About Activity:-

It all started with the introduction of our speaker Mr. Om Prakash Yadav about his teaching experiences and his academic qualifications. Then he moved on to explain that why it's important to learn Python and how it can be beneficial for us in the IT industry. He explained us in a very beautiful manner that if we have knowledge to do programming in Python then it's going to help in future like web application, data science and Machine learning. He even explained Basics of Python. The lecture was quite interesting. He also explained us that in the era of competition if we learn Python, it'll not only help in the IT industry but even to make our Resume more effective.
