career and ability to do research.

Students and staff are made aware about the learning outcomes by following ways:

1. The vision and mission statements are displayed on the college website and at various key positions in the college building.

2. Programme Educational Objectives (PEO), Programme outcomes (PO) and course outcomes (CO) have been defined by every department.

Programme Educational Objectives (PEO) and Programme outcomes (PO) are printed in journals and course outcomes (CO) are discussed by faculty in the classrooms.

3. Programme Educational Objectives (PEO), Programme Outcomes (PO) are published on the college website.

### 2.6.2 Enumerate on how the institution monitors and communicates the progress and performance of students through the duration of course / Programme? (Programme / Course wise for last four years) and explain the differences if any and patterns of achievement across the Programmes/courses offered.

- Monitoring student's performance and progress thereof is the heart of the teaching-learning process in the institute. Means used for this are progressive attendance, continuous lab assessment, 2 unit tests, 2 mock online tests, and prelim exams, in-sem exams, and end sem examinations.

- The institute regularly communicates the student's performance in above parameters to students and their parents.
- Progressive performance is assessed on an annual basis. Any downward trends are noted, and corrective actions are initiated to rectify the problems.
- The result analysis for last four years is discussed in criteria 2.5.5
- In parents meet, the performance of students is discussed with their parents.

### **2.6.3. How are the Teaching, Learning and Assessment Strategies of the institution structured to facilitate the achievement of the intended learning outcomes?**

#### **Teaching Strategies:**

- Every department in the institute prepares an academic calendar in line with the institute and university academic calendar.
- The faculty prepares their lesson plans with details such as course objectives, course outcomes, unit objectives and unit outcomes along with well thought out time schedule.
- Lesson plans of the faculty are reviewed by HOD at the beginning of the semester.
- In addition to required number of classroom and laboratory slots, the timetables also provide room for student training on specialized subjects like soft skills, communication skill, technology applications and personal interview skills (STP I through V).
- Results of formative and summative assessments are rigorously analyzed, and necessary corrective actions are taken. The academic calendar of the institute specifies the schedule for tests and related result analysis immediately following the exam.
- Trailing students are identified periodically, and remedial support is extended to them so as to enable them to catch up with the class. Help from parents is also sought where required in such cases.
- All the teaching materials is made available available to students either by mail, Xerox copies of subject notes shared by faculty.

#### **Learning Strategies:**

- Classes are made interactive through asking a question and interesting presentations.
- Projects are promoted among all the students from second to final year so that they develop analytical habits.
- Industrial visits invariably conducted every year help students gain field exposure

**Assessment Strategies:** Following strategies are employed for assessment

#### **Direct Assessment**

- Internal and external examinations in theory and laboratory.
- Online examinations.
- Seminars, tutorials, and assignments.

#### **Indirect Assessment**

- Employer Feedback
- Alumni Feedback

**2.6.4. What are the measures / initiatives taken up by the institution to enhance the social and economic relevance (quality jobs, entrepreneurship innovation, and research aptitude) of the courses offered?**

- Besides providing appropriate training, the institute conducts employability tests like AMCAT etc. which form the entry prerequisite for many high profile companies.
- EDC promotes entrepreneurship skills among students through regularly arranged activities and competitions.
- Industry sponsored projects help students get direct industry exposure by virtue of which their employability enhances significantly.
- The institute motivates and sponsors students to participate in various research projects, project competitions such as ROBOCON, SAE INDIA BAJA, and Eco-CART, etc.
- The institute organizes various technical competitions under TECHTONIC.
- Students are encouraged to participate in university-level competitions like AVISHKAR and other National and State level project competitions.
- The institute has signed MoUs with esteemed companies.
- T&P cell conducts expert lectures, pre-placement talks, and guidance for higher studies.
- Organization of various social activities by institute like blood donation camp, celebrating festivals with an orphan, awareness through special NSS camps, river cleaning activity.
- Each department has developed multiple activities in line with the PEOs. All these activities are termed as content beyond syllabi. Curriculum Gaps in the syllabus are investigated and mentioned in the table as known gap. The known gap is filled with the additional content and its reference activity.

**Table 2.6.4 Summary of the gaps and additional content/activities**

<b>Known gap</b>	<b>Additional Content/ activities</b>	<b>Institute Activity</b>
Interaction amongst stakeholders	Students are encouraged to visit industries. Expert talks are arranged from industry people on specific and interdisciplinary subjects spreading across the curriculum.	Industrial training and Visits, Invited Talks.
Skill development.	Group discussions, LCD presentations are added in regular timetable to improve presentation and communication skills of the students.	Group discussions and, LCD presentations
	Professional clubs (SAE, IETE) and student bodies (MESA, ACE, CESA, SAINT and eWORTs), are regularly conducting various activities to improve leadership and managerial qualities with exposure to latest technological trends.	Professional clubs and student associations' activities
	Special need-based Student Training Programmes (STP) are designed for the skill development of the students. These STPs are designed in collaboration with the industry and academia.	STP-I to IV

Students centered learning practices.	RMDSOE has begun implementing PBL (Project Based Learning) and Activity Based Learning. Here, concepts of lab innovations are incorporated into the curriculum to involve students in self-learning (learning by doing) practices and to implement their ideas in actual practice. Students are motivated for learning since they work on new ideas generated by them or as directed by a faculty. They were facilitated by the institute by funding good lab innovations and exhibition and design contests.	Lab innovations Exhibition and design contests Industrial projects. ROBOCON, Eco-Kart and BAJA.
	Institute promotes the students to work with industry to carry out projects. As a result, many students have done industry sponsored projects. Also, students have participated in various Nationally recognized events.	Industry projects
Exposure to Modern tools	Since 2014, the institute is conducting various Value addition programmes on various Modern Tools and Programming Languages. Also, in technical events students gets practice to use modern tools.	Value Addition Programs (VAP), Digital Hackathon, Tectonic Event
Students interaction sessions	In addition to professional and individual counseling are added to a regular timetable in which faculty and students interact with each other on various topics prevailing during that period.	Teacher Guardian meetings

- The additional contents as necessary depending upon industrial need are being provided after institute hours in terms of Value Addition Programs (administered by the department and student forum).

#### 2.6.5. How does the Institute collect and analyze data on student learning outcomes and use it for planning and overcoming barriers to learning?

Every programme / department collects the feedback from all the stakeholders pertaining to students' performance and outcomes. These feedbacks are analyzed quantitatively as well as qualitatively. The gaps between the curriculum and technological need are found out.

- Faculty feedback is taken in every semester from students.
- Exit students feedback is taken from the outgoing students every year.
- The feedback from the alumni is taken during the Alumni meet.

#### Corrective Actions:

- Special attention is paid to lateral entry students.
- Remedial classes are conducted for subjects where percentage of failure is more
- Mock orals are conducted
- Students with difficulties in learning are counseled by respective subject teachers and teacher guardian

### 2.6.6. How does institution monitor and ensure the achievement of learning Outcomes?

The institution has clearly defined a mechanism to monitor the learning outcomes.

- Based on the performance of the students in various technical and other competitions. The learning outcomes are analyzed by the quality and quantity of placement in Tier-1, Tier-2 companies.
- Based on the participation and achievements of the student in competitive exams like GATE, GRE, TOFEL, etc.
- The quality of the undertaken project, internship performance and participation in competitions, conferences/ workshop/ seminars referee's recordings on group discussions, enable the institution to monitor and ensure the achievement of learning outcomes.
- Study of history card of every student which presents the initial level of learning and the exit feedback given by students along with the marks, ranks and employment status, as well as internship certificates, indicates the achievement of learning outcomes.

### 2.6.7 Does the institution and individual teachers use assessment/evaluation as an indicator for evaluating student performance, achievement of learning objectives and planning? If 'yes' provide details on the process and cite a few examples.

**Yes**, individual teachers use assessment/evaluation as an indicator for evaluating student performance. Different evaluation methods are used as per the need of the course.

- In line with the course objectives and outcomes prescribed by the University every course teacher designs lesson plan and lecture plan in conformation with the course objectives and adopts innovative teaching methods to achieve the same.
- Students participate in different academic activities viz. tutorial, mini projects, asolution of numerical problems, quiz, seminar, oral, etc. These activities help to assess the proficiency of students in theapplication of mathematical and engineering concepts, effective communication skills. This process helps in achievement of learning outcomes.
- The teacher monitors the laboratory skill developed by students during practical sessions.

### 2.6.8 Any other relevant information regarding Teaching-Learning and Evaluation, which the institute would like to include.

- To make a student-centric learning, the institution adopts the following best practices in respect of teaching, learning and evaluation:
- Well-designed academic calendar
- Appointment of Teacher-Guardians for continuous monitoring and assessment
- 5-Phase Student Training Program from Semester III through Semester VII, special coaching for advanced learners, remedial classes for slow learners.
- Faculty Development Programs, Seminars, workshops, and industrial visits.
- Expert lectures by speakers from industry and academia.

## CRITERIA III: RESEARCH, CONSULTANCY, AND EXTENSION

### 3.1 Promotion of Research

Institute is bridging the gap among the universities, industries, and research, promoting various agencies developing culture of creating and sharing knowledge. Students & faculties are encouraged and supported for undertaking various research activities, the result of which institute has facilitated number of research papers, in the areas of various Engineering disciplines. The studies facilitated by institute are presented at National and International level forums/conferences and published in scholarly journals of international repute. The institute promotes development of the aptitude for research among faculty and students by providing resources and facilities to learn new technologies.

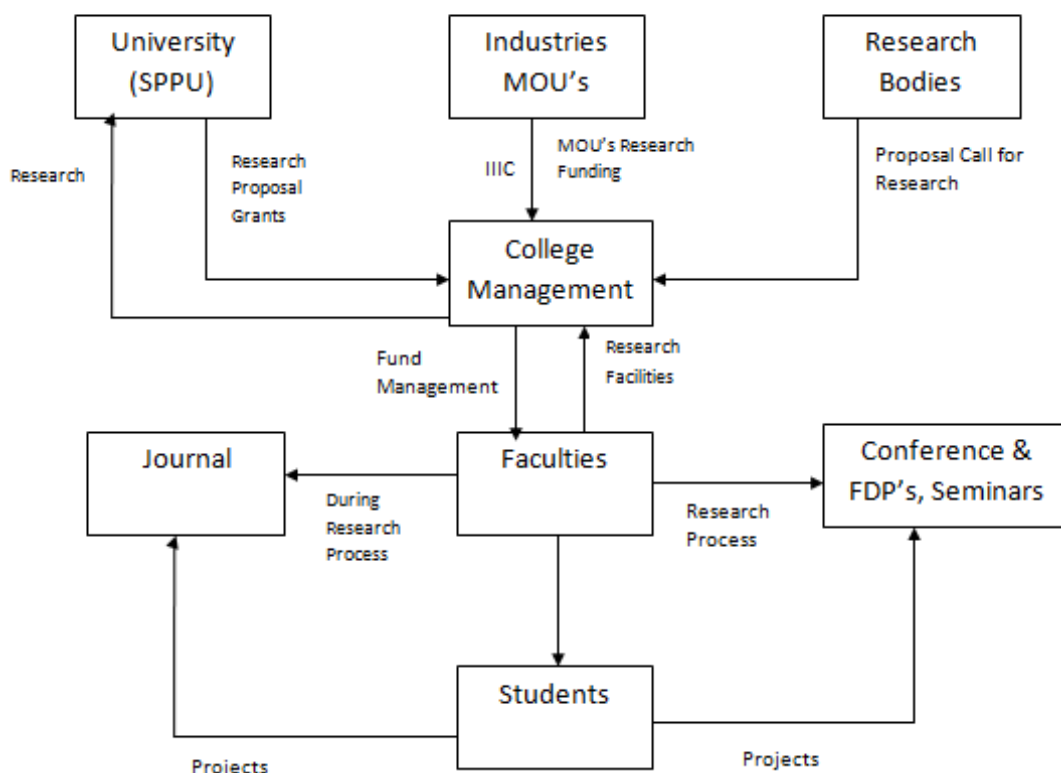

Figure 3.1 Research Promotion

#### 3.1.1 Does the institution have recognized research center/s of the affiliating University or any other agency/organization?

No, however the institute has collaborative research association with Center for Communication, Media & Information Technologies (CMI), Aalborg University, Copenhagen, Denmark. The institute has signed memorandum of understanding (MOU's) for R&D projects with various industries. To promote the research, Institute has set up research cell. Computer engineering department has procured Award of GPU Education Center with donation of NVIDIA 3 GPU Processors by NVIDIA Singapore PTE. Ltd. students and staff can take advantage of this facility for their

research work. Institute runs PG programmes affiliated to SPPU with various specialization aims to promote research. The details are as follows.

**Figure 3.1.1 PG Programmes**

**3.1.2 Does the Institution have a research committee to monitor and address the issues of research? If so, what is its composition? Mention a few recommendations made by the committee for implementation and their impact.**

Yes, the institute has R&D cell to monitor and address the issues of research. The composition of R&D cell is given in Table 3.1.2. This committee oversees the smooth and efficient coordination of research and development activities in the institute, thus fostering overall growth.

**Table 3.1.2 Institute R & D Cell**

Sr. No.	Name	Designation	Position
1	Dr. C. B. Bangal	Director/Principal	Chairman
2	Mr. Nitin D. Pagar	Coordinator, R&D	Coordinator, R&D
3	Dr. John Peter	Dean, MBA	Member
4	Dr. Madhva Nagarhalli	Professor & Head, Mech. Engg.	Member
5	Dr. S. S. Deo	Professor	Member

6	Dr. Sheetal Ghorpade	Associate Professor	Member
7	Dr. Sunil Jagtap	HOD, First Year	Member
8	Mrs. Snehal A. Bhosale	HOD, E&TC Engineering	Member
9	Ms. Vina M. Lomte	HOD, Computer Engineering	Member
10	Mrs. Sweta R. Kale	HOD, Information Technology	Member
11	Mr. Rahul D. Shinde	HOD, Civil Engineering	Member
12	Dr. V.M. Rohokale	Assoc. professor, SITS, Narhe	External RC Member
13	Dr. P.N. Mahalle	Professor, SKNCOE, Vadgaon	External RC Member
14	Dr. S.S. Shastri	Professor, SCOE, Vadgaon	External RC Member
15	Dr. Ajit Bhosale	Assoc. professor, Commins COEW, Pune	External RC Member
16	Mr. Uday Cherekar	Shree Systems Pvt. Ltd., Pune	External RC Member

#### **Aims and Objectives of Research and Development Cell:**

- To create zeal amongst students and faculty members towards research and innovation.
- To create centers of Excellence in niche areas of research.
- To motivate the faculty members of the group for R&D activities in the area of their specialization.
- To encourage staff members and students to publish technical papers for publishing in National and reputed International Conferences/Journals.
- To assist for applying and getting funds for conducting Seminar/Workshop/FDP from various available funding agencies.
- To interact with industry, government, professions and the wider community on all research matters promote faculty research activities to external stakeholders.
- To work with various departments to establish and develop faculty research priorities on interdisciplinary areas.
- To work closely with the industrial needs that eventually will result in new or improved products, processes, systems or services that can increase the company's productivity.
- To coordinate faculty level workshops and staff development activities on research-related issues.
- To maintain effective links with government departments, authorities, business, and commerce and industry organizations relevant to the college research activities.

#### **3.1.3 What are the measures taken by the institution to facilitate smooth progress and implementation of research schemes/projects?**

The institute has formulated following policies for faculty and students:

- Availability of Infrastructure & resources.
- Time Flexibility as and when required.

- Special leaves are granted.
- Encouraging students to participate in different workshops, seminars, conferences, and technical competitions to promote research culture.
- Organizing visits to Industry and R & D centers for faculty and students.
- Motivating faculty for higher qualification (Ph.D.).
- Reimbursement of the fees paid for FDP, Workshop & Seminar etc.

### 3.1.4 What are the efforts made by the institution in developing scientific temper and research culture and aptitude among students?

All departments nurture scientific temper and research culture among students through several measures like:

- **Mini projects:** Students are encouraged and guided to implement innovative ideas through Mini Projects. It helps to develop their ability to work independently.
- **Interactions with industry experts:** Expert lectures are arranged to create awareness about the current trends and technologies.
- **Industrial visits:** Industrial visits are arranged for students to know about an insight regarding internal working of companies.
- **Industrial internship:** During the internship, students understand industrial work culture and receive hands-on experience.
- **Technical events:** Students are encouraged to organize technical events like Techtonic in the institute and participate in various technical events organized at different places.
- **Projects:** Students identify the problem in the industry or society and try to come up with the solution in the form of project. During this process, they also publish their work in conferences/ journals. This helps to develop research attitude & culture in the students.
- **STP-IV:** In this module students are guided to write review papers.
- Lab experiments and design experiments provide an opportunity to develop scientific temper among students.

### 3.1.5 Give details of the faculty involvement in active research (Guiding student research, leading Research Projects, engaged in individual/collaborative research activity, etc.)

- All departments of institute have prioritized research areas on the basis of expertise of the faculty and other related resources available with the institute through which various research activities like seminar, workshop etc. are held in the institute.
- Faculty attends and presents various technical papers in conferences and journals regularly.
- Faculty and students are also associated with industry sponsored projects.
- Faculty guides the UG and PG students for Projects, Seminars, Technical papers & their research work.

- The details of faculty involvement in active research are shown in Table 3.1.5 (a). The table includes data related to faculty guiding UG and PG students under different research areas.

