## **About Activity:**

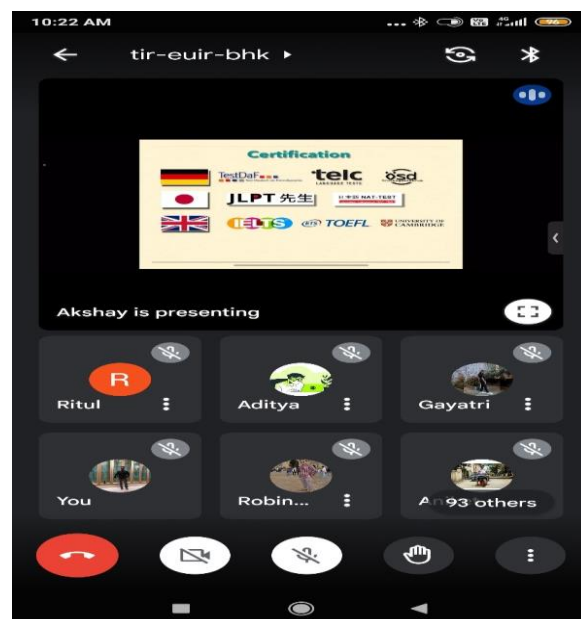

It all started with the introduction of our speaker Mr. Akshay Khirid about his teaching experiences and his academic qualifications. Then he moved on to explain that why it's important to learn foreign languages and how it can be beneficial for us in the IT industry. He explained us in a very beautiful manner that if we even learn a single foreign language, it'll benefit all students for a long time and for this, he'll help us to the most possible manner. He also explained us that in the era of competition if we learn a foreign language, it'll not only help us when we go abroad for further studies but also will help us in the IT industry because learning foreign language will give us added advantage that'll differentiate us from the rest.

### Role of foreign languages in enhancing career opportunities in abroad

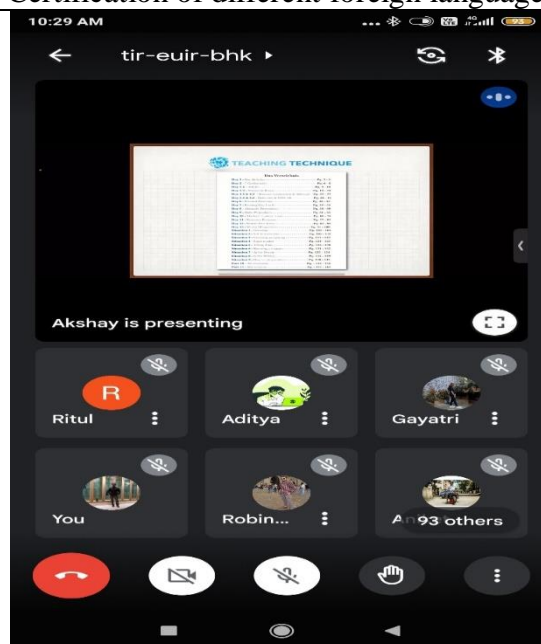

Introduction of the webinar

Certification of different foreign languages

Podcast of Global dialect

Teaching techniques of Global dialect

## Program outcome:

It was really a well-organized session I'll like to thank Mr. Akshay Khirid for explaining the concepts in such a beautiful manner. We'll be surely looking forward to learn the foreign languages as soon as possible so that it'll be beneficial for us in the near future.
