REPORT

Workshop on “Website Development Using Bootstrap”

Event Name: Workshop on “Website Development Using Bootstrap”

Day & Date: Tuesday, 20th September 2022

Duration of Session: 11:00AM to 2:00PM

Class: SE-B Students

Strength: 52

Resource Person:

Mr. Swami Panjala
Founder and CEO,
EliteSoftwares.Pune

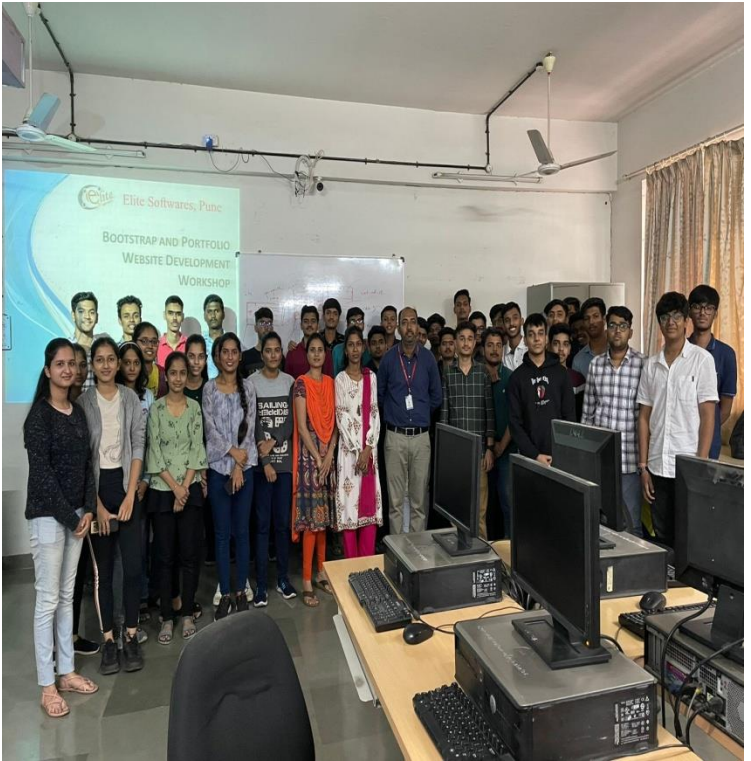

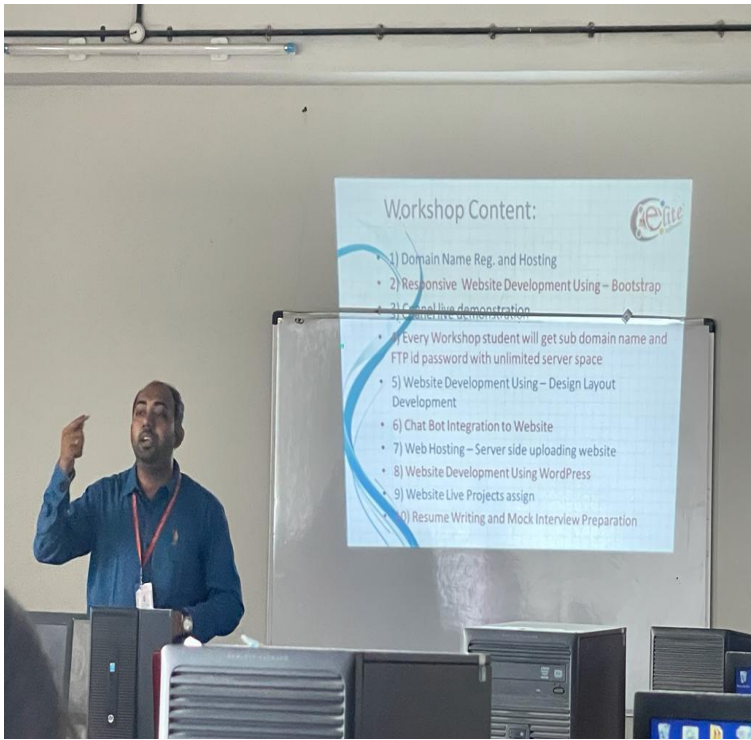

Purpose:

The purpose of this workshop is to enlighten engineering students because Website Development is a way to make people aware of the services and/or products you are offering, understand why your products are relevant and even necessary for them to buy or use, and see which of your company's qualities set it apart from competitors. a website is to turn visitors into prospects. Bootstrap it is flexible and easy to work with. Its main advantages are that it is responsive by design, it maintains wide browser compatibility, it offers consistent design by using re-usable components, and it is very easy to use and quick to learn.

Points discussed:

- Responsive website development using-Bootstrap
- Website development using-Design Layout Development
- Chatbot integration to website
- Webhosting-Server side uploading website
- Website Development using WordPress