**Table 3.1.5 (a) Faculty Guiding UG and PG Students**

Sr. No.	Department	No. of Students Guided	
		UG	PG
1	Mechanical Engineering	556	76
2	Civil Engineering	313	47
3	Computer Engineering	271	127
4	Information Technology	185	21
5	E&TC Engineering	76	71
6	MBA	NA	521
7	MCA	NA	559

- The details of the faculty engagement in individual research activity while pursuing their Ph.D. from various universities are as shown in table 3.1.5(b)

<b>Department of Mechanical Engineering</b>			
1	Design and Development of Intelligent Swarm Robotics for Dockyard/Warehouse Application	Mr.Y.L.Maske	M.D.Engineering Works, Narhe, Pune
2	Design and Development of Power-	Mr.R.R.Ligade	Assure

	Booster with the help of Turbo Blower		Solutions, Chakan, Pune
3	Power Generation Using Agro-waste	Mr.S.S.Khandagale	Assure Solutions, Chakan, Pune
4	CFD Analysis of Centrifugal Pump Impeller for Performance Enhancement	Mr. H.H.Kadam	KSB Pumps Ltd, Pune
5	Design and Manufacturing of System for Air-conditioning by using Compressed Air from Compressor Suspension Unit	Mr.Y.D.Sonawane	M.D.Engineering Works, Narhe, Pune
6	Thermal Design of Waste Heat Recovery Unit for Cement Industry	Mr.Y.D.Sonawane	Thermax Ltd, chinchwad, Pune
7	Design and Manufacturing of an Automatic Scrap removal system for CNC Machine	Mr.P.S.Desle	S.G.Engineers Works, Vadgaon, Pune
8	Design and Development of Trolley Axle for Cost Minimization	Mrs. S.U.Ratnaparkhi	Balaji Industries, Wagoli, Pune
9	Design and Development of Movable Traffic Divider (Prototype)	Mrs. S.U.Ratnaparkhi	Appolo Industries, Narhe, Pune
10	Design of Oil Pump Endurance Test Unit	Mrs. J.D.Rane	Shree Systems, Pune
11	Manufacturing of Multi Loading Press Tool for Muffler Assembly of HONDA Activa 4G	Mrs. R.J.Hire	Badve Engineering Limited, Chakan, Pune
12	Manually Operated Bio-Mixer for Fertilizer	Mr.S.K.Kalukhe	BKWT Opco Engineering Solutions, Pune
13	Design and Fabrication of Material handling Robot Using X-Y Gantry Mechanism	Mr.Y.L.Maske	S.V. Robotics and Automation India Pvt.Ltd, Pune
14	Design of Special Purpose Machine for Manufacturing of Spring Clip	Mr.D.P.Sonawane	JKC Automobile, Thergaon, Pune
15	Design and Analysis of Drive Assembly for Pump Test Bench	Mr.P.S.Desle	Shree Systems, Pune
16	Design and development of fog dispersion machine for air port	Mr. Nitin D.Pagar	Indian Institute of Tropical Meteorology, Pashan, Pune
17	Design analysis and fabrication electrostatic field mill	Mr. Sushil dhamde	Indian Institute of Tropical Meteorology, Pashan, Pune
18	Design and development of workstation table by considering ergonomics aspect	Mr. Sumit V. Dubal	Kailash Vahan Udyog Ltd, Alandi, Pune
19	Development in atmospheric	Mr. M. H. Borate	Thermax Ltd,

	fluidised bed combustion boiler		chinchwad, Pune
20	Design and development of scrap metal cube machine	Mr. Rahul Deshmukh	Super Tech Systems Pvt, Ltd, Naded Phata, Pune
21	Design and development of waste heat recovery from domestic refrigerator	Mr. Ravikiran Chavan	Edumech Solutions Narhe, Pune
22	Optimization of lathe for small scale industries	Mr. Rahul R. Pawar	Absolute India Mechatronics Pvt Ltd, Warje, Pune
23	Pitch error measuring device for ball screws	Mr.R.R.Ligade	Inland Machine Tools Pvt.Ltd, Pune
24	Design of system for loading & unloading of workpeice from CNC lathe	Mr.R.R.Ligade	Exoskeleton, Near PARI Robotics, Narhe, Pune
25	Waste Plastic to fuel conversion	Mr.D.H.Karad	Nespro Renewable Energy Solutions, Pune
26	Noise Reduction in Hoisting gear box	Mr.R.S.Varier	Shree Cranefab Pvt Ltd, pune
27	Design & Manufacturing of Fixture for deep hole drilling machine	Mr.R.S.Varier	Sandvik Asia Pvt Ltd, Pune
28	Design of Mechanically actuated diaphragm type dosing pump.	Mrs.S.U.Ratnaparkhi	BKWT OPCLO Engg. Solutions, Dhayari, Pune
29	Design of canister missile launching tube	Mrs.S.U.Ratnaparkhi	DRDO,Pune
30	Design An Efficacious safety system based on structural analysis of works platform	Mr.M.L.Thorat	Universal Construction Machinery Ltd, Pune
31	Design analysis & manufacturing of a 2 Ton broaching machine base	Mr.M.L.Thorat	Suntech Landriani Pvt. Ltd., Pune
32	Design & Manufacturing of TOD for cylindrical block	Mr.S.S.Gudhate	Cummins Power Systems, Pune
33	Design of conveyor system for transport of packaging materials	Mr.S.S.Gudhate	Prime technologies Pvt. Ltd., Pune
34	To design and manufacture drilling unit using servo motor quill feed and air motor.	Mr.A.K.Mahindrakar	Patson Machines Pvt.Ltd., Shivane, Pune
35	Design of 4 or 5 spindle nut runner system	Mr.N.D.Pagar	Atlas Copco India Ltd, Pune
36	Design and manufacturing of leakage testing machine (SPM)for filter oils	Mr.D.G.Joshi	Epsilon Technologies, Kothrud, Pune
37	Redesign of Plant Layout for furniture Manufacturing Industry.	Mr.R.S.Varier	Rawat Brothers Furniture Pvt.Ltd., Kalewadi, Pune
38	Development of Experimental Setup of Fumigation System Using Pulse	Mrs.S.A.More	Climber Engineers, Katraj, Pune

	Jet Engine		
39	Value Stream Mapping on Cylindrical Cell	Mr.R.S.Varier	Kirloskar Oil Engine Ltd, Pune
40	Design & Up Manufacturing of Plastic Fuel Tank Test Facility	Mr.S.T.Jagdale	ARAI,Kothrud, Pune
41	Design & Development of Multi Spindle Adjustable Drill Head	Mr.R.S.Varier	Patson Machines Pvt.Ltd.Shivane, Pune
42	Design & Development of Testing Machine for Gear Box	Mr.D.P.Jadhav	Shree Systems, Sinhgad Road, Pune
43	Design & Development of Piercing Die for Angle Plate	Mr. R.R.Ligade	Earthtech engineers, Talawade, Pune
44	Low Temperature Air Generation from Vehicle Suspension System	Ms.S.U.Ratnaparkhi	Shiv Sadhana Industry Inc. Ltd, Katraj, Pune
45	MEMS Based Safety & Arming Mechanism	Mr.S.R.Wanjari	Defence R&D Organisation (DRDO), Pashan, Pune
46	Design & Manufacturing of Pit-Less Vertical Broaching Machine	Mrs.S.A.More	Suntech Landriani, Pirangut, Pune
47	Process Design & Simulation of Forged Kick	Mr.D.G.Joshi	Poona Forge Pvt.Ltd, Bhosari, Pune
48	Effect of Dimensional Tolerances on Parameters of Ogive Shaped Casing	Mr.P.N.Deshmukh	Defence R&D Organisation (DRDO), Pashan, Pune
49	Design & Development of Reciprocating Brush for Blister Packing Machine	Mr.P.S.Desle	ACG Pampac Machines Pvt.Ltd, Maval, Pune
50	Design & Manufacturing of Drill Jig for CNG Valve Body	Mr.D.G.Joshi	Vanaz Engineers Ltd, Paud Road, Pune
51	Silencer Body Rolling - A SPM	Mr.P.S.Desle	Dynarc Systems Pvt.Ltd, Shivane, Pune
52	Liquid Sachet Packaging Machine	Mr.R.S.Varier	Bharat Industries, Haweli, Pune
53	Minimisation of Rejections of Brake lever Casting	Mr.Y.L.Maske	Kallani Autocast Pvt.Ltd, Khed, Pune
54	Design , Analysis & Manufacturing of Rubber Block Fail Safe Coupling	Mr.M.H.Borate	Poona Couplings Pvt. Ltd, Erandwane, Pune
55	Design of Roll Bending Machine	Mr.P.S.Desle	Bhagyajyoti Engineering&Insulation Contractors, Warje, Pune
56	Design of Automated Sand	Mr.Sushil Dhamade	Pragati Enterprises,

	Handling & Mixing System		Dhayari, Pune
57	Fixture for testing of Bearing Rings Eddy Current Test Probe	Mr.Sushil Dhamade	Anup NDT Pvt.Ltd, Kothrud, Pune
58	Design & Development of Machining Fixture for Horizontal Shaft Impactor Rotor	Dr.S.V.Patil	Sandvik Asia Pvt Ltd, Dapodi, Pune
59	Reduction of Producton Cycle time for Muffler	Dr.S.V.Patil	Tenneco Automotive India Pvt.Ltd, Khed, Pune
60	Automatic Ultrasonic Cleaning Machine	Mr.A.K.Mahindrakar	SMT Systems LLP, Bhosari, Pune
61	Automation & Upgradation of Metalic Fuel Tank Test Facility	Mr.S.T.Jagdale	ARAI, Kothrud, Pune
62	Design Upgradation of Compressor Cylinder Assembly for Higher Pressure Rating	Dr.S.V.Patil	Krloskar Pneumatic Company Ltd., Hadapsar, Pune

### 3.1.8 Enumerate the efforts of the institution in attracting researchers of eminence to visit the campus and interact with teachers and students?

The institute invites researchers of eminence to interact with teachers and students by organizing various activities like guest lectures /conferences /workshops /seminars etc. Names of some eminent personalities are listed in table 3.1.8

**Table 3.1.8: List of Eminent Personalities**

Sr. No.	Name	Designation	Organization
1	Mr. Piyush Pathak	Deputy GM	MANN & HUMMEL Filter Pvt. Ltd.
2	Mr. Girsih Gangapurkar	Director	HHA Global Consultants LLP, Pune.
3	Dr. Dattatray G. Parle	Principal Consultant-	Infosys Ltd., Pune
4	Mr. R.B. Dave	Retd. Executive Engineer	Irrigation Department Govt. of Maharashtra
5	Mr. Pravin Kolhe	Executive Engineer	Water Resource Department, Govt. Of Maharashtra
6	Mr. Kanhaiyya Gorane	Vice President Operations USA	Alfa Laval Inc. Pune
7	Mr. Hemant Dusane	Manager	-Information Security Range Frameworks India Pvt. Ltd. Pune
8	Preeti Bhatia	Founder Roots Online	Roots Online

### 3.1.9 What percentage of the faculty has utilized Sabbatical Leave for research activities? How has the provision contributed to improve the quality of research and imbibe research culture on the campus?

The institute has made provision to give Sabbatical Leave for research activities whenever required. Experience of these faculties is helpful for nurturing the research environment in the institute.

### 3.1.10 Provide details of the initiatives taken up by the institution in creating awareness/advocating/transfer of relative findings of research of the institution and elsewhere to students and community (lab to land)

The institute has taken following initiatives:

- The students are encouraged and guided to implement projects on research areas
- The students and staff are encouraged to publish papers
- Presenting the research work in the various conferences
- Product development leading to application of patents
- Guest lecture delivery in prominent conferences and workshops
- Consultancy work related to research areas
- Exhibitions of Final year Project.
- Motivate students to participate in inter & intra college technical events.

The details of such initiatives are listed in table 3.1.10

**Table 3.1.10 Details of transfer of relative findings of research**

Sr. No.	Name of Faculty	Name of Project/Product	Specification	Application	Year
1	Dr. J. John Peter	Management Training Program	Management Training	Conducted Training Programs for ISTD ,Pune, Students & Industry	2011

## 3.2 Resource Mobilization and Research

### 3.2.1 What percentage of the total budget is earmarked for research? Give details of major heads of expenditure, financial allocation, and actual utilization.

The institute has the provision of funds in the budget for research. The faculty can take advantage of it whenever required. The funds are provided as per requirement and faculties are advised to apply for research funding from university and other central government agencies.

### 3.2.2 Is there a provision in the institution to provide seed money to the faculty for research? If so, specify the amount disbursed and the percentage of the faculty that has availed the facility in the last four years?

Institute provides seed money to the faculty for their research when demanded. This provision is made by institute to promote research culture.

### 3.2.3 What are the financial provisions made available to support student research projects?

Institute encourages and provides financial support to students for their research by providing a fund for purchasing project equipment's and also provides financial assistance for presenting research papers at national and international conferences and project competitions when demanded. Financial support in the form of registration fees, fabrication facilities at college are provided to students to participate in various events such as BAJA Ecocart supra and Robocon competition.

### 3.2.4 How do the various departments/units/staff of the institute interact in undertaking interdisciplinary research? Cite examples of successful endeavors and challenges faced in organizing interdisciplinary research.

To cope up with requirements of ongoing projects, faculties of various departments interacts with each other. These interactions include guiding interdisciplinary projects, writing research proposals and conducting research projects.

### 3.2.5 How does the institution ensure optimal use of various equipment and research facilities of the institution by its staff and students?

Following measures ensure the optimum use of research resources by students and staff.

- Highly equipped department laboratories are made available to students under the guidance of relevant staff members.
- Online IEEE & Science direct Access.
- Central library works for extended hours.
- Class rooms and Laboratories are also utilized for technical and non-technical courses such as GDPI sessions, QALR tests, certification courses like Android,.Net etc.
- Laboratories are also used to conduct IITFOSS spoken tutorial test, EDx courses, NPTEL courses and for various FDPs and STTPs.

### 3.2.6 Has the institution received money from funding agencies? If 'yes' give details.

Institute has received funds from SPPU, Pune for workshop conduction details of which is shown in table 3.2.6.

**Table 3.2.6 Summary of the funds received during recent past.**

### 3. Research Facilities

#### 3.3.1 What are the research facilities available to the students and research scholars within the campus?

- Institute has Computer Center, Project labs for students.
- All computer labs has high speed internet and available to students and faculties.
- Institute has central library which works for extended hours & also has digital library.
- Institute has a subscription of IEEE, ProQuest & Science Direct journals.
- Every department has signed various MoU's with the industries so as to share the technical facilities for completion of the research projects. In addition, Computer engineering department has developed GPU Education Center for the students to develop research projects
- Softwares required for students are made available in the laboratories.

### 3.3.2 What are the institutional strategies for planning, upgrading and creating infrastructural facilities to meet the needs of researchers especially in the new and emerging areas of research?

Required infrastructure facilities are available with continuous technological upgradation. Students and faculties are utilizing the same to upgrade with emerging trends. Faculties are encouraged to keep themselves updated on current trends and technology through various workshops, conferences and various courses on research methodology.

### 3.3.3 Has the institution received any special grants or finances from the industry or other beneficiary agency for developing research facilities? If 'yes,' what are the instruments/ Facilities created during the last four years.

Yes, the institute has received a special grant in the form of equipment from industry. Table 3.3.9 shows the details of the special grants received for procurement of new facility for research.

**Table 3.3.3 Details of the special grants received for procurement of new facility**

Sr. No.	Department	Facility Procured	Funding Agency	Amount (Rs)
1	Computer Engineering	Educational Equipment (Projector, Printer & PA System)	Savitribai Phule Pune University	1,00,000/-
2	Computer Engineering	Award of GPU Education Center with donation of NVIDIA 3 GPU Processors	NVIDIA Singapore PTE. Ltd.	Cost of Donated GPU Processors (2598.81 \$) (1 USD = 66.2439 INR) Rs.172155/-
3	First Year	Educational Equipment (LCD) under QIP	Savitribai Phule Pune University	Rs. 92,800/-

### 3.3.4. What are the research facilities made available to the students and research scholars outside the campus / other research laboratories?

- Students are encouraged to do sponsorship projects through which they can avail the facilities from industries
- Institute arranges industrial visits for the students which broaden the mental outlook of students with exposure to different workforces from different industries.
- Industry visits bridge the gap between theoretical training and practical learning in a real-life environment. It also makes students aware about the recent happening/research in industry. Table 3.3.4 shows the details of the industrial Visits arranged for the students.

### 3.3.5 Provide details on the library/ information resource center or any other facilities available specifically for the researchers?

- Institute has central library which works for extended hours & also has digital library.
- Institute has a subscription of IEEE, ProQuest & Science Direct journals.
- Access to NPTEL, EDX, IITFOSS vedios & e-books
- Reference books and thesis on various research topics and projects are available.

### 3.3.6 What are the collaborative research facilities developed/ created by the research institutes in the college. For ex. Laboratories, library, instruments, computers, new technology etc.

- Computer engineering department has developed GPU Education Center in collaboration with NVIDIA Singapore PTE. Ltd. NVIDIA 3 GPU Processors are available for students and staff for their research work.
- Necessary software's, dedicated lease line to perform research experiments and computers with latest versions are made available in Computer laboratories of all departments.

### 3.5 Consultancy

#### 3.5.1 Give details of the systems and strategies for establishing institute- industry interface?

##### Strategies

Following strategies are adopted by the institute to establish institute-industry interface

- Every department arranges invited talks by eminent resource persons from industry.
- Professional society activities involve active interaction with industry experts.
- Alumni meet provides a platform to share the current happenings in the industry.
- Annual project exhibition and competition provide interaction with industry experts.
- Industrial visits are held to give the students direct exposure to industry environment.
- VAPs & STPs are designed in collaboration with industry.

##### Systems

Following systemic components function to enhance institute-industry interface:

- Industry Institute Interaction Cell (IIIC)
- Training & Placement Cell
- Entrepreneurship Development Cell
- Professional Clubs and chapters

### 3.5.2 What is the stated policy of the institution to promote consultancy? How is the available expertise advocated and publicized?

The institute has stated policies to promote consultancy

- The institute has started Industry Institute Interaction Cell through which faculty expertise and laboratory resources are made available to industry for the benefit of society and industry.
- Students, faculty & staff are encouraged to attend various development programs and their knowledge will be used for consultancy.

### 3.5.3 How does the institution encourage the staff to utilize their expertise and available facilities for consultancy services?

