### About Activity:

The student Training Program (STP) is as an alternative form of education for each year of students in four-year Engineering course in RMD Sinhgad School of Engineering, Warje. Grooming the students for the industry needs and behavioral aspects in life are covered by conducting student Training Program. STP co-ordinator worked cooperatively to successfully complete the STP- II for SE students.

These modules are designed in such a fashion that the whole procedure of STP-I would benefit students in their career. During whole year, the STP coordinator developed a continuous and comprehensive evaluation process using different modules. STP-II includes total 4 different modules out of which Reading Skill was covered by **Prof. Bhavna R. Pawar**. Reading skills are abilities that pertain to a person's capacity to read, comprehend, interpret and decode written language and texts.

Explained Improvements Needs After Activity

## Program Outcome:

Reading is important because it develops their minds and gives them excessive knowledge and lessons of life. It supports them to recognize the world around them better. It keeps their minds active and enhances their creative ability. Reading improves their vocabulary and develops their communication skills. Students actively participated in activities in which they have to solve questions based on Reading Skill on Virtual Lab Platform.
