| **Date:** | **27th Sept 2022** |
| **Venue:** | RMD Sinhgad School of Engineering, Warje, Pune. |

## About Activity:

RMD Sinhgad Technical Institute Campus Department of Information Technology, organized a workshop on **"Responsive Website Development using Bootstrap"** for T.E IT students on 27th September 2022  from 10:00 AM to 1:00 PM. This workshop was conducted on offline mode.

The workshop was conducted to create awareness about the Bootstrap which defines  a responsive grid system for varying layouts. It is a great starting point for building a mobile friendly website. The workshop gave hands-on experience to the students on Bootstrap  for developing new Web Site  and designing HTML web  pages in a more interactive way. It contains various types of page design properties. With the help of Bootstrap, we can set the height and width of the page and make it more interactive with the best browser compatibility as per the user requirements.

Engaging Student

Student photo

**Program outcome:**

1. To help the students to be familiar with bootstrap and Web designing platforms.
2. Learn to develop their own application individually.
3. Everyone enthusiastically participated and learnt a lot from the workshop.