- Institute research committee and HODs have mechanism to identify the expertise of the staff.
- As per need, Institute deutes the staff for skill development programs. Institute organizes the programs on product development, design and research methodology which encourage the staff for consultancy.
- Institute helps in terms of finance to staff for attending research related activities like workshop, FDP etc.
- Institute deutes the staff for industrial training where they can find the potential for consultancy.
- Institute provides infrastructure to promote healthy research environment.

### 3.5.4 List the broad areas and major consultancy services provided by the institution and the revenue generated during the last four years.

## 3.7 Collaboration

### 3.7.1. Details of the institution collaborate and interact with research laboratories, institutes and industry for research activities. Cite examples and benefits accrued of the initiatives – Collaborative research, staff exchange, sharing facilities and equipment, research scholarships, etc.

Details of the institutional collaboration include:

- Computer engineering department has procured Award of GPU Education Center with donation of NVIDIA 3 GPU Processors by NVIDIA Singapore PTE. Ltd. Cost of Donated GPU Processors (Rs 1, 72,155/-). Students and Staff can take advantage of this facility for their research work.
- Institute has collaborated with 18 industries for research work.
- Dr. Sheetal Ghorpade of first Year department has received travel grant from Department of Science and Technology and Government of India & Center for international cooperation in science (NBHM/DAE) for research work.
- Ms. Vina Lomte of Computer Engineering department has interacted with Center of excellence, SGGS IET, Nanded, for her research Project.
- Institute has collaborated with ECTA organization in Kigali, Central South of Africa; Rwanda. Under this collaboration institute can perform staff exchange.

#### Benefits

- The institute has benefited in technological revolution
- It helps in strengthened academics environment along with research.

- The institute has established excellent rapport with several industries and institutions which will be helpful for student placements.

### 3.7.2 Details of the MoUs/collaborative arrangements (if any) with institutions of national importance/other universities/industries/ Corporate (Corporate entities) etc. and how they have contributed to the development of the institution.

The details of the MOU's sanctions and their contribution is as shown in table 3.7.2

**Table 3.7.2 MOU's sanctioned and their contribution**

### 3.7.3 Details of the industry-institution-community interactions that have contributed to the establishment/creation/up-gradation of academic facilities, student and staff support, infrastructure facilities of the institution viz. laboratories/library/new technology / placement services, etc.

The institute has been in continuously interacting with industry through

- Value addition Programs.
- Industry Sponsored Projects.
- Placement assistance by the training agencies (Zensar & Persistent CoE)
- GPU Education Center.

### 3.7.4 Details of the names of eminent scientists/participants, who contributed to the events, provide details of national and international conferences organized by the Institute during the last four years.

Following table highlights the names of the eminent scientists who contributed to the various events.

**Table 3.7.4 List of eminent scientists/participants contributed to the events**

Sr. No.	Name of the Eminent Person	Designation	Event Name
1.	Dr. Virendrakumar Verma	Former Joint Director, Armament R&D Establishment, DRDO, Pune	Areas of reasearch in defence.
2.	Ms. Divya Padmanabhan	Associate Prof. & HOD Automobile Engg., Pillai college of Engineering, New Panvel, Navi Mumbai	Research areas in materials and their processing
3.	Dr. Virendrakumar Verma	Former Joint Director, Armament R&D Establishment, DRDO, Pune	Areas of reasearch in defence.
4.	Mr. Rajendra Shende	Former Director at United Nations Environment Programme	General Awareness on Global Warming
5.	Dr. Aditya Abhyankar	Dean, Faculty of Technology Professor, Department of Technology	Graduation Ceremony 2015 , SPPU Sponsored workshop on Mathematical Modelling, ME-IT syllabus revision

6.	Dr. Parag Kulkarni	Founder, Chief Scientist and CEO of the EKLaT Research and iknowlation Research Labs Pvt. Ltd.	FE Induction
7.	Dr. Manesh Kokare	Research Dean, SGGSEI & T, Nanded	SPPU sponsored National Level Seminar on “Qualitative Research Methodology with Standard Mathematical Modeling & Its Real Time Applicability “, State Level Workshop on Signal processing

**3.7.5 Details of the linkages/collaborations have actually resulted in formal MoUs and agreements. List out the activities and beneficiaries and cite examples (if any) of the established linkages that enhanced and/or facilitated.**

Refer Table 3.7.2 for details of the linkages/collaborations which have converted into formal MOUs.

**3.7.6 Detail on the systemic efforts of the institution in planning, establishing and implementing the initiatives of the linkages/collaborations. Any other relevant information regarding Research, Consultancy and Extension, which the Institute would like to include.**

The institute formally implements research and consultancy activity among faculty and students by encouraging them through following different platforms

1. Research and Development Cell
2. Entrepreneurship Development Cell
3. Industry Institute Interaction Cell.

## **CRITERIA IV: INFRASTRUCTURE AND LEARNING RESOURCES**

### **4.1 Physical Facilities**

The institute adheres to the norms of AICTE for providing infrastructural facilities. The institute is having well-equipped laboratories, classrooms, seminar halls, library and facility for sports cultural activities and canteen.

#### **4.1.1 What is the policy of the institution for creation and enhancement of infrastructure that facilitate effective teaching and learning?**

The institute adheres to the infrastructural norms provided by AICTE and university to facilitate effective teaching and learning. The infrastructural changes are influenced by curriculum changes of SPPU, Pune.

#### **Policy for creation of infrastructure:**

- Use of ICT(Information and Communication Technology) in academic and administrative activities
- Provide classrooms equipped with ICT facilities
- Provide well equipped laboratories
- e-library facility
- Creation of sports facility as per the needs of the sports programs

#### **Policy for enhancement of infrastructure:**

- Regular housekeeping and maintenance
- Periodic updating of required software and hardware
- Regular updating of library
- Enhancement of e-learning portals e.g. ERP, e-Exam portal

#### **4.1.2 Detail the facilities available for**

**a) Curricular and co-curricular activities in terms of classrooms, technology-enabled learning spaces, seminar halls, tutorial spaces, laboratories, botanical garden, Animal house, specialized facilities and equipment for teaching, learning and research, etc.**

The institution has sufficient infrastructure to implement curricular and co-curricular activities for all UG and PG programs. Details are provided in the following tables.

#### **1) Common Instructional Area in Square Meters**

Information of Common Instructional Area in Square Meters is given in Table 4.1.2 (a).

**Table 4.1.2 (a): Common Instructional Area**

<b>Particulars</b>	<b>Required Area in sq. m.</b>	<b>Available Area in sq. m.</b>
Computer Centre	150	225
Drawing Hall/s	132	180
Common Workshop	200	594

**b) Extra-curricular activities in terms of sports, outdoor and indoor games, gymnasium, auditorium, NSS, NCC, cultural activities, Public speaking, communication skills development, yoga, health, and hygiene, etc.**

- College buildings are being maintained ensuring maximum levels of safety and hygiene. Separate housekeeping cell functions exclusively to take care of hygiene in the campus.
- Every year various activities like blood donation camp, Swachh Bharat abhiyan and road safety, tree plantation are organized.

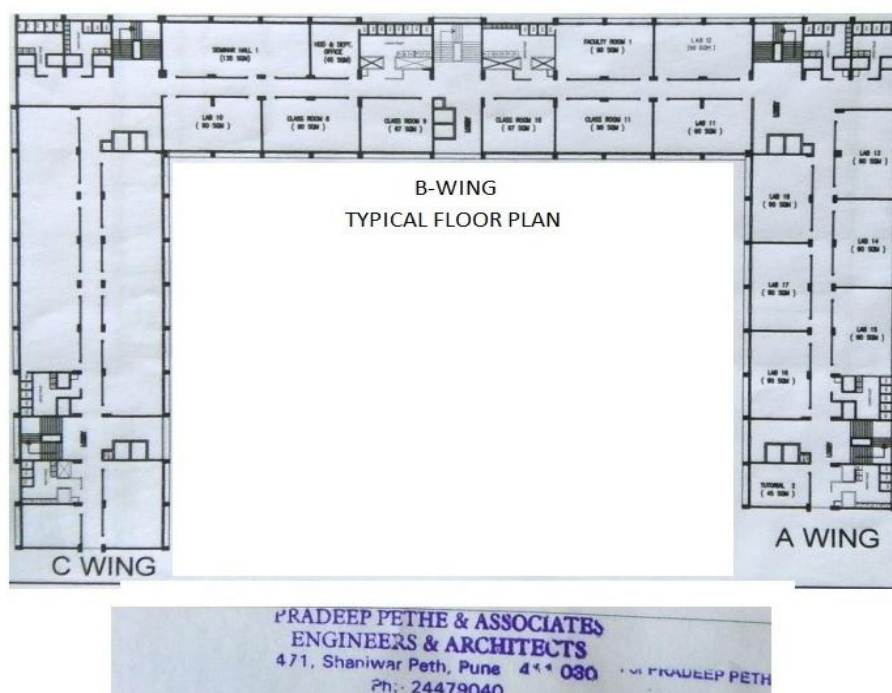

**4.1.3 How does the institution plan and ensure that the available infrastructure is in line with its academic growth and is optimally utilized? Give specific examples of the facilities developed/augmented and the amount spent during the last four years (Enclose the Master Plan of the Institution/ campus and indicate the existing physical infrastructure and the future planned expansions if any).**

The holistic plan of the infrastructure was prepared at the beginning of the institute in the year 2011. The construction was planned in phases to meet AICTE norms at any point in time. The academic programmes underwent expansion as envisioned in the beginning. The infrastructure was expanded as per the expansion plans. Optimal utilization is ensured through periodic reviews and alterations which are felt necessary.

The major activity in infrastructure development has been completed by the year 2013 for the planned intake.

The institute is situated in an area of **10.34 acres**. The total built-up area of all the buildings is **23000 sq.m.** consisting of classrooms, seminar hall, drawing halls, laboratories, workshop, central library, faculty rooms, administrative offices, etc.

**Figure 4.1.3 Typical Floor Plan of the Institute**

The investments in last four years in enhancing various infrastructure facilities are shown in table 4.1.3.

**Table 4.1.3 Budget utilization (in lakhs)**

#### **4.1.4 How does the institution ensure that the infrastructure facilities meet the requirements of students with physical disabilities?**

The institute ensures availability of infrastructural facilities for students to meet the requirement of physically disabled in following ways:

- Wheel chairs are made available in the institute in case of emergency.
- Examinations for such students are conducted on ground floor
- Institute has provided ramp and other facilities for the easy access to physically disabled students.

#### **4.1.5 Give details on the residential facility and various provisions available within them:**

Limited accommodation is given to some faculty members at Vadgaon campus.

#### **4.1.6 What are the provisions made available to students and staff in terms of health care on the campus and off the campus?**

- The institute also provides transportation facility to students who are in need to visit specialist doctors in the nearby area or in Pune.
- In addition to this, a multi-specialty hospital of the promoting society at Narhe, Pune caters to all the health-related support free of cost to all students and staff.

#### **4.1.7 Give details of the Common Facilities available on the campus –spaces for special units like IQAC, Grievance Redressal unit, Women’s Cell, Counseling and Career Guidance, Placement Unit, Health Centre, Canteen, recreational spaces for staff and students, safe drinking water facility, auditorium, etc.**

List of Common facilities available on the campus is as follows

**Table 4.1.7 Common facilities available on the campus**

Sr. No.	Facility
1	Grievance Redressal unit
2	Women's Grievance Cell
3	Safe drinking water facility

## 4.2 Library as a Learning Resource

### 4.2.1 Does the library have an Advisory Committee? Specify the composition of such a committee. What significant initiatives have been implemented by the committee to render the library, student/user-friendly?

Yes, the library has an advisory committee known as Library Committee. The committee comprises of following members:

**Table 4.2.1 Library advisory committee**

Sr.No	Name of Member	Designation	Department
1	Dr. Charudatta Bangal	Chairman	Principal/Director
2	Mr. Praful Bhoyar	Coordinator	Librarian
3	Mrs. Amina Rathod	Member	MBA
4	Mr. Mahesh Thorat	Member	Mechanical Engg.
5	Mr. Manesh Khandare	Member	Civil Engg.
6	Ms. Mrunalinee Patole	Member	Computer Engg.
7	Mr. Dewanand Meshram	Member	Information Tech
8	Mr. Ashish Kadlag	Member	E&TC Engg.
9	Mr. Nitin Dhoot	Member	First Year Engg.

**Meeting Frequency:** Quarterly

**Significant Initiatives:**

- Procurement of commercial library software.
- Issuing the library cards with barcode to the students and staff for the issue of books.
- Digital library.
- 12 hours available reading hall facility.
- E-Resource collection.

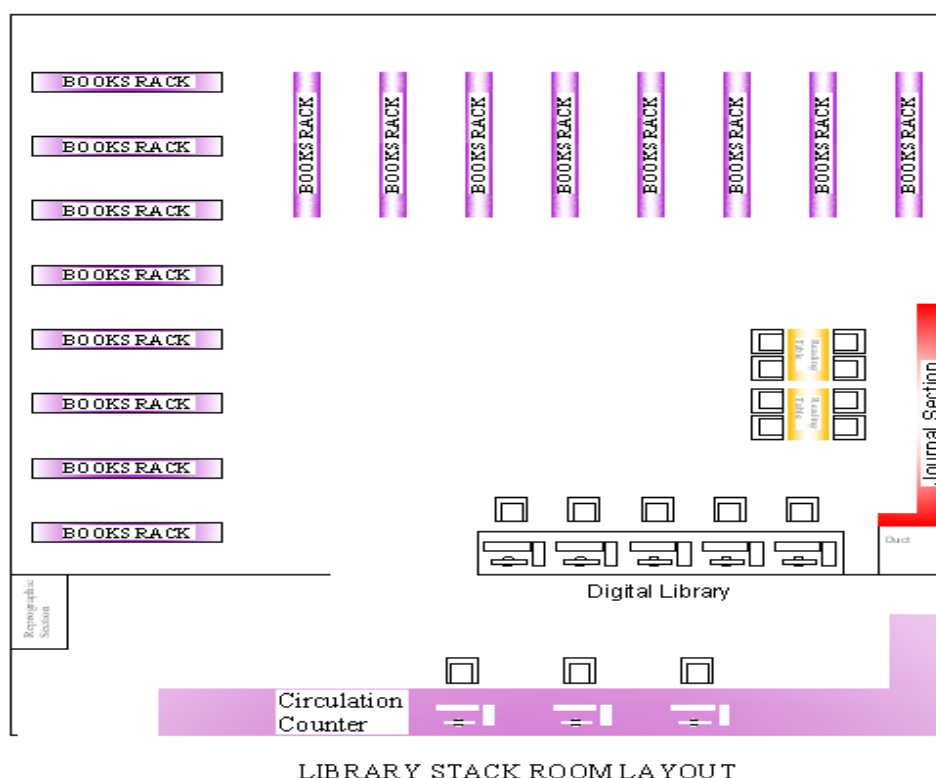

### 4.2.2 Provide details of the total area of the library, seating capacity and working hours:

- Total area of the library and total seating capacity

**Table 4.2.2 Library area**

**Layout of the library (individual reading carrels, lounge area for browsing and relaxed reading, IT zone for accessing e-sources)**

**4.2.3 How does the library ensure purchase and use of current titles, print and e-journals and other reading materials? Specify the amount spent on procuring new books, journals, and e-resources during the last four years.**

On the basis of changes in curriculum, research requirements, recommendations from staff and on students’ demand the librarian raises the requirement of book titles, journals, codes, and standards, etc. and proposes a budgetary requirement for the procurement. Library committee takes a decision on the provision of allocation of the requirement. Actual procurement is carried out after the allocation of the budget. Procurement details of past 4 years are as under.

**Table 4.2.3 Procurement & progressive details of past 4 years**

#### **4.2.4 Provide details on the ICT and other tools deployed to provide maximum access to the library collection? OPAC (Online Public Access Catalogue)**

**1. OPAC (Online Public Access Catalogue) :** OPAC facility is made available through AutoLib- Library Management Software to know the bibliographical details about the collection. Separate terminals are made available in the central library for OPAC facility. And as it is a Web OPAC, a user from any location can search the library collection.

**2. Electronic Resource Management package for e-journals:** The library subscribes to IEEE all-society periodicals package, Science Direct and ProQuest Databases. In addition to that, link to scholarly open access journals/databases is also available on the library web page. A well-equipped digital library with 05 terminals having internet connectivity is housed in the central library for access to e-publications. As the access facility to e-journals is multi-user, and IP address-based, students can access the e-publications from anywhere in the campus.

#### **3. Library Automation:**

All the active book collection is updated in the AutoLIB database, and the Web OPAC is available for the users. The issue and return of books have been activated with the AutoLIB.

#### **Facilities available**

**No of printers for public access: 01**

**Internet bandwidth: 30Mbps**

**Institutional Repository:**

- a) Article Repository: Published research paper/article of the faculty members: Yes  
 b) Book Repository: Published books of the faculty members: Yes  
 c) Thesis Repository: Awarded Ph.D. Thesis of Faculty: Yes

**Content management system for e-learning :**

Library is having content management system for e-learning : Yes

**4.2.5 Provide details on the following items:**

Students are allowed to keep the issued books for 7 days; 2 books are issued to the UG students, 4 books for PG Students. After 7 days they have to reissue the books. Faculty members can issue 10 books which need to be reissued after 3 months.

Details of Weedings out of books and other materials	NIL

**4.2.6 Give details of the specialized services provided by the library.**

**Reference:** The reference section of the library offers a personalized service. The library staff interacts with the students and faculty to know about their specific needs and requirements regarding referring to civil services exams and other competitive and entrance exams like GATE, TOEFL, GRE, CAT, TANCET, etc. and journal papers, standards, and codes. Upon an email request, the library provides required reference material.

**Reprography:** Available

**Information deployment and notification:** Information regarding the arrival of new books, journals, etc. is displayed on the notice board for the benefit of faculty and students.

**Download:** Yes (Exclusive 2 Mbps internet bandwidth)

**Printing:** Yes (01 dedicated printer)

**Assistance in searching databases:** Yes

#### **4.2.7 Enumerate on the support provided by the Library staff to the students and teachers of the institute.**

The library staff members extend their services to the students and teachers in following ways.

