IQAC meetings were held every quarterly to plan and check the academics as well as non-academic activities. IQAC and academic monitoring committee regularly monitors all academic activities to fulfil the vision of the institution. Pre-semester planning of academic calendar which includes all internal examination timetable, various academic activities and tentative time table of university examination was done. Faculty and students were encouraged to do certification courses like NPTEL, Coursera, UdeMy, etc. to enhance their skill sets.

Experiential learning opportunities are provided to students and staff by arranging some Value Addition Programs (VAP). Students were given exposure to Industry through industrial visits. Internship opportunities were suggested for students to get hands-on experience. Students were encouraged to do industry sponsored projects to get the industry exposure and bridge the gap between industry and academia. Research culture is built by organizing workshops on patent filling, Project Competitions and asking students to write a review paper and final research paper on the work accomplished. Students were also encouraged to participate in extracurricular activities. Skill Development is done through Audit courses and Students Training Programs (STP). A lecture series was conducted in the institute for teaching staff to excel in their research work and guidance sessions were conducted on how to write research proposals for funding and different funding agencies were also suggested to teaching faculties.