- Personal guidance is offered in locating books pertaining to domain studies and about updating one's knowledge. The members spend more time with the students to refer to prescribed paper books or any other reference material needed for paper presentation, project submission, etc.
- Full support is provided to the students during the digital library hours.
- Reprographic facility extended to the students on request.
- Keeping the books, journals / periodicals / magazines, and other resources ready for immediate use of students by meticulously monitoring the status of issuing and returning books.
- Assistance in downloading e-content.
- The library provides indexes to project reports / PG dissertations of the students and staff.
- Continuous supervision to reduce the lead time when a student requires any help in the middle of study hour.

#### **4.2.8 What are the special facilities offered by the library to the visually/physically challenged persons? Give details.**

- Priority services are available.
- A special provision of issuing the books to helper/relative of such a person.

#### **4.2.9 Does the library get the feedback from its users? If yes, how is it analyzed and used for improving the library services? (What strategies are deployed by the library to collect feedback from users? How is the feedback analyzed and used for further improvement of the library services?)**

- Yes. Library collects regular feedback from the teaching staff members and students.
- The suggestion box is kept at the entrance of the library for getting valuable suggestions and feedback from students.
- Suggestions are reviewed and analyzed by library committee.
- Depending on the feedback, the reading room facility hours are extended before and during the examination period.
- Depending on the students / faculty demand, the addition of books in the book bank is done.
- Addition in the magazines, general knowledge books, newspapers, books for general reading, competitive examinations, etc. are also done on similar lines.

### 4.3. IT Infrastructure

#### 4.3.1. Give details on the computing facility available (hardware and software) at the institution.

#### 4.3.2 Detail of the computer and Internet facility made available to the faculty and students on the campus and off-campus?

- Dedicated servers for downloading several open source software and applications.
- Online access to ERP resources.
- Dedicated 30 Mbps leased line.
- Almost all computers in the campus are connected to the Internet.
- Administrative office, Principal, HoD and faculty cabins have the internet facility.
- The campus is Wi-Fi connected.

#### 4.3.3 What are the institutional plans and strategies for deploying and upgrading the IT infrastructure and associated facilities?

On regular basis, the institute reviews the IT infrastructure and accordingly it is upgraded. The institute has upgraded leave management system from manual to ICT based. In this other domains include performance appraisal, academic monitoring, etc. Institute has responded to the SPPU evaluation patterns by providing online platforms such as e-Exam portals and K-point software platform. Internet connectivity is available in classrooms. The Internet facility up-gradation for past 4 years is shown in table 4.3.3.

**Table 4.3.3 Year wise internet up-gradation**

Sr.No.	FinancialYear	Remarks

**4.3.5 How does the institution facilitate extensive use of ICT resources, including development and use of computer-aided teaching/learning materials by its staff and students?**

- Faculty members prepare their lectures with extensive coverage and supportive study material using the multimedia tools. This course material is available on ERP.
- Audio lectures have been provided on K-Point server for the students. NPTEL resources are also available in the departmental library.

- Online e-Exam portal provides MCQ tests practice for students.
- Online spoken tutorials on EDX website are freely accessible to students.
- Faculty and students access the online journal in the library.
- Use of latest software's used by Industry in their regular curriculum.

**4.3.6 Elaborate giving suitable examples on how the learning activities and technologies deployed (access to on-line teaching-learning resources, independent learning, ICT-enabled classrooms/learning space, etc.) by the institution place the student at the center of teaching-learning process and render the role of a facilitator for the teacher.**

Students' community is strongly involved in the use of ICT through smart phones and laptops. Thus, the technologically enabled learning resource is a need of an hour. The institute provides the necessary infrastructure to integrate ICT technologies to create learning resources. Students actively participate in following activities which have resulted in improvement in academic performances. The institute is precisely focused on student development in all the dimensions which are reflected in following activities.

**A. Curricular Activities:**

1. Teacher Guardian scheme
2. Preparatory online & written tests are conducted for each and every examination conducted by the university.
3. All the learning resources are available on ERP platform.
4. K-Point server & NPTEL provide accessibility to audio and video lectures.
5. E-Exam portal is used to conduct online mock MCQ tests.(myexamo.com)
6. Students are exposed to work on live industry projects.

**B. Co-Curricular Activities:**

1. Student Training Program (STP I to V)
2. Value Addition Programs.
3. Active Student Associations at each Department.
4. AMCAT tests.
5. QALR Test
6. GDPI For final year students.
7. Student clubs like Industry Institute Interaction Cell (IIIC) and Entrepreneurship Development Cell (EDC) is active in the campus.
8. Invited talks from Industry experts help bridge the industry-academics gaps.
9. ICT facilities are used by students in organizing technical festivals, Workshops, and Seminars.

**C. Extra-Curricular Activities:**

1. SINHGAD NEON KARANDAK is a mega cultural and sports event annual organized by STES and competitions are held under this banner in both cultural and sports.

**4.3.7 Does the Institution avail of the National Knowledge Network connectivity directly or through the affiliating university? If so, what are the services availed of?**

No.

**4. 4. Maintenance of Campus Facilities**

**4.4.1 How does the institution ensure optimal allocation and utilization of the available financial resources for maintenance and upkeep of the following facilities (substantiate your statements by providing details of budget allocated during last four years)?**

**Table 4.4.1 Budget utilization for maintenance**

Amount spent on	Amount in Rupees			
	2015-2016	2014-2015	2013-2014	2012-2013

Vehicle maintenance	21365	13143	233462	208272

**4.4.2 What are the institutional mechanisms for maintenance and upkeep of the infrastructure, facilities and equipment of the institute?**

- Every department maintains a stock register for the available equipment.
- Proper inspection and verification of stock take place at the end of every year.
- The civil and electrical work is monitored and maintained by the office superintendent.
- Periodic reporting on requirements of repairs and maintenance are submitted by the HODs to the administrative office. The requirements are collectively processed in every semester.
- Pest control of library books and records is done every year.
- Housekeeping services are regularly executed and monitored by OS.
- How and with what frequency does the institute take up calibration and other precision measurements of the equipment/ instruments? The calibration of instruments is carried as required.

**4.4.3 What are the major steps taken for location, upkeep and maintenance of sensitive equipment (Voltage fluctuations, a constant supply of water, etc.)?**

- The sanctioned load by MSEB to the institute is 500 kVA. In addition, the institute has operational transformers of 500 kVA and additional 250 kVA capacity as standby.
- The institute also has one diesel generator of backup capacity 5 kVA for office.
- UPS (42.5 kVA) for critical usage are adequately available.
- Water treatment plant of softening capacity 3 lac litres per day is available. Aquaguard water purifiers are attached to water coolers.

**4.4.5 Any other relevant information regarding Infrastructure and Learning Resources, which the institute would like to include.**

Adequate fire extinguishers are available at different places in the building.

## **CRITERION V: STUDENT SUPPORT AND PROGRESSION**

### **5.1 Student Mentoring and Support**

#### **5.1.1 Does the institution publish its updated prospectus/handbook annually? If 'yes', what is the information provided to students through these documents and how does the institution ensure its commitment and accountability?**

Yes. Every year institute publishes the prospectus, which is given to the students at the time of admission. Administration, Academics, and Student Welfare are the major heads covered in the prospectus.

#### **ADMINISTRATION**

- Institute mission
- Governing Council
- Institutional Highlights
- Anti-ragging policy
- Rules & regulations
- IT infrastructure
- Contact Information

#### **ACADEMICS**

- Departments
- Faculty and Staff information
- Publications
- Teaching-Learning Facilities

#### **STUDENT WELFARE**

- Teacher guardian scheme
- Student welfare Cell
- Internal Complaints Committee
- Training & Placement activities (List of recruiters)
- Sports facilities and cultural festival
- Alumni activities
- Social activities
- The detailed information is provided on the institute website  
<http://www.sinhgad.edu>

The information provided in the prospectus is true and verified by higher authorities. The institute is devoted to provide quality education and state of the art infrastructure. The admission process of the institute admissions is governed by DTE and Maharashtra government rules and regulations. To ensure smooth induction of newly joined students Anti ragging committee is constituted. TG scheme is implemented for students with the help of teachers involved in teaching them. Women's grievance cell and T&P cell are also established.

**5.1.2 Specify the type, number and amount of institutional scholarships/free ships given to the students during the last four years and whether the financial aid was available and disbursed on time?**

The institute allows students to pay their fees in installments, if they have some financial problems. The institute admits students under TFWS (Tuition Fee Waiver Scheme) which is the scheme of Government of Maharashtra, under J&K quota and Government of India norms.

#### 5.1.4 What are the specific support services/facilities available for Students?

The institute supports the students in their pursuit to become competent, cultured and praiseworthy citizens. For various types of students distinct support is provided as listed below.

##### a) Students from SC/ST/OBC and economically weaker sections

During admission process institute identifies the students belonging to SC/ST/OBC and the economically weaker sections. The detailed record of these students is maintained by the institute. These students are provided every possible help for the duration of their stay in the institute.

##### b) Students with physical disabilities

The institute ensures that the infrastructure facilities meet the requirement of the students with physical disabilities. For differently-able students, it is ensured that they don't have any physical obstruction while moving on the campus.

**c) Overseas students**

There are no overseas students at present.

**d) Students to participate in various national and international competitions**

The students are encouraged to participate in seminars, workshops, symposia, technical festivals and exhibitions at the state and national level. The promotional material of such events gets displayed on the notice boards of respective departments.

**e) Medical assistance to students - health center, health insurance, etc**

First aid boxes are available at all the important locations on the campus. Gynecologists are invited to address girl students on health and hygiene aspects. Regular medical checkup camps are conducted for students. Well equipped hospital is available in the organization. Free treatments are available to the students. Regular health checkups of students are done in the campus.

**f) Organizing coaching classes for competitive exams**

Individual departments together with T&P cell organizes coaching classes involving external agencies to help the students to appear for competitive exams. Online materials and solved question banks are provided to the students. The students are encouraged to make use of the library for competitive exams. Motivation and goal setting programs are arranged annually with the help of trainers.

**Table 5.1.4: Motivation and goal setting programs**

**g) Skill Development (Spoken English, Personality Development Program, Technical Certifications, etc.)**

- English newspapers and magazines are provided in the library to enhance vocabulary.
- Group discussion, technical presentation, seminars are conducted.
- Institute arranges different curricular and extra-curricular activities like debate and technical paper presentation.
- Value Addition Program (VAP) and personality development courses are conducted every year to bridge industry-academia gaps.

**h) Support for slow learners**

The institute takes into account basic education needs of one and all. If the students are lagging in their learning process, the institute organizes remedial classes in different subjects.

**i) Exposures of students to other institutions of higher learning/corporate business house etc**

Eminent speakers from well-known corporate industry, institutes and universities are arranged to provide exposure to industry and market trends. Intercollegiate and national level symposia, workshops and seminars organized in the institute give an opportunity and motivation to the students to improve their domain knowledge, interpersonal and leadership skills. Outcome of all these efforts is the well groomed students for the professional world.

**5.1.5 Describe the efforts made by the institution to facilitate entrepreneurial skills, among the students and the impact of the efforts.**

The institute has recently started Entrepreneurship Development Cell (EDC) which focuses on the following

- Leadership Skills and Marketing Skills
- Business Development Skills and Managerial Skills
- Communication Skills and Public Speaking
- Team Building Skills

**5.1.6 Enumerate the policies and strategies of the institution which promote participation of students in extracurricular and co-curricular activities such as sports, games, quiz competition, debates, and discussions, cultural activities, etc. Additional academic supports, flexibility in examinations, special dietary requirements, sports uniforms, and materials.**

The institute consistently encourages and supports the students for participating in co-curricular and extra-curricular activities. Provisions made for promotion of these activities are listed below.

**Sports Promotion**

- Playground
- Participation in competitive events.
- Recognition and rewards for achievers.
- Public appreciation of winners.
- Sports uniforms and material.

### Promotion to Cultural Activities

- The annual cultural festival, “Sinhgad Karandak” and “Neon”

The college gives special recognition for students showing remarkable performance in these extra-curricular activities. Every Year best outgoing student is awarded during annual appreciation function. The criteria for selecting best student include not only the academics but participation in other activities is also considered.

#### **5.1.7 Enumerate on the support and guidance provided to the students in preparing for the competitive exams, give details on the number of students appeared and qualified in various competitive exams such as UGC-CSIR, NET, UGC-NET, SLET GATE / CAT / GRE / TOEFL / GMAT / Central/ State services, Defense, Civil Services, etc.**

The Institute motivates its students for higher studies and for research work. Students are allowed to have access to library and reading hall till late in the evening so that they can prepare for competitive examinations. Students are helped by the teachers in matters of study materials and counseling for the right strategies. Students can appear in online examinations using internet facilities at our institution. Many students have appeared and qualified in various competitive exams

#### **5.1.8 What type of counseling services are made available to the students (academic, personal, career, psycho-social, etc.)**

Below listed counseling practices are implemented by the institute.

##### **a) Academic counseling**

The students, at the time of admission, are guided by the faculty members about academic practices in the institute and about the scope and nature of the various branches. The Progress of the student is monitored regularly by TG and class teacher, if any learning gaps are there then they are brought to the notice of the subject teacher and HoDs for corrective measures to improve the learning performance by the way of offering extra coaching and supervision. Performance/Attendance shortfall the student is intimated to the parents by phone call and SMS. The teacher sends letters and SMS to the parents, if there are performance shortfalls on the part of any student. The academic counseling builds the self-confidence of the learner.

##### **b) Personal counseling**

The anti-ragging committee assures to the students about ragging-free environment in the campus. The TGs provide moral support to zeal with the culture of the institute. The TGs are also good at closely monitoring the psychological problems of the students and address their issues with care and consideration. Updated record of each student is maintained in the department to analyze his/her growth.

##### **c) Career counseling-**

The placement officer and placement coordinator of each department elucidates in detail the career prospects and the required preparations to seek suitable job. To strengthen the domain knowledge and technical skills of the students, special training sessions are organized. To develop the skills like resume writing, group discussion etc student training program (STP) are conducted. Quantitative Aptitude Logical Reasoning (QALR) and **Aspiring Minds Computer Adaptive Test (AMCAT)** are

conducted. Mock interviews are also conducted to boost up the confidence of students.

#### **d) Sinhgad Overseas Cell**

We have a centralized cell which guides the students and does counseling to students to secure admissions after their GRE, TOEFL, IELTS results. No fees are charged for this.

#### **5.1.9 Does the institution have a structured mechanism for career guidance and placement of its students? If 'yes', detail on the services provided to help students identify job opportunities and prepare themselves for an interview and the percentage of students selected during campus interviews by different employers (list the employers and the programmes).**

The institute has a structured mechanism for career guidance and placement of the students. T & P activity is very dynamically driven under experienced, inventive TPO. To ensure the best performance of this cell, below mentioned efforts are continuously taken.

#### **a) Awareness about the job opportunities**

The institute maintains job profile of students on GEMS and manages their personal files also. The students are informed about the job vacancies offered by government and other agencies. The advertisement is put on the notice board available at the placement cell as well as on the notice board of every department. This information is also made available on the institute website. The students are informed about the last date and other important information regarding the vacancies. Please refer Table 5.1.9 for details of placement.

**Table 5.1.9: Placement Data of all departments**

<b>Academic Year</b>	<b>No of Students Placed</b>
<b>2017-18</b>	<b>29</b>
2016-17	188
2015-16	245
2014-15	243
2013-14	173
2012-13	84

#### **b) Discussion of exam module & preparation of the exam**

Lectures on career opportunities are organized by the placement cell and individual departments. A scrupulous discussion takes place on the exam module. The students are informed about the syllabus, the pattern, and key points of the exam. To analyze the student performance mock tests are conducted and after every test brainstorming session is organized to assess the strengths and weaknesses.

#### **c) GDs/Interviews**

To enable students to qualify in GD/PI of the companies, follow-up actions are taken on the basis of result analysis of the tests so as to improve the competency of the students. GD's are conducted at department level to increase the confidence of the students.

**5.1.10 Does the institution have a student grievance redressal cell? If yes, list (if any) the grievances reported and redressed during the last four years.**

Yes, the institute has a student grievance redressal cell. This cell is headed by the Principal, HoDs, and some faculty. Grievance redressal cell actively interacts with the students to help them to sort out their grievances. The students drop their grievances in the suggestion box or directly with the committee. In addition to this the committee interacts with the students and listens to their grievances during the feedback meetings. Measures are taken to address their grievances.

**Table 5.1.10: Record of grievances reported and addressed**

Sr. No.	Grievances reported	Actions taken
1	Mrs. Vina Lomte has filed a complaint against the student Deepali from Computer department.	Parents were called and both the students and parents were counseled.
2	A student from MBA Lakhan Mude had Beaten his Classmate Sumren Sheikh in a drunken state.	Lakhan Mude was called and given a warning.
3	Supriya Shukhla from E&TC department has filed a complaint Omkar Mohokar that he had sent an indecent message on wapp group.	During investigation both Supriya and Omkar were called and it was found that the Supriya was also involved in sending indecent messages on wapp group from a month before. ### 5.2.3 How does the institution facilitate student progression to a higher level of education and / or towards employment?

By observing leaning and skill of the students, the students are counseled and encouraged to choose either higher studies or seek employment.

#### Student progression towards employment:

To enhance the employability of students, the institute has started step by step STP right from the first year to final year. In addition, the students also get career training through T & P cell. Various employability tests are conducted through AMCAT program. Institute conducts on-campus placement drive for students. MoUs have been signed with various industries to increase liaison between academics and industries.

### 5.2.4 Enumerate the special support provided to students who are at risk of failure and drop out?

- Personalized guidance is being provided to students to reduce the risk of dropout.
- The failed students are encouraged to attend remedial classes.
- Assignments, repetitive test questions, and tutorial benefits are given to such students.
- Faculty provides model solutions of university question papers.
- Conduction of mock practical examinations.
- Online e-Exam portal is available for students for online examination practice.

## 5.3 Student Participation and Activities

### 5.3.1 List the range of sports, games, cultural and other extracurricular activities available to students. Provide details of participation and program calendar.

- The institute has a wide range of sports, games, cultural and extra-curricular activities like Sinhgad Karandak, Dandiya, TechTonic, Neon etc.
- The institute has always created a niche for itself in the field of sports.

- The institute provides world class sports facilities to students. It has one state of the art Cricket ground and athletics track is comprising two football, one hockey, two lawn tennis, two basketball and two volleyball courts.
- The institute participates in various Inter-University and University Level Tournaments.
- Various cultural and extracurricular activities like solo dance, group dance, solo singing, duet singing, street play, fashion show, Mr. and Ms. Sinhgad, fine arts programmes like Rangoli, recipe competition are held to bring out the aesthetic and creativity of the students. Trophies are awarded to the best performers in these events.

### 5.3.2 Furnish the details of major student achievements in co-curricular, extracurricular and cultural activities at different levels: University / State / Zonal / National / International, etc. for the previous four years.

Various teams of the institute participate in different extracurricular sports and cultural activities and bring in laurels to the institute.

**Table 5.3.2: Participation in extra curricular activities**

#### 5.3.7 How does the institution network and collaborate with the Alumni and former faculty of the institution.

Institute has applied for registering Alumni Association (will be getting the registration number shortly).

Alumni meetings are conducted in departments and in the institute yearly. Institute arranges lectures, seminars, workshops, and conferences by alumni or outside world expertise.

## CRITERION VI: GOVERNANCE, LEADERSHIP, AND MANAGEMENT

### 6.1 Institutional Vision and Leadership

**6.1.1 State the vision and mission of the Institution and enumerate on how the mission statement defines the institution's distinctive characteristics in terms of addressing the needs of the society, the students it seeks to serve, institution's traditions and value orientations, vision for the future, etc.?**

#### Vision

उत्तमपुरुषान् उत्तमाभियंतृन् निर्मातुं कटीबद्धाः वयम्।

We are committed to produce good human beings along with good Engineers.

#### Mission

Holistic development of students and teachers is what we believe in and work for. We strive to achieve this by imbibing a unique value system, transparent work culture, excellent academic and physical environment conducive to learning, creativity and technology transfer. Our mandate is to generate, preserve and share knowledge for developing a vibrant society.

### 6.1.2 What is the role of top management, Principal, and Faculty in design and implementation of its quality policy and plans?

The Sinhgad Technical Education Society, one of the renowned technical educational hubs in Pune, has gained its name in the field, by implementing their plans and policies effectively and efficiently through the participative type of the governance. The Top Management comprises of –

1. The Founder President/Secretary,
2. The Governing Body and
3. The Local management Committee.

**Table No: 6.1.2 Role of top Management**

### 6.1.3 What is the involvement of the leadership in ensuring following issues?

#### What is the involvement of the leadership in ensuring -

- The policy statements and action plans for fulfilment of the stated mission
- Formulation of action plans for all operations and incorporation of the same into the institutional strategic plan
- Interaction with stakeholders
- Proper support for policy and planning through need analysis, research inputs and consultations with the stakeholders
- Reinforcing the culture of excellence

The Sinhgad Technical Education Society has proven themselves as leader in the technical and higher education field since 1993. This institute, is been governed by this society, also have established certain milestones in the Engineering & Management education.

The Institute has ensured its leadership by –

#### I. The policy statements and action plans for fulfillment of the stated mission –

The management always believes in democracy and encourages participation of staff in the process of decision making in institutional functioning. In line with the objectives, the management makes budgetary provisions for providing the resources for learning and growth of the College. The institution admits students almost from all the sectors and background of the society. The mission is to holistically develop the excellent technical and behavioral skills in students and to produce highly competent technocrats. The management proactively supports all the activities that mould students into worthy citizens of the society. The

Governing Body ensures that the policy statements and action plans are fulfilled in accordance with stated mission of the institution by planning the training activity for every year.

#### II. Formulation of action plans for all operations and incorporation of the same into the institutional strategic plan –

The top management has prepared a 10 year perspective plan for both academic as well as financial growth of institute based on its vision, mission and objectives. The transparency and wide publicity of this plan are the major features of the

management. The action plans of the management are clearly communicated to all the employees through transparent procedures and delegation of authority to achieve positive results in improving performance of the institution. Prior planning is made by every department well before the commencement of the academic year and after careful scrutiny, the budget is allocated for improving infrastructure and development of the institute. Based on the objectives, the management advises staff to accomplish strategic plans through various activities. Success is ensured through strict adherence to action plans more over periodic review is done for mid course as well.

### **III. Interaction with stakeholders –**

The Institute is continuously engaged in taking efforts to maintain communications with its all stakeholders that results in bonding healthy relations. The major stake holder i.e student is considered as center of all the activities undertaken for their holistic development. The students are free to communicate with the management in both direct as well as indirect way. The on-line feedback system, teacher guardian scheme are some of the examples of these type of communications. The periodic meeting is organized by management with other stakeholders such as parents, alumni, and industry. The inputs and feedback about the functioning and various other aspects of the institute are collected through a number of channels. The feedback received from all stakeholders are reviewed, analyzed and remedial actions are initiated.

Interaction of the Principal with various stakeholders helps the institution in proper implementation of policies. The participatory role of the management encourages and sustains the involvement of the faculty, which is necessary for efficient and effective achievement of the excellence.

### **IV. Proper support for policy and planning through need Analysis, Research inputs and consultations with the stakeholders –**

The institution has adopted the strategy of periodical feedback system, parent-teachers meetings, HOD meeting, Departmental meeting, discussion with alumni and students for sustainable interaction with the stakeholders.

Feedback from industry representatives is taken in a formal manner at the end of every placement activity as well as on the performance of student interns and in sponsored projects. The inputs collected from various stakeholders are taken into cognizance by the management and through various interactive methods the management takes reviews and suggests the critical areas for development and improvement. For example the Student Training Programs (STP) are designed and executed effectively at institute level based on these interactions. As an outcome of it, an improvement in placement has been observed.

### **V. Reinforcing the culture of excellence –**

Efforts are being taken to maintain work culture in institute by enhancing the research activities at the center. Faculty members are always encouraged to upgrade their academic qualification as well as to undertake different projects sponsored by different government organizations such as ISRO, DST, AICTE, SPPU, etc. in order to motivate the research activities. Organizing and participating in seminars/workshops/conferences is the usual practice of this institute that helps to reinforce a culture of excellence. Various refresher and orientation programs are also regularly being organized.

The staff members are encouraged and motivated to actively work in various academic bodies. Appreciation for academic achievement of faculty in terms of the

excellent results, encourage the spirit of excellence in the endeavors of faculty. Such practices create an ambience that is most conducive for academic excellence.

#### **VI. Champion organizational change-**

The management is always in favor of instilling flexibility in adoption of the policies to cope up with international expectations. Changes in the existing rules and regulations are brought about after a thorough discussion in Local Management Council meetings, Governing body meetings and Academic Advisory Body, based on inputs from the ground level along with the needs. The changes suggested by the management are smoothly and successfully implemented. Institute follows a structured way for ensuring this transition by aligning the expectations of the stakeholders with proper communication, and employee's efforts for growth of institution. Thus, academic and administrative matters are brought in to notice of the management to meet the changes required by the organization.

By adapting above approach, the institute has set Short term and Long term goals as stated below –

#### **Long term goals:**

1. To transform the institute into a Center of excellence for innovation, academics and research.
2. To establish the institute as an international center of education and research through tie ups with renowned international universities and research centers.
3. To be a premier institute having strong tie ups with reputed industries for giving more exposure to the faculty members and students through various collaborative activities.
4. Setting up incubation center in each discipline.
5. To establish Technology Commercialization Cell.

#### **Short term goals:**

1. To ensure all round development of students by fostering their academic, co-curricular and extracurricular skills.
2. To give the best career opportunities to students by enhancing their Employability and Entrepreneurship qualities.
3. To cultivate a research culture by guiding and encouraging faculty, developing state-of-art research facilities and through collaboration, consultancy and research funding.
4. To have an impactful existence of institute within the academic & professional fraternity in the estate and country at large.
5. To impart quality education to students in order to prepare them to meet the global challenges.
6. To set up research centre recognized by the affiliating University, SPPU.

#### **6.1.4 What are the procedures adopted by the institution to monitor and evaluate policies and plans of the institution for effective implementation and improvement from time to time?**

The heads of various departments conduct weekly meetings with the staff to review the activities of the previous week and plan for the next week. The institute has TG scheme, where direct feedback is taken from the students about academic and non-academic activities are discussed in HOD meeting. The LMC, which has representatives from both teaching and non-teaching staff, meets twice in a year. In

order to have effective implementation of the policies and to monitor and evaluate the same, various committees have been formulated.

#### **AMC Committee:**

The various committees formed as per following levels –

1. STES Campus Level
2. Academic Monitoring Committee
3. Local Management Committee
4. Department Level

AMC consists of following members –

<b>Sr. No.</b>	<b>Name of the Member</b>	<b>Designation</b>
1	Dr. C. B. Bangal, Principal	Chairman
2	Prof. M.G. Bhat, Dean Engineering (STES)	Management Representative
3.	Prof. S. B. Pharkute	Management Representative
4.	Dr. M. V. Nagarhalli, HOD Mech	Member

The members of this committee monitor the instruction delivery on a regular basis so as to record the progress in theory classes and practical sessions. Student's attendance is monitored, and corrective actions are taken if required by informing the parents. Feedback is taken from the students with regards to conduction of lectures and practical sessions. This feedback is conveyed to faculty for necessary action so as to improve the teaching-learning process.

- **Examination Coordination Committee:**

Smooth conduction of exams is monitored by this committee. Planning and conduction of mid-semester and end semestertests/mock practical examinations are done by this committee.

- **Projects monitoring committee:**

Encouraging students to participate in project competitions and present the papers in National and International conferences. The committee motivates the students to get industry sponsored projects. MOUs with various industries and training institutes are undertaken by this committee.

- **R &D, Grants, and revenue generation committee:**

Principal, Dean and HODs periodically monitor and motivate the faculty to apply and receive grants from various funding organizations like BCUD and other funding agencies. The committee motivates the faculty and students for revenue generation from existing infrastructure and research facilities available in the institute. The committee promotes expert training programs by internal and external resources for the staff and students of the institute. It also monitors and motivates staff and students for the organization of conferences by the departments.

- **Training and Placement / Alumni / Entrepreneurship skills development committee:**

Well, planned STP is arranged for students from the first year to final year. T&P supports the students to get better employment. This committee arranges hands-on-training, industrial visits, and in-plant training. Guest lectures by professionals from industry and academics are arranged. Guidance to the students for higher education in national and international universities is the major activity of this cell.

- **Cultural and sports committee: (Extra curricular)**

Cultural committee celebrates Teacher's day, Engineer's Day, Science Day etc. and organizes the annual social gathering. The sports committee organizes games for the students.

### **6.1.5 Give details of the academic leadership provided to the faculty by the top management?**

In each department, various committees have been formed to oversee the efficient and smooth functioning of the institute. Faculty plays very important role for smooth conduction of academic functions apart from their regular role as a teacher. Following leadership roles have been identified where the faculty is appointed as a coordinator and allowed to work independently. They can make their decisions in the capacity of the leader of the activity or committee.

- **Lab in-charge**  
Faculty as lab in-charge looks after the development of the assigned lab.
- **Course co-ordinator**  
Faculty as a course coordinator acts as an in-charge for the assigned course and grooms junior teachers. The academic activities of the course are decided by this course coordinator.
- **Project coordinator, guides and review committee**  
Project is one of the major academic activities in Engineering, MCA and Management. Each department appoints various project coordinators depending on specializations. They play a vital role in all stages of project work which ranges from selection of projects, teaming and appointment of guides, review committee and final evaluation. Faculty plays an important role as a guide for the group of students and also acts as a member of review committee.
- **Examination Coordination Committee**  
To assess students' preparation for university examinations, various tests are conducted. The faculty is appointed as examination coordinator. A team of faculty will co-ordinate for smooth conduction of Examinations. The results are displayed with one week after the tests.
- **CEO and Dept exam coordinator**  
In addition to the internal exams, one faculty leads university examination as Chief Examination officer (CEO). He along with committee members comprising teaching and non-teaching staff is responsible for smooth conduction of university examination.

- **Teacher Guardian (TG)**  
Each faculty has been given a duty of TG. This scheme is already explained earlier.
- **Subject Chairman**  
Apart from institutional work faculty also, work for the university. They play an active role as subject chairman, paper setter, evaluator, etc. Apart from all academic activities faculty is also involved in various committees of seminars, conferences, and workshops, students training programs, etc.

#### 6.1.6 How does the institute groom leadership at various levels?

Leadership is groomed at various levels as per the central office guidelines and requirement of respective campus-specific needs.

- **Director/Principal and Dean**  
They are administrative heads of the institute. The Principal has the power to take decisions as per the requirement of mission and vision of the Institute.
- **Heads of Department (HoD)**  
The HODs are appointed on the basis of the performance & attitude of the Faculty in each Department. They are identified among the existing faculty by the top management on the basis of their reputation as a teacher and administrative capabilities. The Principal holds HOD meeting weekly in which planning, execution and various issues pertaining to the academics are discussed. HoDs are independent to take decisions at departmental level in line with the discussion held in HoD meeting.
- **Faculty level**  
Leadership at faculty level is groomed through various activities as discussed in 6.1.5. All faculty members are encouraged and motivated for the result oriented activities to be conducted for the benefit of the students.
- **Student level**  
Each activity has students' representatives. They are allowed to take their decisions to organize all technical and non-technical programs. They are also appreciated for their performance for the proper organization.

#### 6.1.7 How does the institute delegate authority and provide operational autonomy to the departments / units of the institution and work towards decentralized governance system?

As discussed in earlier part 6.1.6, the institute delegates authority and provides operational autonomy to the departments to work towards decentralized governance system. Academic responsibilities are fairly divided among all the faculty and these responsibilities are mentioned in the academic calendar of each department. Committees are formed for various curricular, co-curricular and extra-curricular activities to be conducted during the academic year. The departments are encouraged and given financial support to arrange various activities for the benefit of students and faculty. The Principal co-ordinates the day to day activities concerned with the administration of the institute.

**6.1.8: Does the institute promote a culture of participative management? If 'yes', indicate the levels of participative management.**

Yes, the institute is keen on the involvement of staff for improvement of effectiveness and efficiency of the institutional management processes. The institute has always been in favour of participative management.

All the founder members of the society were teachers themselves. They ensured in the constitution of the society that the institutions established by the society were all managed by the teachers and academicians themselves. As such, the teachers have always had an important say in the decision-making process within the institution.

The teaching and non-teaching staff are represented in the institute committees. The institute involves and allows the faculty members to participate voluntarily in the activities. There are various committees constituted to manage different institutional activities which require the participation of faculty.

**6.2 Strategy Development and Deployment****6.2.1 Does the Institution have a formally stated quality policy? How is it developed, driven, deployed and reviewed?****Development of quality policy**

The management of the institute has a formally stated quality policy and is committed to:

- Provide excellent infrastructure facilities
- Employ highly qualified and experienced faculty
- Encourage the faculty for improvement in qualifications.

**Promote Industry- Institute interaction.**

Create an environment for R & D activities, Consultation work and getting industry sponsored projects for students.

The top management has framed a special internal Academic Monitoring Committee (AMC) who develops and drives the quality policies. These policies have been framed in line with the vision and mission of the institute. These are fine Tuned and driven after discussions with the Principal, Dean, and Heads of the departments under the guidance of top management. The quality policy is published and disseminated to various stakeholders. The institute undertakes various activities to fulfil the quality policies.

**Review of quality policy**

AMC visits periodically to the institute to review and monitor quality issues. This committee checks the course file, lesson plan, made by the staffs and suggests the corrections if any. It also takes the online feedback of the students and communicates with Faculty & does counselling for improvements in weak area. Principal, Dean and HoD takes the review of the suggestions given by committee for the effective implementation.

**6.2.2: Does the Institute have a perspective plan for development? If so, give the aspects considered for inclusion in the plan.**

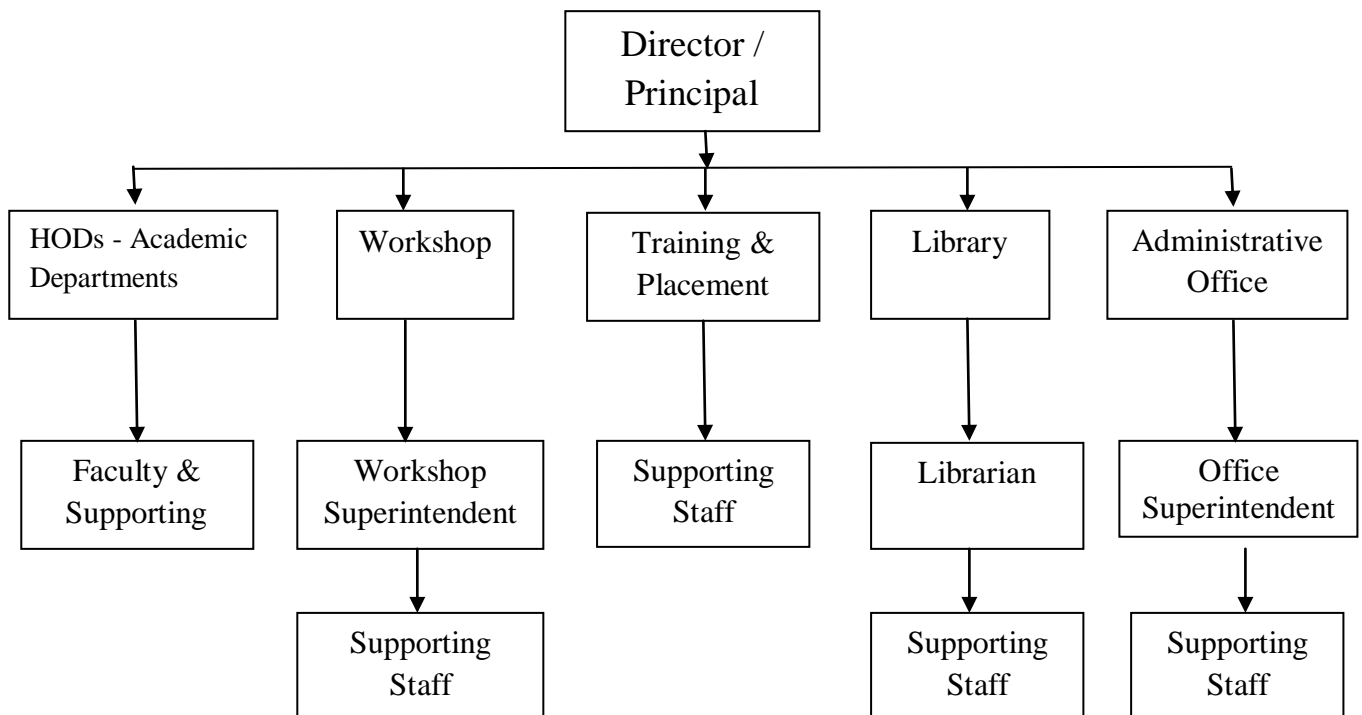

Yes, the institute has a perspective plan for development. The institution takes effort in finding the key performance indicators for performance assessment and development. It addresses the issues from the stake holder’s perspective and takes steps to fulfill their requirements. The institute has following perspective plans:

- Approval for Research Center by the affiliating University.
- Center of excellence in technology to serve for corporate social responsibility.
- Accreditation by National agencies.

**6.2.3: Describe the internal organizational structure and decision-making processes.**

Institute has an internal organizational structure as depicted below. As per the organizational structure, all members are responsible for the smooth conduction of academic programs. Governing body and LMC has the responsibility to take the decisions at central level regarding financial, academic and administrative policies. Office Superintendent is responsible for all office related administrative tasks. The Principal along with HODs of different departments are responsible for academic programs and administrative works. Training & Placement officer is responsible for training and placement of the students, and industry-institute interactions. Librarian is responsible for maintaining up-to-date library resources such as books, journals, internet facility, digital library, reading hall to be made available to all concerned at the appropriate time.

**Fig. 6.2.3: Internal organization structure**

### **6.2.4: Give a broad description of the quality improvement strategies of the institution for each of the following:**

#### **A. Teaching & Learning**

The institute ensures effectiveness of the teaching-learning process by:

- Implementation of outcome based teaching and students centred learning methodology
- Provision for web-based learning and through multi-media
- Recruitment of well qualified and experienced staff as per AICTE norms
- Course allocation to the faculty much before the commencement of the semester to help them prepare lesson plan and notes
- To bridge the curricular gaps contents beyond the syllabus is developed
- Emphasis on imparting skills through laboratory experiments and various skill development programmes
- Promoting professional development of faculty by providing support to undergo refresher courses and improve qualification.
- Review of the academic results of the previous year.
- Online feedbacks from students to assess the teaching skills of the faculty. If the feedback of any teacher is not up to the mark, then suggestions are given to the respective faculty. If feedback still continues to be unsatisfactory then as per AMC directions teaching load may be changed.
- Continuous assessment of students' performance through tests, assignments, seminars, and projects.

#### **B. Research & Development**

R & D cell is an integral part of the activities of the institute. This cell is one of the wings of the institute which facilitates, channelizes, records, and regulates all the academic/sponsored/ collaborative research projects and consultancy works in the institute. The institute is closely working with core industries to train the staff and students. The key goal of the cell is to provide a creative atmosphere in which higher studies and research flourish amongst the faculty and students. It also promotes and manages institute-industry interaction. The major role of this cell is in administrating research projects sponsored by various Government and non-Government, research funding agencies such as UGC, DST, AICTE, SPPU (BCUD), etc., and promotion of collaborative research partnerships for undertaking creative and advanced research.

#### **C. Community Engagement**

The institute actively participates in various CSR activities. Students participate in the road safety training, tree plantation drives etc. Apart from this, the institute organizes blood donation camp every year.

#### **D. Human resource management**

The institute has a well-defined and effective recruitment procedure, systematic performance appraisal system and promotion policies. The institute frequently arranges training programmes and also appoints the staff to other organizations for attending such programmes. The staff members are appreciated for their performance.

### **E. Industry - Institute interaction**

The institution has an IIIC, which promotes training and visits to reputed industries. Both UG and PG students are motivated to undertake their final year project in the relevant industries of their domain, thus exposing and preparing them to meet the requirements of the industry. The institute has signed MoUs with well-known industries to improve the interaction with industries; thereby providing better exposure to students and faculty members.

#### **6.2.5 How does the head of the institution ensure that adequate information (from feedback and personal contacts etc.) is available for the top management and the stakeholders, to review the activities of the institution?**

Student feedback is taken formally by the online feedback system and informally through interactions. The comments from the parents received during parents meet are communicated to the Principal through HoDs. Alumni suggestions and feedback is taken during alumni meet also used to review the activities of the institution. All such feedbacks received are communicated to top management through written and verbal communication.

Also, the AMC is a vital body under the constitution of the society. It meets periodically to take a review of the developments in all the institutions. During the board meetings, information is shared and the resolutions passed are subsequently sent to academic and finance councils and then finally to governing body. Thus, information regarding developments in all the institutions finally reaches to the top management. Once the top management approves the information, it is circulated among other stakeholders, if necessary. The Principal also imparts necessary information to the HoDs in the periodical meetings.

The website of the institute is very much interactive, and the facility for direct feedback from stakeholders is provided on the website. This feedback is available with top management which can be used to review the activities of the institute. In addition to that suggestion box and feedback register is made available by the department for the feedback. This data is made available to top management as and when required.

#### **6.2.6 How does the management encourage and support the involvement of the staff in improving the effectiveness and efficiency of the institutional processes?**

- The management & Director / Principal involve the staff by Participative decision-making.  
Principal involve HoDs and faculty members in decision-making process. Appropriate guidance is provided to the staff for all types of activities.
- Encouragement and receiving constructive suggestions-criticism  
The management always encourages faculty to involve themselves in ongoing institutional processes. Management maintains communication with the staff and is open to their suggestions.
- Involvement in activities and feedback  
Faculties are the members of various committees at the institute level. Through their involvement in the said activities, they are having freedom to make appropriate changes in the operations so as to make it more effective.

- Supporting through finance  
Adequate funds are made available to faculty for implementation of the new concept.
- Staff training  
Staff training is achieved through FDP and TAP. Thus, staff becomes a change agent to improve the operationalisation of institutional processes.
- Healthy competitions and appreciation  
Institute regularly appreciate best performing department and faculty, to provide motivation to improve the institutional practices.
- Incentives for extra-efforts  
Institute has well-defined norms for conducting training and consultancy, through which financial incentives are gained by faculty. Thus, it helps in improving and upgrading institutional facilities and culture.

**6.2.7: Enumerate the resolutions made by the Management Council in the last year and the status of implementation of such resolutions.**

Sr. No.	Resolution made by the Management	Status
1.	Provident Fund contribution to be increased from Rs.780/- to Rs. 1800/-	Implemented from 1st Sept 2014.
2.	Dearness Allowance (DA) to be increased from 113% to 119% to all teaching and nonteaching staff and payment of DA arrears	Implemented from 1st July 2015.

**6.2.8 Does the affiliating university make a provision for according the status of autonomy to an affiliated institution? If 'yes', what are the efforts made by the institution in obtaining autonomy?**

The management is broadly in favour of autonomy. Although SPPU provides, the institution has no immediate plans for obtaining autonomy.

**6.2.9 How does the Institution ensure that grievances / complaints are promptly attended to and resolved effectively? Is there a mechanism to analyze the nature of grievances for promoting better stakeholder relationship?**

The institute has following committees for hearing grievances/complaints from students, teaching, and non-teaching staff.

- Local Management Committee
- Anti-ragging Committee
- Women's Grievance Cell
- Student Grievance Redressal Cell
- Regular HOD meeting

Everybody in the institution is made aware of the existence of these committees. As and when the committee receives a complaint, they meet immediately, review and resolve the problems. They also ensure that necessary actions are taken. The complaint details are filed separately and confidentiality is maintained.

**6.2.10 During the last four years, had there been any instances of court cases filed by and against the institute? Provide details on the issues and decisions of the courts on these?**

In last four years, there is no court case against institute.

**6.2.11 Does the Institution have a mechanism for analyzing student feedback on institutional performance? If 'yes', what was the outcome and response of the institution to such an effort?**

Yes, in every semester the institute collects online feedback from students on teaching-learning process and facilities for the same. AMC evaluates the performance of subject teachers using the specified questionnaire. This is an online process and is conducted at the department level. A faculty and one supporting staff of the department are assigned this activity, and the HoDs monitor the process. HoDs go through the feedback and convey it to staff members. After discussion, decisions are taken for the improvement of institutional performance which results in improvement in performance of teachers and university results. It resulted in improvement of university results and staff improvement.

Also, suggestions and complaints are collected through suggestion box, formal surveys and informal interaction for the improvement and development of the academic standard as well as various types of facilities. Institute has well defined TG scheme, which is beneficial for improving institutional performance. Students provide their feedback on the working of the administrative office, facilities provided by the department, facilities provided by the institute and the working of the training and placement cell as well. This resulted in improving placement record.

### **6.3 Faculty Empowerment Strategies**

**6.3.1 What are the efforts made by the institution to enhance the professional development of its teaching and non-teaching staff?**

The institute is taking continuous efforts for the professional development of its teaching and non-teaching staff by:

- Promoting and motivating to go for higher education.
- Supporting for Ph.D. research – At present, many staff members are pursuing their PhD.
- Providing sabbatical leaves for going for Ph.D./PG research.
- Providing on-duty leaves to faculty and staff for attending workshops, seminars and national and international conferences.
- Staff training programmes for upgrading skills – FDP, TTT, TAP
- Providing well-equipped library.
- Motivating faculty to take membership of professional bodies
- Organizing English proficiency and communication skill training for selected staff as per need.

### **6.3.2 What are the strategies adopted by the institution for faculty empowerment through training, retraining and motivating the employees for the roles and responsibility they perform?**

Institute strives to motivate and empower the faculty to create sense of responsibility and awareness in the teaching-learning processes by:

- Sponsoring faculty to attend various programmes like National/International conferences, workshops, STTPs and FDPs carried out at different Institutes.
- Organizing various motivational programmes
- Conduct many health-awareness related programmes.
- Sponsoring faculty for higher education.
- Belonging-ness amongst faculty members by involving them in various committees.

### **6.3.3 Provide details on the performance appraisal system of the staff to evaluate and ensure that information on multiple activities is appropriately captured and considered for better appraisal.**

STIC has designed the online self-appraisal form for the teaching faculty. This form consists of many parameters out of which few are listed below:

- Teaching-learning process evaluation
- Research contribution in terms of projects, publications and guidance to students
- Contribution for the benefits of students and institute
- Contribution towards extra-curricular and co-curricular activities
- Specific duties / tasks assigned by HoDs
- Awards/rewards obtained by the faculty and staff
- Execution of exam duties assigned by the university
- Industrial liasoning and projects
- Community service and extension activities

### **6.3.4 What is the outcome of the review of the performance appraisal reports by the management and the major decisions taken? How are they communicated to the appropriate stakeholders?**

STIC has online appraisal system which is reviewed by the management at the end of every academic year. The parameters discussed above are reviewed, and specific suggestions are given depending on the data provided in the self-appraisal form. The most important outcome of this review is on deciding regularizing the staff, the regular increments and promotions of the staff. Also, the aim is to assess staff's strength and weaknesses identified through various information sources. Accordingly suggestions are given to concern staff for the further improvement.

### **6.3.5 What are the welfare schemes available for teaching and non-teaching staff? What percentage of staff have availed the benefit of such schemes in the last four years?**

Following staff welfare schemes are available for teaching and non-teaching staff:

- Group insurance scheme

- Accidental insurance
- Staff quarters
- Free medical treatment
- Registration fee for FDP programs
- Maternity leaves are provided as per the government and university rules (Six months with fullpay).
- Sabbatical leaves are granted to more than 10% staff for the higher studies
- Employee Provident Fund (EPF) with 100% gratuity for all staff

#### **6.3.6: What are the measures taken by the Institution for attracting and retaining eminent faculty?**

The institute has been taking efforts to attract and retain, eminent faculty in the institute in following ways:

- Special hill-station allowance is provided
- Timely promotions for the eligible candidates
- Providing facilities such as staff quarters and free medical benefits
- Encouragement and financial support for research activities.
- Transparent academic and administrative culture.

#### **6.4: Financial Management and Resource Mobilization**

##### **6.4.1: What is the institutional mechanism to monitor effective and efficient use of available financial resources?**

The institute has a well-defined procedure to monitor effective and efficient utilization of available resources for infrastructure, development and teaching learning process. The financial resolutions of the institute are monitored and recommended by campus committee members. Finally, there are trustees of the society who approve and may guide with regard to the financial transaction of the institute. In addition to this, the account of each financial year of the institute is audited by a chartered accountant. Thus, the utilization of financial resources is monitored at several levels.

##### **6.4.2 What are the institutional mechanisms for internal and external audit? When was the last audit done and what are the major audit objections? Provide the details on compliance.**

Institute implements two level audit mechanisms as follows

- 1) Internal audit
- 2) Statutory (External) audit

The last audit was done for the year 2015-16 & statutory audit was completed. There are no major audit objections in the audit report.

##### **6.4.3 What are the major sources of institutional receipts/funding and how is the deficit managed? Provide audited income and expenditure statement of academic and administrative activities of the previous four years and the reserve fund/corpus available with Institutions, if any.**

The major source of institutional receipts is from the fees of students. The deficit, if any is managed by taking advance from the central office of STES society. Audited

income and expenditure statements are available in office and summary of it is given in the following table 6.4.3.

**Table 6.4.3 Audited income and expenditure statement**

Details	2015-16	2014-15	2013-14	2012-13
Income (In Rs.)	279932878/-	531993140/-	204835882/-	184104028/-
Academic Expenses (In Rs.)	134836633/-	213809641/-	153957375/-	126094037/-
Administrative Expenses (In Rs.)	165164637/-	196058463/-	106463460/-	103014541/-

**6.4.4 Give details on the efforts made by the institution in securing additional funding and the utilization of the same (if any).**

Sr. No.	Name of the faculty	Funding agency	Year	Amount (In Rs.)	Project Name
1	Ms. Anima Rathod	BCUD	2012-14	100000	A critical analysis of Employee Engagement Initiatives in select Organised Retails sectors of Pune city
2	Mr. Amar Narkhede & Mr. Prashant B. Patil	BCUD	2016-18	110000	Role of Private equity firms in promoting entrepreneurship through MSME funding in Pune region.

100% grant is received from University and utilized as per SPPU norms.

**6.5 Internal Quality Assurance System (IQAS)**

**6.5.1 Internal Quality Assurance Cell (IQAC)**

- a) **Has the institution established an Internal Quality Assurance Cell (IQAC)? If 'yes', what is the institutional policy with regard to quality assurance and how has it contributed in institutionalizing the quality assurance processes?**

Institute has Academic Monitoring Committee (AMC) since its establishment. However the IQAC is being constituted which will look into the following points.

1. Mentoring the students.
2. Developing infrastructure.

3. Conducting internal assessment.
4. Preparation of academic plan and calendar.
5. Collection of feedback from students.
6. Execution and monitoring of academic plan and activities.

**Table 6.5.1 Academic Monitoring Committee (AMC)**

Sr. No.	Name of the Member	Designation
1	Dr. C. B. Bangal, Principal	Chairman
2	Prof. M.G. Bhat, Dean Engineering (STES)	Management Representative
3.	Prof. S. B. Pharkute	Management Representative
4.	Dr. M. V. Nagarhalli, HOD Mech	Director

**b. How many decisions of the IQAC have been approved by the management / authorities for implementation and how many of them were actually implemented?**

The IQAC is newly constituted, but AMC of the institute is working on the same line. Almost all decisions taken by the AMC are generally accepted by the institutional management. Following are the some of the important decisions taken by AMC during recent years.

Introduction of TG scheme –

- Addition of self-learning session and extra inputs scheme for weak students.
- Modernization of the classrooms with LCD and internet.
- Introduced online feedback system.
- Implementation of Wi-Fi facility in the campus.
- The introduction of ERP, GEMS, K-Points, Zoom, Pro-quest.

**c. Does the IQAC have external members on its committee? If so, mention any significant contribution made by them.**

No, IQAC is yet to be constituted.

**d. How do students and alumni contribute to the effective functioning of the IQAC?**

The AMC of the institute is working on the same line of IQAC. For the effective functioning of AMC, the students and alumni contribute as follows:

- Classroom feedback.
- Library feedback.
- Feedback about Teaching & Non-teaching staff.

In addition to this, regular feedback from students through the suggestions is received in the suggestion boxes. Alumni visit the institute during alumni meet and technical programs. At this time, feedback is collected from the alumni. The AMC receives the statistical report based on the feedback and uses the information appropriately.

**e. How does the IQAC communicate and engage staff from different constituents of the institution?**

AMC of the institute is working the same line. All the HoDs are the part of academic administration of institute. This ensures that all the faculty members of the institute are involved directly/indirectly in the effective functioning of AMC. Faculty and staff of the institute are communicated through the heads of respective units. AMC members also interact with all staff member during the academic year.

**6.5.2 Does the institution have an integrated framework for Quality assurance of the academic and administrative activities? If 'yes', give details on its operationalisation.**

Yes, the institution has framed AMC for the quality assurance of the academic and administrative activities. Meetings are regularly conducted for review of the same.

**6.5.3 Does the institution provide training to its staff for effective implementation of the Quality assurance procedures? If 'yes', give details enumerating its impact.**

The staff members are encouraged to attend training programmes/workshops to ensure quality enhancement. The institute has hired the services of professional trainers like 'Wren and Packers'. The staff is trained to institute level and department level training programs for effective implementation of the procedures.

The programs aim for:

1. Quality assurance training for Principals and HODs.
2. Quality assurance training for faculty members.
3. Upgrading the skills and knowledge of the supporting staff.
4. Awareness of quality assurance procedures and documentations.

**6.5.4 Does the institution undertake Academic Audit or another external review of the academic provisions? If 'yes', how are the outcomes used to improve the institutional activities?**

The academic progress of the institute is continually monitored by the AMC. The Principal communicates in this regards during the regular meetings. The HoDs review the various academic activities during the weekly departmental meetings and guide the staff members accordingly. Submission of self-appraisal reports and annual activity reports regularly is mandatory for each and every staff member of the institute.

The institute undertakes internal academic audit in following matters:

1. Verification of teaching plan and record of each faculty is carried out by AMC members periodically. This ensures audit of all aspects of teaching-learning process.
2. A separate audit about coverage of syllabus is conducted by every department every month.
3. Every department submits the report of academic activities to the AMC at the end of each semester.

Outcome:

1. In case of discrepancies, suggestions are given to the respective faculty for improvement.
2. If the rate of completion of syllabus per month is less, then, extra lectures are suggested to the respective faculty which are to be taken after college-hours.
3. Departmental library books, faculty members are updated as per the requirement.

**6.5.5: How is the internal quality assurance mechanism aligned with the requirements of the relevant external quality assurance agencies/regulatory authorities?**

- 1) AMC has ensured that internal quality policies will not conflict with external quality assurance agency policies.
- 2) Continuous assessment scheme is an internal mechanism to generate term work marks of a student. Term work marks are included in the examination results by the university.
- 3) AMC and the HoDs propose required infrastructure as per the AICTE norms. Infrastructure development is done accordingly.
- 4) The AMC receives the faculty requirement data from the department heads as per the university and AICTE norms. The faculty is recruited accordingly.
- 5) The librarian and faculty from each department and AMC initiate the purchase of library books and journal purchases according to the AICTE norms.
- 6) Infrastructure and faculty status in the institute is peer reviewed by the Local Inspection Committee (LIC) of the university. Suggestions of the LIC are utilized by the AMC.

**6.5.6 What institutional mechanisms are in place to continuously review the teaching-learning process? Give details of its structure, methodologies of operations and outcome?**

AMC takes a continuous review of teaching learning process in the institute. It mainly comprises of Principal, Dean, Heads of the department and departmental coordinators. Before commencement of the term, academic calendar is prepared, and all the coordinators ensure that the activities are conducted as per schedule. This committee monitors class wise, faculty wise and subject wise instruction delivery.

Following mechanisms are used to review continuously the teaching-learning process.

1. Audit of the teaching plans from AMC.
2. Mid-semester feedback about a teacher from the students.
3. Departmental audit about syllabus coverage every month.
4. Mentoring the students every fortnight.

Outcome:

1. The quality of academic processes in the institute has improved.
2. Individual faculty gets inputs to improve his/her performance and hence contribute to the teaching-learning quality.

3. Individual attention to students through mentoring contributes to improvement in students' performance.

**6.5.7 How does the institution communicate its quality assurance policies, mechanisms, and outcomes to the various internal and external stakeholders? Any other relevant information regarding Governance Leadership and Management, which the institute would like to include.**

Our institution communicates its quality assurance policies, mechanisms and outcomes through the Vision, Mission statement, parent meetings, alumni meets and discussions with employers and through the institute website.

The institution communicates its quality assurance policies, mechanisms and outcomes to the various internal and external stakeholders as follows:

1. Vision, Mission, Quality Assurance policies are displayed on the website of the institution.
2. Vision, Mission and Quality Assurance mechanisms are printed in the TG and attendance records.
3. Vision and Mission statements are displayed on boards at prominent places on campus.
4. Vision, Mission and quality assurance mechanisms are included in the information brochure.
5. Quality Assurance mechanisms and outcomes are informed to all during students induction program, students mentoring sessions, parents meetings, alumni meetings Principal's address at seminars/ conferences/interactive sessions with stakeholders, etc.

**Any other information the institute wishes to give?**

The institute is a pioneering and leading institute in the SPPU and in Maharashtra state. It has maintained a high reputation for quality of teaching learning processes. Currently, it has undertaken a venture named as 'KG to PG through PBL model to enhance the industry-institute interaction and employability.

## CRITERION VII: INNOVATION AND BEST PRACTICES

### 7.1 Environment Consciousness

#### 7.1.1 Does the College conduct the green audit of its campus?

Faculty, staff and students of RMD STIC do take initiative for creating environmental consciousness. Various steps have been taken to make the entire campus clean and green and to nurture the eco-friendly environment in the institute. Every care is taken to ensure that carbon emissions are kept to the lowest level. Plantations, lawns have been specially developed and are maintained most green. Environmental awareness amongst students is inculcated through various events like ‘Save earth save water’, ‘Swachhha Bharat Abhiyan’ and ‘better energy conservation practices’.

**Green Audit:** The institute has formed a Green Audit Team and has been carrying out the audit since 2014. Although this campus is located away from city pollution, the green audit serves two purposes, one to know the actual status of the campus and second to sensitize the people on the campus about the environment issues.

**Energy Audit:** In 2016, our institute conducted electrical energy audit. The auditor’s suggestion regarding reduction in electricity consumption was implemented in our campus. Henceforth, the institute has planned to conduct energy audits periodically.

#### 7.1.2 What are the initiatives taken by the college to make the campus eco-friendly?

##### 1) Energy Conservation:

- Our endeavor to minimize electrical energy consumption helps in overall energy preservation. Instructional notices are put up near the switchboards in all laboratories to increase awareness of energy conservation.
- Use of Tube lights with electronic chokes is promoted. The conventional magnetic ballast of tube lights has been replaced by electronic ballast, to reduce the electricity consumption. Changing over from tube lights/CFL to LEDs is also planned in future.
- Inverters of UPS system are switched off after office hours, thereby saving energy. All the computers have LCD monitors in the entire campus that are advantageous for energy conservation over CRT based monitors which consume more energy.

##### 2) Use of renewable energy:

Institute has installed a solar power system of 50 kVA capacity on the Campus and for next two years, 50kVA each solar power systems are to be installed in three phases.

##### 3) Water Harvesting:

The institute has implemented rainwater harvesting, which has saved significant amount of water expenses. This system recharges the institute bore well.

#### 4) Efforts for Carbon Neutrality:

Sufficient plantation on the campus has helped to increase green cover and keep the campus pollution free.

- Organic waste, generated from garden, is converted into compost using composting machine, instead of burning. Compost, so produced, is used as a fertilizer for the campus garden, thereby increasing re-utilization.
- Waste paper generated is sold to vendor for recycling. Paper usage is minimized by printing on both sides of papers. Inter department correspondence is made through e-mails.
- Paperless governance is carried out through GEMS online, the ERP platform. All types of leaves by faculty and staff are submitted through GEMS only, and use of paper is completely eliminated for that purpose.
- Car-pooling and public transport is used by some faculty and students of RMD STIC.
- Faculty and students are made aware of various measures to reduce carbon footprint through posters advocating the following: driving a fuel-efficient vehicle, printing only when necessary, switching off electrical appliances when not in use, reducing use of plastic etc.

#### 5) Waste management:

Daily garbage is collected by housekeeping personnel and handed over to Municipal garbage vehicle. All waste water lines from toilets; bathrooms etc. are connected to Municipal drainage mains. Waste material like plastic, papers, etc. are collected and sold out to scrap vendor from time to time.

#### 6) E-waste management:

The e-wastes are disposed of periodically through a professional e-scrap vendor.

#### 7) Hazardous Waste Management:

Liquid chemical wastes generated from chemistry laboratory and environmental laboratory are diluted/ neutralized and then discharged.

### 7.2. Innovations:

#### 7.2.1 Give details of innovations introduced during the last four years which have created a positive impact on the functioning of the institute.

##### 1) Innovative practices in academics:

###### A. Cyber Cell:

- To create awareness about Cyber crimes and cyber security amongst the faculties and the students. Cyber cell creates awareness on cyber pornography, online shopping frauds, email spoofing, spamming, bombing, credit card frauds, computer security issues, romance/dating scam, banking/credit card related

crimes, identity thefts, safety in banking and social networking site, safety tips for mobile phone users, cyber stalking etc.

- 4 workshops were conducted by the cell at various schools and colleges within Pune. These workshops received an overwhelming response from the participants.

### **B. Mentoring:**

Special efforts have been taken for guiding students in the mentoring sessions. Topics like goal setting, engineering careers, placement opportunities, study planning, career development, professional practices and personality development are discussed with students during mentoring sessions along with screening of motivational videos.

### **C. Other Innovative practices in academics:**

- Introduced 'Train the Trainer' program where new faculty are trained by senior faculty.
- Design and Implementation of Student Training Programs, Value Added programs for all the undergraduate students to enhance the employability skills
- Increased number of MoU's with industry for enhancing industry – institute interaction.
- Biometric attendance monitoring system for faculty and staff.
- Wi-Fi facility is available in the entire campus.
- Introduction of e-examination portal for students for online examination practice.
- Appointment of Chief Examination Officer for execution of various University examinations.
- Organization of national level annual cultural event 'Sinhgad Karandak' where students can get awareness about the diverse cultures in India and can enjoy the inclusiveness in diversity.
- Organization of national level technical event 'Tectonic' where students across the country can participate in various technical contests and enhance their technical skills.
- Project Based Learning (PBL) methodology has been adopted under which the students are assigned live projects and they learn the complete process of software/system development life cycle.
- K-point software developed for students to give video expert lectures of department faculty members.

## **2) Innovative practices in administration:**

### **A. Incorporation of ERP system (GEMS):**

ERP system called GEMS is used for automation of various processes. The staff can upload profile, manage courses taught, upload lesson plans, share study material with students. The ERP system improves the efficiency and productivity of teaching as well as administrative staff. It helps the faculty and office-staff to maintain and review academic status of students. The students use ERP to store their personal details, for course registration and to give faculty feedback. Library catalogues, quality policy,

quality manual, various academic and non-academic processes and forms are made available through GEMS.

**B. Google groups :**

- Faster, effective and paperless communication with staff is facilitated through Google groups. Official e-mail id is provided to the faculty, staff and students with domain name @*sinhgad.edu*
- Assignments, surveys, student information regarding seminars and project topics, electives etc. are shared/ updated through Google forms.

### 7.3 Best Practices

#### 7.3.1 Elaborate on any two best practices which have contributed to the achievement of the Institutional Objectives and/or contributed to the Quality improvement of the core activities of the institute.

##### A) Best Practice No.1: Integration ICT in Institutional Practices

**Goal:** For achieving effective learning by students.

**Context:** Current generation of students want learning systems to be more open, flexible, and customized to what they expect. Using ICT in education is an effective way to meet their expectations attributed to technological advances.

**Process:**

- Incorporation of ERP system (GEMS):

ERP system called GEMS is used for automation of various processes. The staff can upload profile, manage courses taught, upload lesson plans, share study material with students. The ERP system improves the efficiency and productivity of teaching as well as administrative staff. It helps the faculty and office-staff to maintain and review academic status of students. The students use ERP to store their personal details, for course registration and to give faculty feedback. Library catalogues, quality policy, quality manual, various academic and non-academic processes and forms are made available through GEMS.

- Modernization of the classrooms with LCD and internet.
- Availability of Digital Library and access to various libraries & e-resources
- Availability of Wi-Fi facility in the campus.
- The introduction of K-Points, Zoom, Pro-quest.

##### B) Best Practice No.2: Comprehensive Student Training Program (STP)

- a. **Goal:** Development of core engineering aptitude among students.
- b. **Context:** STP involves the provision of special training over a wide spectrum of attributes an engineer is supposed to possess. The whole training is subdivided into five phases in five semesters. Curricula for these STP phases

have been designed quite thoughtfully and are reviewed and revised suitably from time to time.

- c. **Process:** Progressive stages of STP constitute the following:

**STP I:** This module consists of following:

Module	Details of Activity	Suggestions / Activity
01	Personal and Career Goal Setting	Cross introduction, with the help of drawing- no words, numbers. Video-SMART goals
02	SWOT Analysis	Video, Carry out personal SWOT using colored cards-Green, Black, Yellow and red
03	Behavioral Skills	Attitude measurement test
04	Public Speaking	Show video and identify Do's and Don'ts
05	Presentation Skills	Body language and gestures to be taken care of
06	Resume Writing	Show bad 2/3 resume, actual resume writing
07	Listening Skills	BEC(Business English Communication) listening exercise with CD
08	Group Discussion	Identify topics
09	Report Writing	Topics
10	Letter / Application Writing	Show Sample bad emails and then provide Do's and don'ts

**STP II:** Covers following aspects

Module	Details of Activity	Suggestions / Activity
01	Listening Skills	1:Chinese Whispers 2:Audio Activity 3:Please Pay Attention 4:Story Telling 5:Audio Activity (Travelling Abroad) 6:Audio Activity (Going to the Cinema)
02	Reading Skills	1:Fluency Developer Activity 2:Summarizing Activity 3:Word Color Conflict 4:Punctuation Activity 5:Read and Summarize Activity 6:Comprehension Activity

03	Writing Skills	1:Job Ad Worksheet 2:Extempore 3:Guess the Movie Name 4:Group Verbal Presentation 5:Image Based Activity
04	Speaking Skills	1:Role Plays 2:Sentence Making 3:Essay Writing 4:Letter Writing 5:Report Writing 6:Resume Writing

**STP III covers the following:**

- Various sessions have been planned and implemented for various technical subjects like Object Oriented Paradigm, problems on Data Structures, Computer Organization/ Architecture and Operating System Administration, Data Structure and Algorithm, Object oriented Programming. Etc.
- ‘Aptitude Test Series’ has been conducted to assess the problem solving skills of students based on topics such as Arithmetic, Algebra, Set theory, Relations & Mappings, Permutations and Combinations Probability.
- Training on technical fundamentals has been provided to enhance the employability, and to prepare the students for entrepreneurship and to motivate them for higher education.

**STP IV in Semester VI**

**1. Research Component: in the form of writing of a review paper.**

- a) This activity, to be undertaken by the student individually, should be coupled with the seminar activity by the departments who have seminar as a component in their third-year semester II syllabus. If seminar component is absent in the syllabus in TE II, this activity should be undertaken independently.
- b) To educate the students, expert in-house & / external faculty with Ph.D. should deliver lectures on Research Methodology. 3 sessions of 2 hours each (1 session / week) are to be conducted by the said faculty. Specific attention is to be given to literature review, determination of gap, setting of aim and objectives, selection of appropriate methodology and technical writing. Delivery of the lecture is in line with the standard presentation, which will be provided by the steering committee.
- c) The guide assists the students with a reading of published article, review of all such published articles, determination of gaps in the area. The guide also assists the student with technical writing of the paper.
- d) Per guide, 4-8 students are allotted.
- e) At the end of the semester, the student has to submit the review paper. The paper should include following sections: introduction, background, literature review and

summary. The Literature review section is of minimum 3, open access, published articles from science direct.

- f) Based on the quality of the paper, the guide suggests whether to submit the paper to a conference / journal for publishing.

### **Internship component as a part of STP**

- a) A student can either search for an internship on own / seek help from the guide assigned for research component. In either case, the guide is kept in the loop as well as takes advice from the guide for internship component. After completion of the internship, internship report needs to be submitted by the student.
- b) For MBA students, internship programme is organized at the end of SEM –II during summer vacations after their SPPU final examination. The students get exposure to the industrial projects and this exercise will enhance their problem solving ability and make them ready for the industry to face new challenges of corporate life.
- c) Internship (Live Industry Projects) is provided to MCA students during the fifth semester of their course. The duration of Internship is around 6 months.
- d) We have also planned internship programme for B.E students to give them exposure at corporate level. This is to be implemented from 2016-17.

### **2. Guest lecturers to be organized under STP.**

- 2.1. Under the STP, every department should organize guest lectures.
- 2.2. These lectures should be scheduled in following semesters:
  - SE Sem I & SE Sem II
  - TE Sem I
  - BE Sem I
- 2.3. Per semester, per month, 1 lecture should be organized.

### **3. Pre-placement Training, under STP, to be conducted for BE students**

- 3.1. Training to be conducted for all BE students
- 3.2. Training to be of 10 hours, spread over 2 days, 5 hours/day
- 3.3. Training to be provided to a class of 60 students
- 3.4. Training to be hands on and would prepare students for GD, Personal Interview and also boost their confidence.
- 3.5. Training would be provided by expert trainers.

### **4. Placement to be improved**

- 4.1. Every institute has submitted, department wise, list of top three companies that visit for recruitment. Similarly, a list of top three dream companies have been received, department wise.

4.2. At institute level, discussions should be initiated with the top three companies that visit for recruitment. These companies should be invited to the campus for following possible banners:

- Guest lectures / seminars,
- Projects, and
- In-plant training of recruited students at Sinhgad Institutes.

4.3. Feedback should be taken from BE (Semester I) students at every institute to find out the dream companies for recruitment. Also, feedback should be taken from these students to improve the placement activity. At institute level, discussions should be initiated with the dream companies (listed by the department and the students). These companies should be invited to the campus under different banners and relations established so that in near future they start recruiting Sinhgad students. Possible banners are:

- Guest lectures / seminars,
- Projects, and
- Techfest.

**STP V: Semester VII** this phase covers

1. Interview Preparation
  - The practice of Group Discussion and Personal Interview.
  - Quantitative Aptitude and Logical Reasoning Tests.
  - The adaptive test developed by experts from MIT, Harvard, IITs and IIMs.
  - Most preferred job test in India.
2. Assessment Modules
  - Mandatory modules: English, Logic, Quantitative, Personality.
  - Optional modules: Attention to detail, Excel, Typing, Data Interpretation, Behavioral Assessment, GK, Computer Literacy, CP, Java, C++, Unix, SQL, Domain Specific.

Feedback provided on following aspects:

1. National comparison
2. Sub-modular grades
3. How to improve
4. Test time management
5. Study schedule
6. Job match analysis
7. Personality analysis.

**NOTE:**

1. Every STP stage except V has one AMCAT Test.
2. In STP III, 6 numbers of QA/LR tests are given by each student.

**Outcome:** Outcome of this huge exercise has been enormous. The performance of students has significantly improved in both employability skills as well as the entrepreneurship skills.

## Department of Mechanical Engineering Evaluative Report of the Department

### **33. Teaching methods adopted to improve student learning**

Department practices a blend of Activity based and Project based learning in addition to traditional lecture-based learning.

#### **To improve classroom learning, department has applied following practices**

- Faculty members are allotted subjects as per their choice and specialization
- Faculty are asked to prepare semester-long teaching plan and course file before the start of the semester.
- Each staff is asked to prepare soft copies of their notes and Powerpoint presentations for the course content. Same is shared with the students
- To simplify Teaching Learning process teaching aids are provided for conducting lectures.
- Models, videos, and animations are used by faculty members to elaborate concepts as per the complexity of the topic.
- Lab experiments and homework in the form of assignments are given to students.
- Lectures with self-learning session are allotted in the timetable.

#### **Project Based and Active Learning**

- Department has designed three courses based on the Project Based Learning (PBL) concept. In these courses, students are asked to work on the projects. Students informed that learning in PBL environment is better than traditional lectures. Also, it is useful for promoting professional and personal skills.
- Capstone projects are compulsory projects for the final year students.
- Project exhibition and various technical festivals provide an opportunity for active learning.
- Expert talks by Industry experts and Seminars are arranged to bridge the knowledge gap of the students.

### Assessment Method

- Various tests (Unit test and Prelim, Online, etc.) are used for assessment.
- Mock tests are conducted to evaluate the students' understanding of the subject.
- Industry experts are included during the revision of the course (syllabus) at university level.
- Feedback from alumni and final year student are taken into account during the revision of the PEO's at the institute.
- Indirect assessment is done through campus interviews and performance of students in competitive exams like GATE, GRE, and CAT, etc.

### 35. SWOC analysis of the Mechanical Engineering Department and future plans

#### SWOC Analysis

Strengths Weaknesses Opportunities Challenges (SWOC) analysis used to identify the acquired and inherent strengths along with weaknesses of the department. Furthermore, it is also carried out to identify the opportunities to excel and improve, to negotiate the challenges faced by the department from the internal and external environment.

#### Strengths:

- Learning environment is a blend of traditional teaching, Project Based Learning and Activity Based Learning.
- The department has a pool of well qualified and experienced faculty
- Faculty from IITs, NITs and renowned institutes.
- Well maintained labs to support curriculum.
- MoU with the industries for research and development.
- Research publications and books.

#### Weaknesses:

- Less number of senior faculty.
- Inadequate consultancy activities

#### Opportunities:

- Interdisciplinary approach in research & industrial training
- Good opportunity for community projects.

#### Challenges:

- Induction and retention of faculty.
- Improve the quality of results.

#### Future Plans:

- To establish Project Based Learning in majority of subjects.
- To establish a research center.

## Department of Civil Engineering Evaluative Report of the Department

**1. Name of the department:** Civil Engineering

**2. Year of Establishment:** 2011

**3. Names of Programmers / Courses offered (UG & PG):**

Course offered	Name of the course	Specialization	Year of Establishment	Intake
U.G.	BE	Civil Engineering	2011	60
			2012	60
P.G.	ME	Construction & Management	2013	24

**4. Names of Interdisciplinary courses and the departments/units involved:**

Following Interdisciplinary courses are involved in curriculum of programs:

Sr. No.	Name of Interdisciplinary course	Department
1	Engineering Mathematics-III	First Year Engineering
2	Applications of Statistical Methods in Construction	First Year Engineering

**5. Annual/ semester/choice based credit system (programme wise):**

Sr. No.	Course offered	Programme	Duration	System	Evaluation
1	U.G.	Civil Engineering	4 Years	8 Semester	Marks/ Credit
2	P.G.	Construction and Management	2 Years	4 Semester	Credit

**6. Participation of the department in the courses offered by other departments:**

Sr. No.	Courses offered	Department
1	Basic Civil & Environmental Engineering	First Year Engineering
2	Engineering Mechanics	First Year Engineering

**7. Courses in collaboration with other universities, industries, foreign Institutions, etc: Nil**

**8. Details of courses/programmes discontinued (if any) with reasons: Nil**

**9. Number of teaching posts:**

**For Undergraduate Programme**

### 33. Teaching methods adopted to improve student learning

Department practices an Activity based learning in addition to traditional lecture-based learning.

#### To improve classroom learning, department has applied following practices

- Staff members are allotted subjects as per their choice, specialization and experience
- Staff members are asked to prepare teaching plan and course file before the start of the semester.
- Each staff is asked to prepare soft copies of their notes and Powerpoint presentations for the course content. Same is shared with the students by using ERP software and in the classrooms.
- To simplify Teaching Learning process teaching aids are provided for conducting lectures.
- Models, videos, and animations are used by faculty members to elaborate concepts as per the complexity of the topic.
- Site visits are plan to clear the theoretical concept.

#### Project Based and Active Learning

- Students are motivated to work on-ongoing research projects at various organizations.
- Project exhibition and various technical festivals provide an opportunity for active learning.
- Expert talks and Industry expert Seminars are arranged to bridge the knowledge gap of the students.
- Industrial visits are arranged to give practical knowledge to the students.

#### Assessment Method

- Various tests (Unit test and Prelim, Online, etc.) are used for assessment the progress of students.
- Mock tests are conducted to evaluate the students' understanding of the subject.
- Industry experts are included during the revision of the course syllabus at university level.
- Feedback from alumni and final year student are taken into account during the revision of the PEO's at the institute.
- Indirect assessment is done through campus interviews and performance of students in competitive exams like GATE, GRE, and CAT, Civil Service Entrance Exam, UPSC Entrance Exam etc.

#### 34. Participation in Institutional Social Responsibility (ISR) and Extension activities

### 35. SWOC analysis of the Civil Engineering Department and future plans

#### SWOC Analysis

Strength Weakness Opportunity Challenges (SWOC) analysis is used to identify the acquired and inherent strengths along with weaknesses of the department. Furthermore, it is also carried out to identify the opportunities to excel and improve, to negotiate the challenges faced by the department from the internal and external environment.

#### Strengths:

- Learning environment is a blend of traditional teaching and Industry Interaction.
- Well maintained labs to support curriculum.
- Well structured student enrichment program.

#### Weaknesses:

- Lesser consultancy based projects needs to be improved.
- Consultancy work needs strengthening.

#### Opportunities:

- To improve results in university Exam.
- Interdisciplinary approach in research & industrial training.
- Good opportunity for community projects.
- Environmental consciousness.

#### Challenges:

- Induction of highly experienced faculty.
- To improve incampus placement.

#### Future Plans:

- To establish Research Centre.
- To implement Project Based Learning research.
- To start consultancy.

### 33. Teaching methods adopted to improve student learning

Learning must be meaningful and appropriate for the student's cultural environment. Experiences must be varied and hence atmosphere of support is provided. The active involvement of all students should be cognitive, aesthetic, physical and social dimensions and it is the key in a comprehensive engineering program.

We utilize the following model that enhances the teaching learning process.

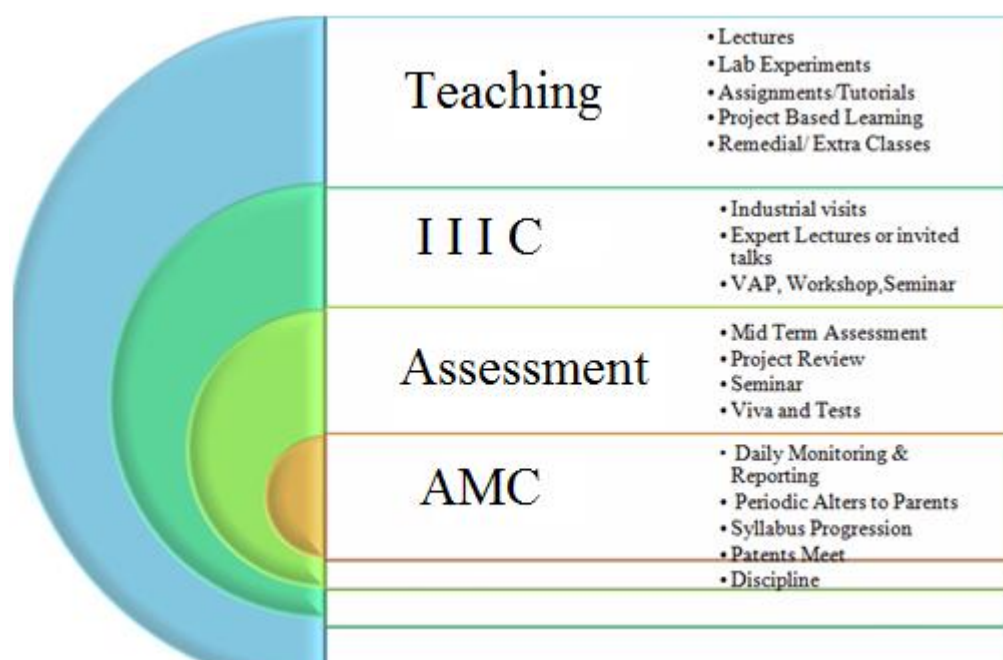

**Figure 1: Teaching Learning Process**

**Effective Learning involves the following modules:**

1. **Quality of teaching:** All Faculties of the department are Post Graduate and some of them are Ph.D. pursuing with good experience in academics. Quality of teaching is maintained by upgrading knowledge of the staff with recent trends and technologies of the industries by attending various Seminars, Workshops, Conferences, STTP etc.
2. **Prior knowledge:** Although some prior knowledge is required to understand the concepts best, the teaching faculty always uses bullet pointers to refresh the concepts that are required. Some of the methods adopted by our faculties are question answer sessions, discussion on previously topics taught.
3. **Readiness:** All faculty members make use of state of the art facilities like power point presentations, available educational resources from online portal in order to get the student better clarification of points.
4. **Environment:** The faculty always maintains a technically fun and light environment that helps the students to grasp the points quickly. The use of projectors and other equipment aids the staff to clear the points.
5. **Pedagogical Activity:** Various activities like Board Game, Videos, Roll Play Power Point Presentations, Chart Making, Quiz are arranged on various subject to enrich & clarify the student concepts of the subject.

The teaching methodologies vary according to the heterogeneous group of students. For the benefit of the students we adopt following teaching and learning practices:

**Figure 2. Best teaching and learning practices**

### 35. SWOC analysis of the department and Future plans

SWOC analysis is mandatory for improving strengths, overcoming weaknesses, to avail the opportunities and to face the challenges. Keeping this view at department level, we do SWOC analysis with the help of its stakeholders through written and oral feedback mechanisms. SWOC of the department can be considered as following

**Figure: 3 SWOC Analysis**

### Future Plans

1. Time bound up-gradation of faculty qualification.
2. Skill based VAPs with the support of industrial experts.
3. Alumni interactions on regular basis.
4. To set up center of excellence in specific domain.
5. To promote R&D and consultancy work.

## Information Technology Evaluative Report of the Department

### 33. Teaching methods adopted to improve student learning:

1. Traditional as well as Modern teaching methods are adopted.
2. Various teaching methods like Collaborative method, Demonstrations and Multimedia Learning Techniques are followed by the staff members.
3. Unit-wise assignments are given to the students apart from the regular question banks.
4. Practices like Group Discussions, Seminars, oral questions and Quizes are adopted as a part of classroom teaching.
5. Focus on student-centered teaching is practiced by the Faculty members.

#### To improve classroom learning, department has applied following practices

- Teaching load is distributed as per the teacher's subject choice and specialization.
- Prior to the commencement of the semester, teachers are asked to prepare teaching plan and course file.
- Every faculty member prepares hand-written notes along with the power point presentations which are shared to the students in classrooms and through google groups.
- For better understanding of the concept, videos and animations are used by the faculty members.
- Extra Lab experiments and numericals are given in the form of homework to the students.
- Problem solving and practice sessions are incorporated in the time table.

#### Project Based and Active Learning

- Every semester, new subjects are introduced as a Value addition courses/certification through IITB. This activity helps in improving the technical skill.
- Students are suggested to continue the technical seminar topic of Third Year as their project topic in their final year.
- Various technical events are organised by the students.
- Eminent personalities from Industry are invited to conduct lectures/seminar so as to bridge the gap between academics and industry.
- Tests like QALR, AMCAT are conducted to enhance the employability skills of the students.

#### Assessment Method

- Theory assessment is done through Unit tests, Preliminary Examination.
- Continuous assessment is done in the practical sessions for each experiment.
- Periodically Mock tests are conducted.

### 34. Participation in Institutional Social Responsibility (ISR) and Extension activities

1. Students participate in Blood Donation Camp, Orphans relief measure, organ donation activity, Road Safety Awareness and Tree Plantation program.
2. Promotion of leadership and team building qualities is done through extra/co-curricular activities such as NSS, Technical Festivals, Cultural activities, various days like Engineer's Day, Teacher's Day.
3. Students participated in NSS Winter Special Camp from 10<sup>th</sup> December to 16<sup>th</sup> December under which various activities like Cleaning at School Campus, Survey of Village, Waste water management, Cleaning at cemetery, Blood Donation Camp, Compost khat, Tree Plantation, Painting to school compound wall, Women Empowerment Program, Street Play & Guest Lecture, were conducted.

### 35. SWOC analysis of the department and Future plans

#### Strengths:

- Experienced Faculty
- Participation in curricular and extra curricular activities
- Close monitoring of student performance and system by regular communication with parents.

#### Weaknesses:

- Research culture
- Faculty qualification improvement

#### Opportunities:

- Industrial projects to be done
- Enhancement of Entrepreneurship development activities.

#### Challenges:

- Result Improvements
- Improving student's communication skills
- Adaptive preparation of students to sustainability in competitive global world.

#### Future Plan:

- Promote Faculty for Research & Development work

Placement Improvemen

### 33. Teaching methods adopted to improve student learning

- Department practices blend of Activity based and Project based learning in addition to traditional teaching learning methods.
- To improve classroom learning, department has applied following practices
  1. Staff members are allotted subject as per their choice and specialization.
  2. As far as a possible faculty who has taught that particular course is allotted to teach that course.
  3. Faculty are asked to prepare semester teaching plan and course file before the start of the semester.
- To simplify Teaching Learning process teaching aids are provided for conducting lectures.
- Models, videos, and animations are used by faculty members to elaborate concepts as per the complexity of the topic.
- Lab experiments and homework in the form of assignments is given to students.
- Internal tests and mock practical and oral examinations are conducted throughout the semester to judge student's knowledge.
- Students with low performance and low attendance go through remedial classes and retests.

#### Active Learning

- Students are motivated to work on ongoing research projects.
- Project exhibition/competitions and various technical festivals provide an opportunity for active learning.
- Expert talks, Industry expert Seminars and Industrial visits are arranged to bridge the knowledge gap of the students.

#### Assessment Method

- Various tests (Unit tests and Prelim, Online, etc.) and attendance of students for theory and experiments are used for assessment.
- Mock tests are conducted to evaluate the students understanding.
- Industry experts are involved during the revision of the course at university level.
- Feedback from alumni and final year students are taken into account during the revision of the PEO's at the institute.
- Indirect assessment is done through campus interviews and performance of students.

### 35. SWOC analysis of the department and Future plans

#### Strengths:

- Major statistical assessment platform to assess employability in the form of Aspiring Minds Computer Adaptive Test (AMCAT) is undertaken which is well accepted by top MNC.
- Co-Curricular Activities (Sinhgad Karandak and Techtonic fests) are organized and participated by the students from all over the state.
- Teacher Guardian practice adopted for students for close monitoring of student performance and regular interaction with parents.
- Additional skills areas like Soft skill and add on technical skill are covered for student development through exclusively designed Student Training Program (STP) ) which includes Group discussion (GD), Personal Interview (PI) sessions, Test Series of Quantitative Aptitude (QA) – Logical Reasoning (LR) and Value Addition Program (VAP) throughout the curriculum.
- Eminent Guest speakers from academia, industry, and service sector are invited for Interaction and exposure to best practices for the students and faculty.
- Students are getting exposure to work on live projects through Roboclub activity and get opportunity to work on industry projects through MOUs between department and industries.
- Multi-Disciplinary activities (TTT and TAP) and knowledge sharing are carried out across the institutes under STES.

#### Weaknesses

- Lack of highly qualified (PhD) Faculty.
- Research, Publications, and consultancy.

#### Opportunities

### 33. Teaching methods adopted to improve student learning

- Use of modern teaching aids like LCD projectors with animated PPT's for effective teaching learning processes.
- Group discussion to improve their fundamentals and inculcate habit of self studies during extra lecture called self learning session.

- Teacher Guardian scheme is an effective tool to improve the personality of the student as well as to solve their academic and personal problems.
- Continuous assessment of students by using e-exam portal with overall performance analysis for the remedial efforts.
- Assignments, tutorials, questionnaire for improving students writing skills.
- To improve classroom learning, department has applied following practices

#### Assessment Method

- Various tests (Unit tests and Prelim, Online, etc.) and attendance of students for theory and practical's are used for assessment.
- Mock tests are conducted to evaluate the students understanding.
- Student's feedback is collected for improvement of teaching learning process.

### 35. SWOC analysis of the department and Future plans

#### Strengths:

- Experienced and well qualified faculty.
- Adaptability to innovative teaching methodologies.
- Multidisciplinary team work
- Parental care of students for overall growth of student through Teacher Guardian scheme.

#### Weaknesses

- Less number of research publications and projects
- Lack of quality result

#### Opportunities

- To develop research based pedagogical tools.
- To motivate and enroll all faculty for qualification upgradation.

#### Challenges

- To improve results
- To attract the meritorious students.
- To make the students competent to face the challenges in academics.

#### Future Plan:

##### Short Term:

- Encourage staff to do Ph.D.
- Effective implementation of K-point.

##### Long Term:

- To introduce subject based mini projects to increase interest and better understanding of subject.
